(JULY TO NOVEMBER)

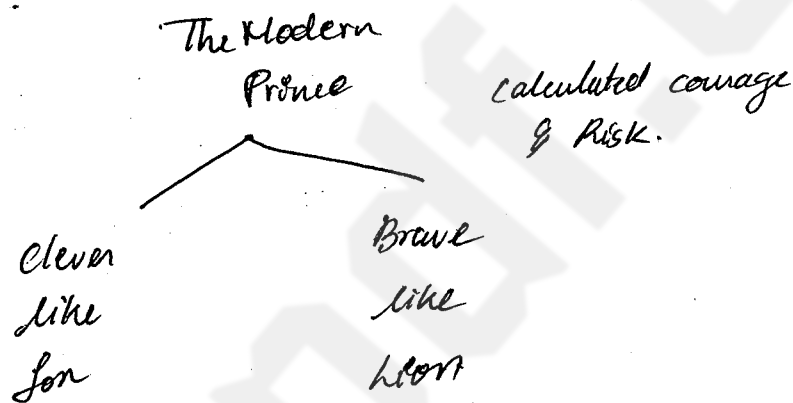

Political Science

Previous Question Papers from - 2008.

Before that topic ~~we~~ ^I should write the questions on it & analyze after it.

→ Newspaper ~~Hindu~~ & Indian Express.

→ Rajya Sabha TV Debates, AIR (All India Radio).

Paper - I

Thoughts & Theories.

Western political thoughts (It made base for other topics)

(10) WESTERN POLITICAL THOUGHT
Karl Marx (Important)

(8) Political Ideologies (More understanding base for other concepts).
* Feminism should be prepared thoroughly.

Exam point of view ~~fascism~~ (Rise of Right etc).

→ Rise of authoritarian.

Rise of Neo fascism.

② Theories of the state:-

Exam. point of view Post-colonial is very important

[India is known as Soft state]

Soft state = soft on criminals.

State role is to prevent crime.

Our country is not completely failed State.

India is function called Soft state & functional Anarchy.

→ Answer should be written from. Current Scenarios * Referendum
& prebure

⑦ Concept of power, hegemony, ideology & legitimacy.

compulsory question in mains.

Theories of power - Foucault's Theory of power. (concept of knowledge & power).

③ post modern. Theory of power.

concept of discourse & concept of narrative given by Foucault.

⑥ Theory of Democracy.

compulsory question in mains

Deliberative Democracy (debate, discussions).

⑤ Rights

Concepts of Human Rights is important.

(Post world war II concept).

Bcz of Hitler atrocities → UDHR arrived after post world.
(Universal declaration of human Rights)
Jus-minorities (Non dominant sections)

* Rights of minorities, * Rights of women.

Special Right to minorities was special feature of our constitution
to western constitutions.

pseudo Secularism v/s Secularism

* ~~multiculturalism~~ culturalism

(ex = Gurkha Abolition in France).

[for protection of minorities]

③ Theory of Justice.

John Rawls.

** Rawls theory of justice (compulsory question).

Justice & Equality. are almost same.

④ Rawls Theory of Equality. Equality

Amartya Sen's Idea on Equality.

⑤ political theory meaning & approaches

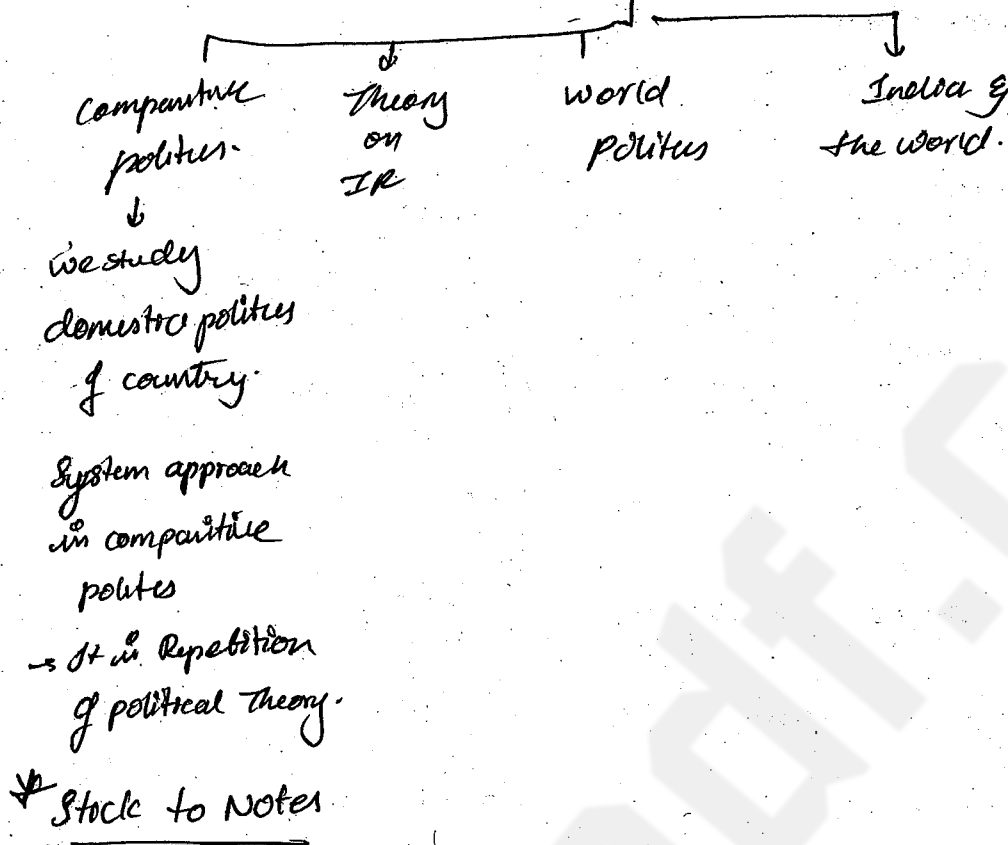

methodological topics.

behaviourism & post Behaviouralism

Paper II International Relations

II

Section A Comparative politics

- ① current developments in countries like protests in Algeria, Venezuela Situation.
- ② theory is static developments in Electoral politics. European Election.
- ③ track of Globalisation
→ G20-Summits their declaration. &
→ Important speeches at World Economic Forum.
(skip speech on Globalisation)

③ International Relations.

after world war. USA started playing effective role in International politics
→ modeled on American foreign policy.

④ ~~India~~

Indo-US Qibla in Washington.

USA → It is Indispensable nation.

US-foreign policy. & Russia & China foreign policy.

Best thing is to look at world map & politics comparatively.

In context of US-China-India policy.

⑤ American hegemony is very important.
very important.

⑥ ICT, India in UN peace keeping, India in Security Council.

⑦ Environment → climate changes.

SECTION - B

⑧ Important Questions

PMO office, think tanks etc.

for International Relations.

* Global Politics — Andrew Heywood

WESTERN POLITICAL THOUGHT

~~Thought means~~

In the discipline of political science thought represent the thinking of an age [Intellectual History].

Thought
is thinking
of an age

different
time & space

need of
world
history.

Q) Critically analyze plato's thoughts on the system of democracy.

Q1) Most Plato interpreters through the ages have been seduced by his greatness. They have taken his political philosophy as a benign idyll, without taking into account its dangerous tendencies towards totalitarian ideology. (comment)

Q2) popper's critique of plato is based on the notion that the idea portrayed in the Republic makes him an enemy of the open society. Do you disagree?

Q3) Explain the conception of justice in Plato's Republic?

Q4) Explain Plato's communism & compare it with modern communism.

Q1 what is theory? what type of theory are found in political Science?

Theory can be seen as a tool or method to understand or explain particular phenomenon.

Political theory explains political phenomenon.

In political science we find two types of theories.

① Scientific Theory alternatively political sciences.

(based on facts, observations etc).

Ex: Electoral Behaviour, Exit polls.

In Scientific theories, the focus is on facts. In Scientific theory verification is a necessary step.

② philosophical theories

In philosophical theories there is a focus on philosophical concepts (value based) Ex: Justice. The method of theory in philosophy is true logic (verification not required).

philosophical theories are normative in nature.
(norms, value based)

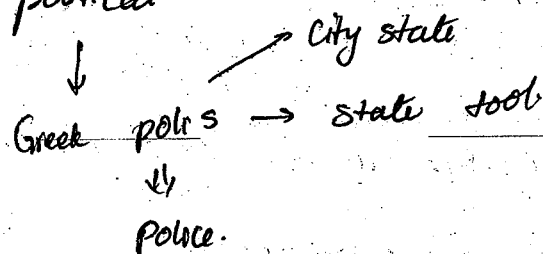

In political science very limited number of scientific theories exist; philosophical theories dominate in the subject.

political science as a discipline started as sub-discipline of philosophy. Hence by nature subject is very close to philosophy, history & law.

for philosophical theories, we can use the term political.

philosophy (or) Normative theories

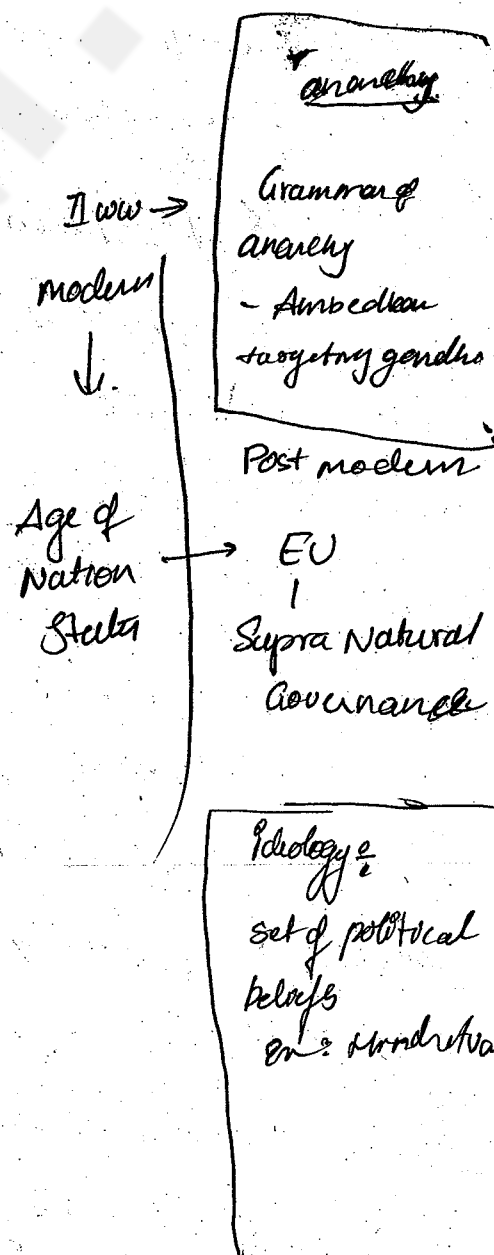

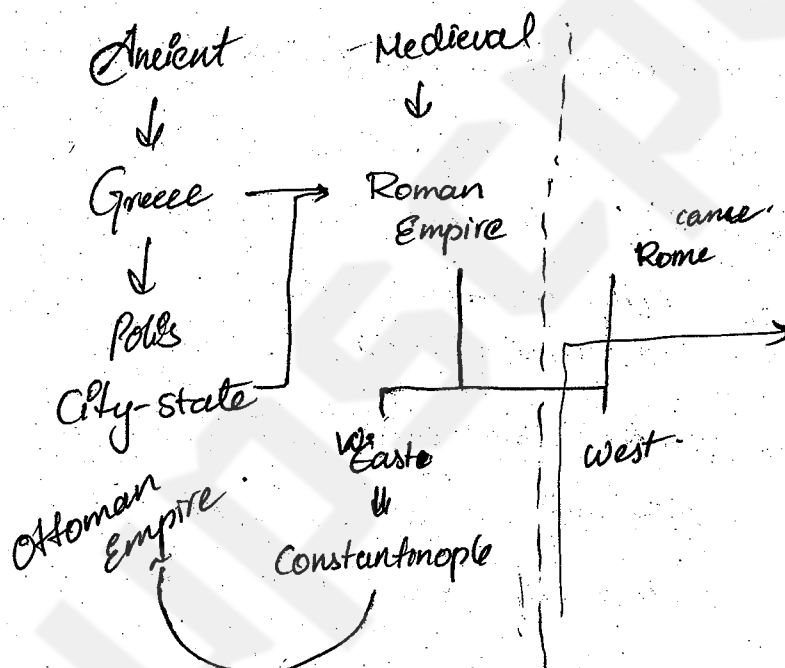

Defining the term political.

which means state hence political thought deals with ideas related to state or governance.

State represent authority, authority denotes power to make law & power to punish the law breakers. Hence state as an institution is identified with the Element of coercion (police & armed forces).

Stages of Western History

What is a nation state

↓
authority.

USA is nation state (federation)
EU is

History of nation state

Nation state is an European concept which originated in modern times.

In different phases there have been different types of state in the western world. i.e. city state, Roman Empire, Nation state & the Supra National state like EU.

Nation state denotes political formation where nation is considered as the unit of governance. When people belonging to one nation has been considered as a basis of authority or state.

Nation { Political (India, USA) → merged states.
cultural (Pakistan, Israel, Japan)

nation state
is where all
political boundaries
never match up
with cultural
boundaries

The term nation comes from the latin word Nasci it means face

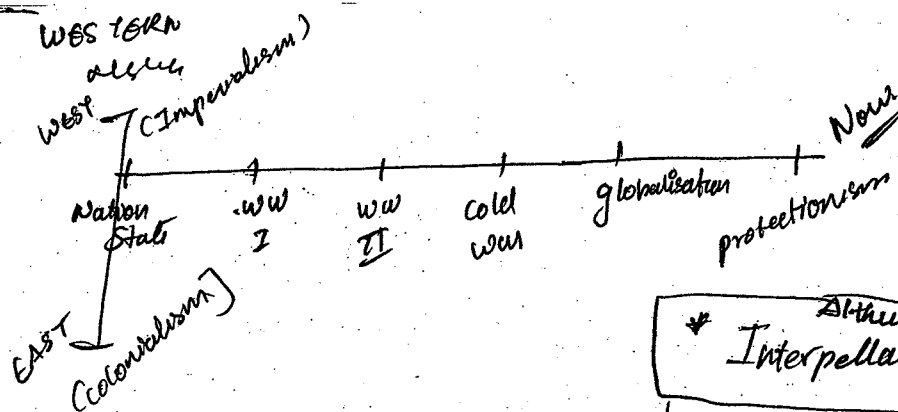

In a particular geography develops a particular Race. Geographical conditions also shape a way of life. Particular Race has way of life (culture).

Culture is expressed in many ways but the most prominent expression of culture is language. Hence language has been the determinant of Nation.

(disintegration of USSR)

World war → 1989 → Now.
Age of Ideology → Age of Identity

THE HISTORY OF EVOLUTION OF NATION STATE

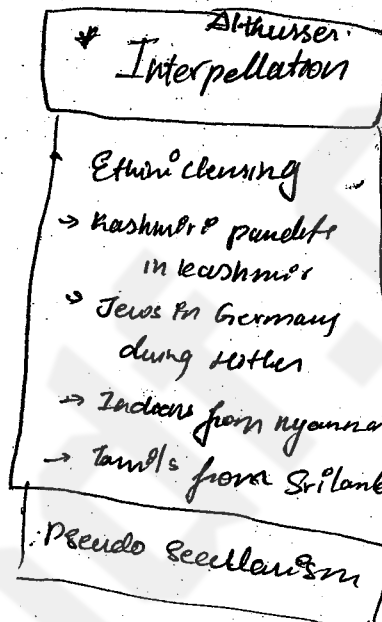

24 June 2019

THE WAY OF LIFE IN ANCIENT GREECE

It is like beginning of human civilization (or) western civilization.

Greece was just geographical Expression. It was not any state before. It didn't have state of nation.

- ① Greece was not a nation state
- ② It was just a geographical Expression.
- ③ Simplistic societies = This regions of Emergence of many city states.
- ④ Athens & Sparta were the most famous states.
- ⑤ There was no consciousness of being a Greek citizen. The consciousness of citizenship was limited to the city state.

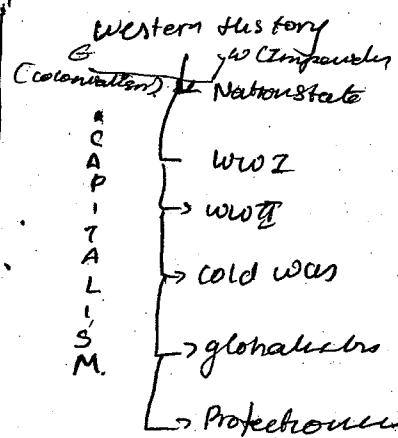

Diffusionist
Patronage & client
relationship, modern
way of life
so it is for way of
life not for God.

Finch → Bourgeois
cultural nation
so we decided only
as political nation.

Now ideology is funny
to Hindutva.
Political nationalism
is inclusive &
Cultural nationalism
is Exclusive.

Can be language,
Religion etc
or Identity based

Capitalism works
because of common sense
& their culture of
memes & they are
developing because
of consumerism.

- ⑥ It was a decentralized way of political life.
- ⑦ These city states were self sufficient units first like village Republics in India

What is a definition of state how do we define state?

According to ~~Aristotle~~, ~~The idea of state is self sufficient political community. Every state should~~

NEPAL
is Buffer
State of
India.

- Every state should have goal to achieve self sufficiency. Otherwise it cannot exercise freedom of choice.

*
buffer
state

Ancient Greece Economic & Social life

- It was agrarian society.
- Society was divided into two classes.
- (i) Masters.
- (ii) Slaves.

*Rationalists
are who apply

Reason to unde

→ stand what
is right &
wrong.

- Slavery was the mode of production
- Greeks never believed in Equality.

According to them Inequality is natural

- According to Aristotle Nature has created two types of persons
- (i) Masters
- (ii) Slaves.

Greeks also believed that whatever is natural is derivable

Greeks were rationalists

Medieval Europe

From City state → Roman Empires.

① Gradually city states came to an end. How?

→ Natural factors

Population grow, needs grow, simple to complex societies.

② → Ambitious kings like Alexander wanted to build an Empire

→ The centre of western civilization shifted to Rome.

→ Roman Empire was like extremely loose federation. (or) Confederation. (or) also confederation.)

↓
As Empire started becoming bigger, the chain of rulers (or) lords came into existence

↓
It had multiple centres of authority.

The authority of Emperor became nominal. The Real power were with local lords [Feudal lords]

Medieval Age is Dark Age = Age of Religion.

[where as Ancient is age of Rationalism]

Faith.

→ Gradually Religion became dominating force

Medievalism is a way of Life.

Ancient age is Age of Rationalism
Medieval age is Age of Religion
Modern age is Age of Science.

Q1 How Religion (Church) started gaining prominence.

As Roman Empire started becoming bigger, Succession struggles started; Hence the Interference of Church started. Gradually church became the most powerful Institution.

Secularism cannot exist without Rationalism.

Secularism is rolling back of Religion.

Political Land Scope of ~~Europe~~ Medieval Europe:

Religious wars

Religious wars started becoming more complicated as different sets started emerging. Europe suffered from 30 years of war. The 30 years war ended in Treaty of Westphalia (1648).
(Wars of Religion)

Secularism is a western concept where there is separation of church & state.

Significance of Treaty of Westphalia (1648)

30 year war.

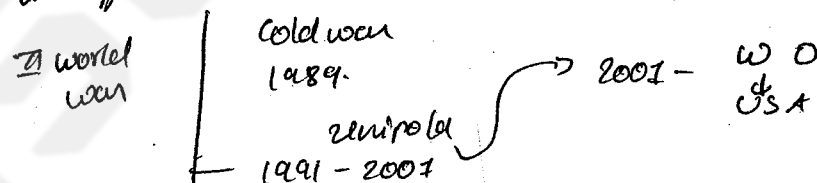

1648
↓
Treaty of Westphalia.

(i) The first formal Recognition of Nation State

(ii) The beginning of International politics.

first recognition of Nation State.

(Westphalian World Order)

Q1 what are the defining features of Nation State

- (i) Nation state is a territorial Entity
- (ii) It represents centralised system of authority
- (iii) Nation State ~~comes~~ possesses Sovereignty (essential elements of nation state)

Q) what does Sovereignty means & its historical origins?

→ Sovereignty means ~~Supreme authority~~

→ It is a concept of modern times.

→ ~~Treaty of Westphalia 1648 is the~~
~~essential feature of modern~~

→ the state has a sovereignty has its origin in conflict
b/w church & state in the medieval times.

✓ won.	
Capitalists	Church
N Prince	Plots
Protestants	Catholics

18th June 2017

→ Legitimate power is authority.

Geopolitics (Earliest thinker is Kautilya → gave mandala theory)

(→ Sun Tzu of China)

It is state craft

External

Internal.

→ Geopolitics is art of acquisition of land

(Neighbour is first enemy as we are going to
acquire his land first).

→ Geopolitics leads to war.

→ If its acquisition of market it is Geo Economics.

Ex: OBOR.

Buddhism is
in foundation
of formation of
country by conquest.

Q Why such balance of forces emerged in Europe?

In medieval.

Ruler — R Church (Catholics).

→ In Medieval Europe feudalism was the mode of production

Q What is peculiar feature of feudalism?

It is based on heredity. Son of a lord will become lord and a son of serf will become serf (absence of any freedom).

Another feature was that a serf is supposed to work under the specific feudal lords (A type of bonded labour).

Gradually towns started getting established around the castles. Towns were engaged in trading. They ^{got} ~~designed~~ significant amount of wealth. To increase their wealth they aimed to establish factories. They needed manpower to work in factories hence they supported the liberation of serfs. Serfs wanted liberation from the exploitation of lords (So came slogans liberty etc.).

Since feudal lords were land owners capitalists had to pay huge rent for the land. Hence this was another reason for clash of interest.

* Zeitgeist of our time.

China is on increase.

USA decrease

Clashing Interest b/w Kings & Lords &

King was looking for strengthening his own authority. The authority of kings was challenged by the church fathers on one hand & feudal lords on the other hand.

Against the common Enemy capitalists & kings joined hands. Capitalists have money power, kings had muscle power, protestant Reformation added ideological power (soft power).

The catholic church joined hands with feudal lords who represented the world order.

Other Reasons capitalists supported the National Kings

(i) If feudalism is based on ~~land~~ capitalism is based on ~~land~~ for the proper enforcement of contract there is a need for clarity.

→ which law is supreme

→ which authority is ultimately responsible to enforce contract. Hence it was agreed that

Capitalism is based on contract where as feudalism is based on hereditary.

~~The king, therefore, should be the one to enforce the contract.~~

(ii). Capitalism in its initial phases requires protection from external competition. Since capitalists required physical boundary as well as fiscal boundary. Even the king wants protection of boundary over which his rule prevails.

How the nature of the state in the west have been changing with changing requirements of capitalism?

(i) Initially capitalists supported the absolute authority of the kings. So that they can establish law & order

(ii) Once kings established law & order, capitalists took the power in their own hands (Glorious Revolution)...

~~... transferring king into the hands of parliament~~

As workers were in the mood of Revolution, in order to protect Capitalism, Capitalists ~~... the workers by~~

→ Giving them ~~... to vote.~~

→ The introduction of ~~...~~

(to prevent the workers to become the controllers)
It is to protect the interest of capitalists

The nature of the state in the western world kept on changing as per the changing requirements of capitalism.

Political philosophy

→ Socrates

(Socrates is not in syllabus)
Plato is disciple of Socrates

→ he was considered as

"The wisest man on this Earth"

↳ W's down

→ Socrates is Imagining perfect man according to Plato.

→ Plato speaks through the character of Socrates.

Socrates is known as "Philosophy".

In Philosophy there are different branches,
Ethics is a branch of philosophy. Socrates is
known as father of ethics.

Soul →
Inborn concept

Spirit
western concept

→ Socrates had established the superiority of
philosophy over physics

~~Socrates~~
Human
↓
Ethics = Social
morality

— Society
— Applicable in society
— Norm = other
human.

Intellectual.

Pre Socratic Thought in Greece

Scholars have been trying to understand the
mysteries of the universe. The scholars in ancient Greece
before Socrates tried to understand the physical properties
of the universe [physics].

Some scholars suggested that the universe is made up of Air, Atom etc..

there were biologists who were also studying the physical & chemical properties of life. Vaiśhanavīka

Socrates held that it is not important to know what constitutes a life. Rather it is more important to know what constitutes Good life.

According to Socrates the purpose of life is happiness. In order to lead good life (or) happy life we should have the knowledge of good life.

the person is corrupt
bec he's ignorant

14th June 2019

Socrates searched for good life led to the development of philosophy & Ethics th

Q → Write a short note on Socrates theory of knowledge

want to join politics
Plato & Athens
Aristocracy
Patriot
Love for motherland.
Defeat of Athens by traditional Sparta.
→ In the happiness of subjects lies happiness of kings
→ Ignorant person doesn't know what is right & wrong
→ Ignorant can't do justice

According to Plato state is ^{necessarily} a pedagogue.

Socrates v/s Sophists.

- Sophists believed individual interest is higher
- Socrates " collective & individual are same.
- Sophists believed on money & power in a good life
- Socrates said that knowledge, ^{sound} character is for good life
- Sophists were teaching for Rich people so they were giving money. So they said money is source of good life & power is source of money & they are entering society
- Socrates said. what Sophists are teaching is "Rhetoric" & his teachings are true
- Socrates is teaching Dialectics.
(money & power is not source of good life).

The State of Athens sentenced Socrates to death (Asid to State he was misleading youth, State)

→ Sophists had power.

It is duty of the state to educate citizens without educating there will no development

Importance of Education can be started with

"unexamined life is not worth living"

According to Plato a state should be necessarily a pedagogue.

Raj Bala case

Plato found problem in Education system in Athens. Education system is in put hands. & it is not run by State & only Rich were able to get Education.

Law is Condemned

Socrates v/s Sophists
↓
on the teacher

Socrates said they were not giving right Education.

** Socrates v/s Sophists

Socrates Theory of knowledge has its origin in his search for good life. In content of the search for good life Socrates questions the Sophist view of good life.

who were Sophists?

Sophists were ~~first political~~ Educationists they were teaching youth in Athens that ~~money & power is a source of~~ good life. From the perspective of Socrates ~~it is more of Rhetoric~~ rather than the truth.

Money & Power is not the source of good life. It may be just a belief, our ~~beliefs~~ need to be ~~well~~ examined.

According to Socrates Sophists are not doing justice with their responsibility as teachers.

What is Responsibility of Teacher?

Teacher should tell the truth. A teacher is supposed to tell what the students ought to know. Rather what they like to hear.

What was the basic difference b/w Sophists &

Socrates?

→ Sophists believed ~~that~~ ~~their~~ ~~priority~~ over the collective interest.

→ Sophists believed that money & power is a source of good life.

We are scared of death bcz we don't know what happens after death.

Ignorance is cause of fear.

Socrates doesn't want to offend the state even near death.

why sophists had such thinking?

According to Sophists assumption about the man & society are wrong. ~~According to Sophists society are~~ artificial entities. They are created by man to fulfill his interest. They don't hold any greater value or significance for the life of an individual than fulfilling his needs.

What is the position of Socrates?

(i) It is wrong to think that society is not natural. man is by nature a social animal. Man cannot live without society. we cannot ignore the contribution of society in our lives.

11/8/6/2019
Tuesday

Socrates Theory of Knowledge

Content of theory of Knowledge

→ dissatisfaction with the pre Socratic scholars

Why? → They engaged themselves in knowing the physical property of universe rather than focusing on the spiritual properties.

→ For Socrates it is more important to know what constitutes a good life

→ Unlike physicists & like Socrates sophists, didn't try to answer, what constitutes good life. However there was a big difference in the meanings of good life given by Sophists & Socrates

1) Since the purpose of life is to lead a good life

2) To lead a good life one should have the knowledge of good life.

(true knowledge)

Kingdom of God
- Leo Tolstoy

3) Accd to Socrates one need not to go anywhere, bcz our soul is the ultimate guide

To understand the message of soul, we require reason (Soul Searching)

whenever we face ethical dilemma, the only way to resolve it, is to understand the message of soul.

How to do Soul Searching?

For Soul Searching Socrates has proposed "Dialectics"

Dialectics : Dialectics is a very fundamental method in political Science. The first person to give dialectics is Socrates. Later on ^(idealists) Hegel & Karl Marx made further contributions in the concept of dialectics.

Karl Marx is against Hegel's idealism

According to Socrates Dialectics represent Dialogue & Reason but ~~more~~ on Debate.

According to Socrates Dialectics is a process through which our beliefs, get filtered & change into true knowledge.

In Debate
Thesis — Antithesis
Argument — Counter Argument
Conclusion (Synthesis)

Dialectics need not to be a Dialogue, It can be monologue. Any conclusion / synthesis should not be understood as compromise. As a conviction.

conclusion
had to be
logical rather
than balanced

What is the Role of a Teacher?

the Role of teacher is not to provide but to help the student to understand of concepts & problems (help them to help themselves)

where they
can derive
truth by
themselves

How?

By Engaging them in the debate or questioning

According to Socrates knowledge is imprinted in our souls. Dialectics is needed to understand the message of soul. Thus the True knowledge cannot be gained only by observation. Our observations should go through the test of logical reasoning.

Thus for Socrates philosophy is true knowledge rather than physics

What are characteristics of true knowledge

The true knowledge cannot be shaken it is eternal it is of permanent nature it is product of Dialectics.

Philosophy is
the study
of true Ideas
or
the Idea

the True knowledge can only be about things which themselves are of permanent nature Since the world of matter is a world of change, we cannot have permanent knowledge about the material things. We can have permanent

knowledge only about "the Idea". Any Idea is not Idea,
the Idea which is an outcome of ~~dialectics~~ i.e. synthesis is the
real Idea. Thus the true Idea is pure, perfect & Eternal.
There are two worlds, the world of matter & ~~the~~ world
of god. The Idea belongs to the world of god.

Features of Idea.

1) Idea belongs to the world of god. It belongs
to the world of perfection.

Rightist

Conservatism can
be sustained
only by fear.

WHAT IS PHILOSOPHY?

PHILOSOPHY IS THE STUDY OF "IDEA". The method of
philosophy is logic. In philosophy there are different branches,
Socrates is originator of ethics bcz he dealt with the
question of good life.

What constitutes good life or a Right Conduct?
science known as "ethics".

Ethics is
an idea
of good
life
philosophy is
general &
ethics is
particular

~~Sophists deals with politics.~~

Comparison b/w Sophists & Socrates

For Sophists the ^{source of} good life is money & power,

why?

Money & power cannot be considered as source of good life
in human society. Good life requires Peace & Harmony in
the society.

How money & Power disturb peace & Harmony?

Money & Power are limited goods, when everyone will run for money & power. It is bound to create conflicts. On the other hand knowledge, beauty, Goodness, Virtues like honesty are unlimited goods. Pursuit of knowledge by someone does not create disharmony in the society.

~~Suppose we~~ Realists they tell about ~~the~~ ~~reality~~ ~~is~~ ~~the~~ ~~positive~~ ~~ideal~~ ~~who~~ ~~tells~~ ~~to~~ ~~live~~ ~~like~~ ~~that~~. Thus Ethics deal with what should be rather than what is. Thus the knowledge of Ethics is essential to make our lives better. We shouldn't be satisfied with the knowledge of what is, we must know what should be.

"Unexamined life is not worth living."

(from theory of knowledge)

"Knowledge is virtue"

Or

u

On Examined life is not worth living

Socrates is known as the father of ethics. Scholars before Socrates were trying to understand the physical properties of life, however Socrates felt it is not enough to know what constitutes life, rather the important question is what constitutes good life.

Life is a most precious gift of god & we should live life to the fullest. The purpose of life is to lead a good life and hence one should have the knowledge of good life.

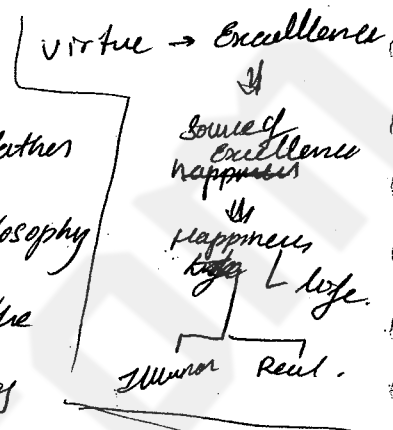

Socrates makes a point to differentiate b/w the true knowledge & the illusion of knowledge. Only true knowledge is a source of good life. He also tells the method to understand the true knowledge. He proposed dialectics, dialectics is a process through which we can examine our beliefs & can arrive at the real knowledge. Thus Examining our beliefs through the instrument of dialectics can help us in attainment of life which can be called as virtuous life. Hence he suggest that unexamined life is not worth living.

we have to
Comment

No one can deny relationship b/w the knowledge & betterment of human beings & the society. we can say that many of the contemporary problems like crimes, corruption can be tackled if we educate our people with

the right kind of knowledge today we recognise the importance & value based education to improve the society as well as the political system.

"Knowledge is Virtue"

Socrates is known as, father of philosophy. As a father of philosophy he established the superiority of philosophy over physics. He also established the linkage b/w the philosophy & good life. Socrates has given the theory of knowledge where he makes the distinction b/w the true knowledge & the illusion of knowledge. He held that true knowledge comes only when we put our believes to the test of dialectics. In his theory of knowledge he establishes that study of Idea is more important than the study of matter. Since matter belongs to the world of change we cannot have permanent knowledge about the things which themselves are changing. The permanent knowledge can be about the things, which are of permanent nature. According to him Idea belongs to the world of permanence. Hence ~~only~~ the Idea is Eternal & change the permanent Ultimate knowledge.

In Socrates we see knowledge is not just for the sake of knowledge, rather knowledge is the means to attain the good life. Hence he suggest that knowledge is virtue. Virtue represents excellence, excellence is a source of happiness. Only by true knowledge we can have true happiness.

Socrates theory of knowledge has been applied by Plato in his theory of Ideal State if Athens is to become the Ideal State it has to be ruled by knowledge.

Introduction of PLATO.

Plato is known as the father of political philosophy.

Why

He was the first person who tried to understand what is the "Ideal State" means which state can be considered as the perfect state.

Importance of Plato.

It is said that one can be either platonic (or) anti-platonic, but can never be non-platonic.

It is said that entire western political ^{philosophy} ~~thought~~ is nothing but footnotes to Plato & Aristotle.

It is said that Plato is philosophy & philosophy is Plato. Lost note
- Explanation.

Concepts of Plato.

→ most famous work of Plato is Republic. Republic is the constitution of the Ideal State. The subtitle of Republic is "Concerning Justice". Since he dealt with the theory of justice, Republic is book on political philosophy where he discusses the features of Ideal State.

Plato doesn't make difference b/w politics & Ethics.

→ Theory of Ideas.

→ Theory of Justice.

→ Theory of Ideal State.

→ One theory of philosopher king.

↳ Theory of communism
↳ Theory of Education.

→ Critical evaluation of Plato.

↳ Plato as father of totalitarianism.

↳ Plato as first fascist.

↳ Plato as first communist.

↳ Plato as first feminist.

→ ~~***~~ Plato as an enemy of open society.

19th June 2019

THEORY OF SOUL

Soul is a Indian concept. Plato among the rare western philosophers who not only talks about souls but also ~~theory of one soul~~.

Source of influence =

It is believed that Plato got the idea from

Pythagoras. It is believed that Pythagoras visited India & introduced Greek philosophers with many Indian concepts.

Features of the Soul =

- (i) Our personality has the physical as well as the spiritual dimension.
- (ii) Soul represents the spiritual element, the part of god.
- (iii) Our physical body ends but our soul never ends.
- (iv) Kingdom of god is permanent abode of the soul.
- (v) When our physical body ends our soul goes back to the kingdom of god.

Ethics - Individuality

Morals - Individual.
mostly almost same

We see state through govt.

wisdom is ability
to know what is
right & wrong

abode
house @
home

Soul deserves the kingdom of God. In the kingdom of God soul observes the perfect forms of all objects.

Dharma ↳ which holds the life on earth	dharma ↳ eternal law
---	-------------------------------

→ Soul again takes birth. it means comes back to the world of matter. Soul now observes the worldly objects.

→ Soul can tell what is the perfect & imperfect forms as soul recollects what it had observed in the kingdom of God.

→ Every human being has a soul. Every soul has three elements

(i) Reason.

(ii) Courage.

(iii) Appetite.

Though every person has a soul & every soul has three elements yet all souls are not same.

→ In some souls reason dominates whereas in the other courage or appetite. Hence on the basis of the spiritual qualities of soul Plato categorises persons into three classes

① Men of Reason - Men of gold.

② Men of courage - Men of silver

③ Men of Appetite - Men of copper

Concept of Myth of Metals

→ The gold is rarest of the three means such person will be less in number. The majority will be the men of copper

→ Thus there are three classes of people.

① First class

Second class &

Third class -

democracy
is rule
of appetite
(or) copper

Reason is
wisdom

Reason - virtue

→ He uses the three elements to show that these are the natural qualities, qualities of soul which do not change.

Since all souls are not equal. Every soul is not equally capable of comprehending (or) Recollecting what it has seen in the kingdom of god.

→ Man of Reason will be able to recollect, what it has seen in the kingdom of god. to the maximum extent.

Hence if Athens has to become the Ideal State, it has to be ruled by the man of Reason i.e. Philosophic king.

~
cynic circle

Theory of Idea :-

1) Reality is the Shadow of Idea.

Assignment :- Study of Xi - Jinping.

- about his early career.
- what was his ~~past~~ quality that he was chosen president.
- His educational background.
- when he became president of China.
- his prominent idea (China Dream **)
Revival of Chinese Nation
Socialism with Chinese characteristics.
- model kingdom. What is
model kingdom complex.

here
here Reality
means world of
matter in this
world of matter
we think money
is important.

mithya - false.

Idea is
world of god.

Purpose of theory
of idea is to tell
people not to run
for power.

Assignment :-

Xi Jinping Xi is the first general secretary born after the 2nd world war.

Early ^{life} ~~career~~

→ Son of Chinese communist veteran. who was exiled to rural Yanchuan County.

Cultural Revolution → Socio-political movement from 1966 to 1976 by Mao Zedong. then chairman of communist part

of China. → Stated goal was to preserve Chinese communism.

→ reimpose Mao Zedong thought (Maoism).

Studies → chemical engineering at Beijing's Tsinghua University as worker Peasant Soldier student (enrolled in college during the later part of the Cultural Revolution, accepted on the class background of his parents).

post career → Xi served as the vice premier & secretary general of the Central Military Commission.

→ 1999 Vice governor of Fujian. became governor a year later.

growth was 11% & stance against corrupt officials. → member of politburo Standing Committee of Communist party of China.

March 2008 Xi was elected as vice president of People's Republic of China.

→ 15th November 2012 elected as general secretary of Communist party & chairman of CPC central military commission.

Chinese dream :-

- Term popularized after 2013 within Chinese society that describes a set of personal & national ethos & ideals in China & Govt of China.
- Xi said, young people should "dare to dream, work arduously to fulfill the dream & contribute to the revitalization of nation."
- Acc to put Chinese dream is about Chinese prosperity, collective effort, socialism & national glory.
- Chinese dream is great rejuvenation of the Chinese nation.

Socialism with Chinese characteristics :-

- Representing Marxism - Leninism adapted to Chinese circumstances & specific time period.

Middle Kingdom :- (Chinese name for China) Zhong guo.

- The Chinese people unaware of high civilizations in the west, believed their empire occupied middle of East & surrounded by barbarians.

- Central Kingdom is a more accurate translation for

Zhong Guo (China).

- implies that China is superior to any other people & nation "under the heaven" & that it thus occupies a central position.

*** Theory of Idea.

Reality is the shadow of Idea

↑ ultimate Reality of God.

↓
world of matter

↳ money
↳ power

⇓
Change.

Plato is explaining to the ruling class.

Reality is the shadow of Reality. ~~It is not~~

→ Plato want to join politics for the justice of people.

① Plato is known as father of "political philosophy" as he gives the idea of ideal state.

② He not only thought about the idea of ideal state but also suggested how to create the ideal state.

③ The content of the statement is the concern of Plato. Plato was troubled with the state of Athens. He believed that the root cause of the problem was the ignorance of the ruling class.

The ruling class in Athens were running after money & power.

thos itself shows they were ignorant Money & Power cannot give the ultimate happiness bcz they belong to world of matter. They are not permanent in nature. Money & power are limited goods hence it will lead to the competition & conflicts in the society.

③ According to plato ruling class should run after unlimited goods like knowledge, Beauty. Since they are unlimited goods so they will not create conflicts in the society.

④ When Ruling class runs after money & power, it is because they are ignorant & Hence they take worldly pleasures as a source of happiness but once they examine their beliefs through the process of dialectics they will understand that the world which they were thinking as real was not Real. rather the world of illusions.

Beauty
is
Better
Human
being

⑤ The world of God is the world of Reality. The world of god is world of perfection. Thus ^(world of god) idea is real & the matter is the shadow of reality.

⑥ Above Idea comes very near to the Indian philosophy which explains this world as the world of illusions (or "MAYA". Even Bhakti Saints like KABIR also held similar ideas.

East & west may differ in time & space yet there are some universal truths which are accepted by almost

every civilization.

⑤ His theory of Idea is based on Socrates theory of knowledge

(i) According to Socrates the true knowledge can be about the things which themselves are of permanent nature.

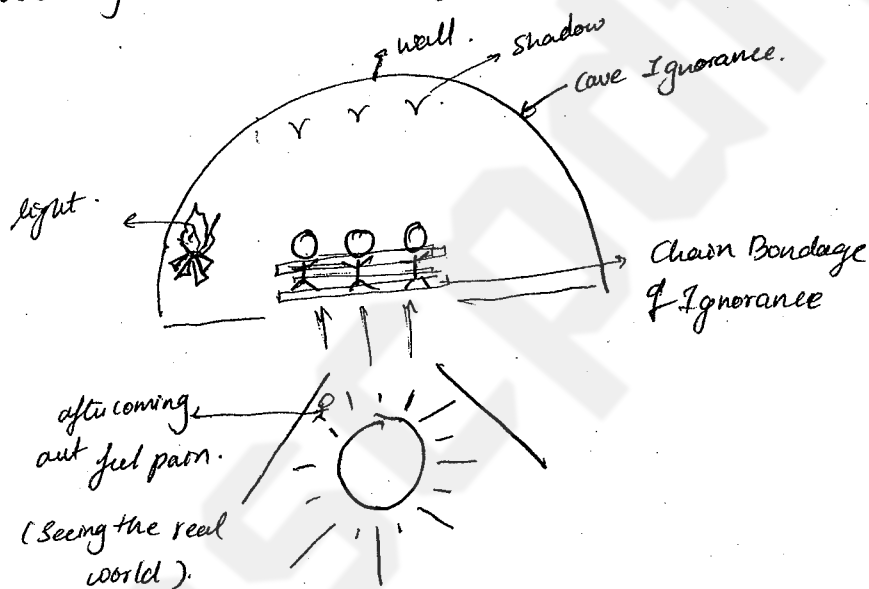

(Idea)

(ii) For Socrates true knowledge can bring us out of the illusions of knowledge & can provide us the real happiness.

How plato Explains Reality as Shadow of Idea.

Plato explains reality as shadow of idea through a story known as Allegory of Cave.

Lord Rama
↓
is Ideal
King.

Cave = Ignorance

Chain = Bondage of Ignorance.

Chain also represents arrogance.

Sunlight - Enlightenment

① CAVE = A symbol of Ignorance

② CHAIN = " " " of Ignorance & Arrogance Bondages.

③ LIGHT INSIDE THE CAVE = Shows the illusion of knowledge

④ SUNLIGHT = Shows the real knowledge

⑤ persons in chain are reluctant to come out bcz they have developed comfort in this situation.

- ⑥ person coming in day light suffers pain show that the journey of transformation from ignorance to knowledge cannot be without pain but ultimately the pain is worth taking.
- ⑦ The person who breaks the chain first represent the teacher.
- ⑧ Images on the wall show the illusion of Reality.

Reality as the shadow of Idea.

Plato is known as the father of political philosophy and the given statement from his theory of Idea which is based on the Socrates theory of knowledge.

corruption
can be
explained
with the
Allegory of
cave.

The theory of Idea is given in the context of his concern to make Athens an ideal state. during his time, Athens was in bad shape, according to Plato, the ignorance of the ruling class was responsible for the fall of Athens.

It is because of the ignorance that they were running after money & power, creating conflicts in the society since he tries to tell that money & power are not the source of true happiness. The world of matter is neither eternal nor ultimate it is not the real world rather the reflection of the world of good (or) world of Idea. The situation of the rulers in Athens was like the men in cave which he explains through Allegory of cave.

There is a similarity in Plato's philosophy & Indian philosophy as in Indian philosophy also the world of matter is also described as world of illusion (or) Maya.

THEORY OF IDEAL STATE OR THEORY OF JUSTICE

His theory of Ideal State is given in his book Republic. Republic denotes that the philosopher king is not a hereditary institution. It is based on merit (worth) rather than ^{birth} ~~wealth~~.

mostly write in paragraphs only for info write in bullet points

The Republic begins with the elaborate discussion on the theory of justice.

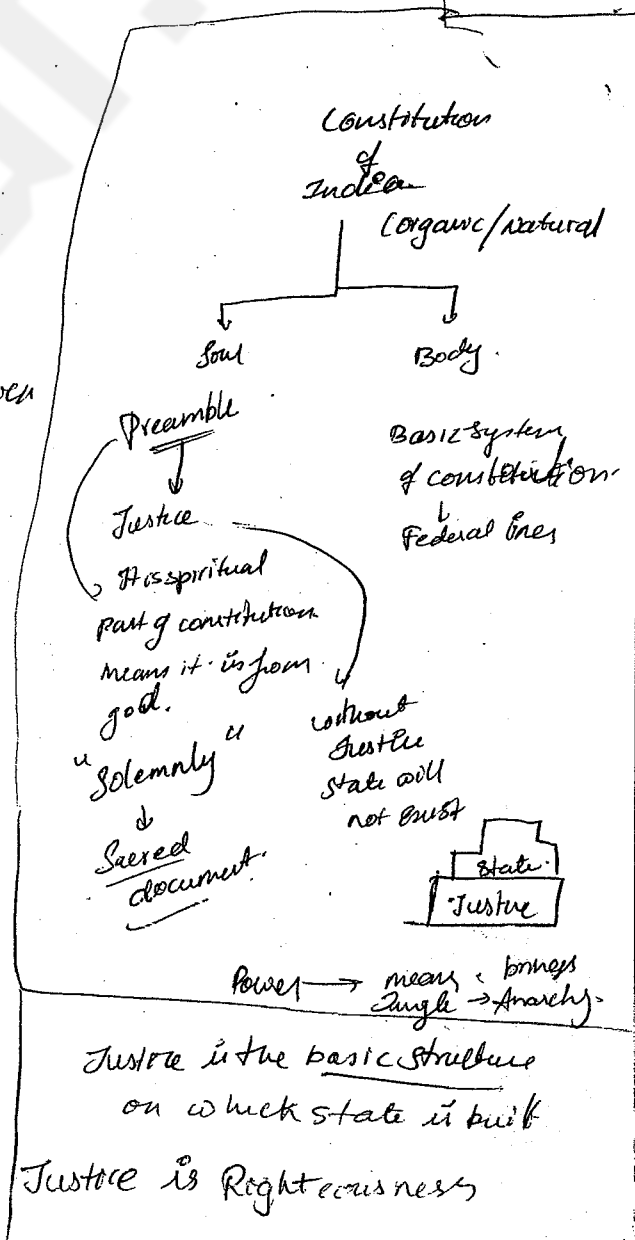

Introduction of Theory of Justice

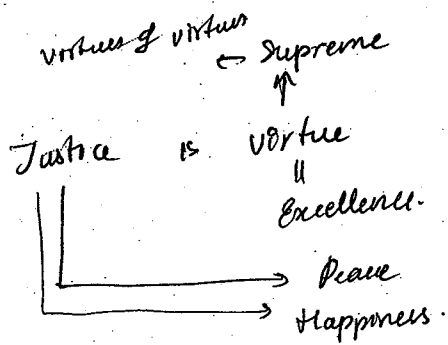

Justice is Architectonic Idea in Plato's philosophy. An Architectonic means the fundamental value on which the political system is based.

No political system can continue for long until & unless it maintains Justice.

What is Justice?

Justice is Supreme Virtue. It means it is virtue of all virtues.

Righteousness

Dharma.

→ Justice should be there but power is.

power → corrupts.

→ Rule of law corrupted form.

Rule of muscle power.

→ In fact Justice is more virtuous than knowledge.

Why?

All other virtues are dependent on justice.

Justice is a Spiritual Idea. Justice is a quality of soul. To understand justice person requires reason. Thus idea of Justice is divine.

Why Plato gives Theory of Justice?

He wants to make Athens an Ideal State. Ideal State represents the perfect state, Kingdom of the god. Hence it is to be based on the Idea of Justice. Plato wants to find out the ultimate idea of justice i.e. perfect idea of justice which means God's idea of justice.

How he gives the Idea of Justice?

He adopts the method of dialectics. Plato engages certain persons in dialectics.

Cephalus → (Old man Rural)

↓
Polermarchus (Son of Cephalus)

↓
Thrasymachus (Sophist) → Radical theory of Justice.

↓
Glaucon. (Sophist) → Pragmatic theory of Justice.

Justice according to Cephalus.

According to him

(1) Justice is doing one's duty

(2) Justice is paying one's dues.

Plato's response:

→ He accepts that justice is duty

→ Plato doesn't accept the second idea & compels Cephalus to re-examine his beliefs. Plato asks whether it would be just to return the weapon to a person, who has turned mad. For Plato, justice can't be contextual, universal idea of justice needed.

Justice according to Polemarchus

He comes in defence of his father Cephalus & clarifies that justice means giving everyone their due means if someone is good, (or) friend I should do good. If someone is enemy, I should be bad.

Plato's response:

→ Justice as an idea cannot involve the idea of harming someone. Justice is a virtue that makes someone better.

→ If we harm someone the person will become worse,

According to Plato it's not possible to know always who is our enemy & who is our friend.

Deng Xiaoping

(Keep a low profile & Never take a lead)

→ paramount leader of the People's Republic of China.

from 1978 to 1992.

→ After death of Chairman Mao Zedong's death. In 1976 Deng led China through for reaching market-Economic reform

→ Studied & worked in France 1920 where he became follower of Marxism-Leninism

Great Leap Forward & an Economic & Social campaign by Communist part of China. (by Chairman Mao Zedong)

→ After that movement which led to greater losses Deng presided over Anti Rightist Campaign.

Deng Xiaoping had created new brand of fuzzy Socialist ideology with free Enterprise. whose slogan was Socialism with Chinese characteristics

→ Deng Xiaoping had opened China to foreign investment & the global market, policies that are credited with developing China into one of the fastest growing Economies in the world for several generations & raising the

→ criticized for ordering the crackdown in the Tiananmen Square protests of 1989.

→ Revision of Hongkong to Chinese control in 1997.

Nixon :

→ Nixon arrival had ended 25 years of no communication or diplomatic ties b/w the two countries ^{has} normalized relations.

→ Nixon visited China to get more leverage over

relation with the Soviet Union.

(PRC = People's Republic of China)

- National Security Advisor Henry Kissinger. Nixon sent through him to closer the relation of PRC Govt
- due to this it led to significant shift in Cold war balance driving a wedge b/w US & China. resulting in significant Soviet concession to the US.
- trip spawned China's opening to the world & Economic party

24 character policy by Deng Xiaoping

- policy instated as observe calmly
- the policy is started as:
"observe calmly; secure our position; cope with affairs calmly; hide our capacities & bide our time; be good at maintaining low profile & never claim leadership."

ping pong diplomacy -

- Exchange of table tennis players b/w US & China (PRC). The event marked a thaw in Sino-American relations that paved the way to visit to Beijing by President Richard Nixon

23rd June 2019

 - Hindu US-Iran time line Important.

Thrasymachus (Sophist) v/s Plato (Socrates)

"Justice is ~~the~~ the interest of the stronger."

Sophists → Realists
↓
In politics
What is "they get power"

Plato → Idealist.
↓
In politics
What "they get justice"
"ought to be"

Justice is
implement
as it should be

Thrasymachus represent the sophist point of view. Sophists believe that this world is real. to live in this world we must own the material goods hence sophists inspire youth to be powerful.

According to Thrasymachus ~~justice is the interest of the strong~~
it means justice only belongs to the world of Idea. In reality, ~~justice is the interest of the strong~~ Only those who possess power can expect justice. not only they expect justice, they also determine what is justice.

"Justice is the interest of strong" implies

"Might is Right". He even goes to the extent to suggest that

those in power make rules which work in their interest
Hence if possible it is better not to obey the law, whenever
possible. In Thrasymachus we get the earliest idea of
"Civil Disobedience".

Response of Plato :

Since Thrasymachus is a realist, Plato doesn't have very
convincing argument against Thrasymachus.

Plato understands that in this world power is a
necessity. in this world those who have power rule in their
own interest. However ~~he doesn't agree that "what is" should~~
~~also be "what ought to be"~~.

for plato "might is Right" can be the principle of justice
in the world of animals it cannot be the principle in the
world of humans. Might is right - Law of Jungle.

Might is right can't be the principle of justice in the world
of humans because it will end the peace & harmony. man

different than other animals & is a ~~social animal~~. Man cannot
~~live without society~~.

Society is not as artificial as Sophists
think. To live in the society such principles are needed which
can bring peace & harmony. men also has reason & can live
differently from the animals.

"Is showing a ~~desire~~ ^{desire} ~~right~~ ^{right} on the ~~hand~~ ^{hand} ~~out~~ ^{out}
~~should be~~ ^{is}"

Plato also counters Thrasymachus by suggesting that it is never preferable to disobey the law the soul of such person shall never be at peace.

It is wrong to think that state is only for the benefit of the ruling class. No man is self sufficient & state works in the interest of all.

He rejects the idea of disobedience to the state. Through the example of Socrates who knew that the state was wrong, he had opportunity to escape yet he preferred not to escape rather obey the law & he drank Hemlock (poison).

thus Plato suggest that one should obey the state even when we think that state may not be right. maybe bcz of our ignorance we may think that orders of the state are not right.

(not so important).

Glaucon's Theory of Justice

Glaucon is also sophist he held that ^u justice is the ^{interest} ~~it~~ of the weak. Glaucon wants to tell about the original state of the weak. State is a contract b/w the powerful & the weak. Those who couldn't defend themselves entered into the contract with the powerful. Powerful guaranteed security & in return weak agreed to abide by the law.

Plato's Response:

Plato doesn't agree that justice ⁱⁿ state is needed only by the weak. No man is self sufficient.

Plato's own Theory of Justice

As a result of dialectics Plato derives some features of justice from the views of above persons.

- (i) Plato accepts justice as a duty rather than a virtue.
- (ii) Justice is a virtue & cannot include the idea of the harm.
- (iii) Justice is a necessity for all. Bcz society cannot exist without justice.

After this Plato derives his own ideas.

What is the purpose & objective Plato's Theory?

To find out absolute idea of justice, which means god's idea of justice.

Where can we see god's idea of justice in this world?

We can see the idea in the soul. A soul is a part of god.

Which soul can be treated as just soul?

The purpose of justice is peace. Those souls which can live in peace & harmony with others are just souls. This requires that out of 3 elements Reason should dominate over courage & appetite. Courage should dominate over appetite.

If appetite acquires & captures the place of reason, it will bring sorrow.

Only when Reason dominates man can live in peace & harmony

what is justice?

~~Plato's theory means each element is in the right place.~~

~~Meaning~~

→ No ~~interference~~

appetite shouldn't interfere in the work of Reason &

Reason shouldn't interfere in the work of Appetite

thus justice leads to functional specialisation. It results into excellence justice also results into harmony bcz no one interferes in the task of the others.

What is a just state?

After discussing the principles of justice at the level of individual he discusses the principles of justice at the level of the state. According to Plato it is easier to explain justice at the level of the state.

Why it is easier?

*** → ~~State is individual not large~~

It means State is a magnified version of individual. It is easier to understand the capital letters than the small letters.

According to Plato the principles of justice found at the level of individual are equally applicable at the level

of state.

Why principles of Justice at the level of Individual & State are

same?

~~"State is individual writ large"~~ State is a bigger version of individual.

What plato means to say?

It means state is just an idea or abstraction. The nature of the state depends on the qualities of the persons living in the state. In the words of plato: ~~"state do not come out of oak or rock, it inheres in the mind of the people"~~

What will be the principles of just state?

Justice brings peace harmony & Excellence to achieve these principles at the level of the State, Plato divides the population of the state into three classes.

Classes in plato are not based on the economic status they are based on the spiritual qualities of the soul.

(i) Those who have reason are called as the ruling class.

(ii) Those who have courage are known as the soldiers class.

(iii) Soldiers are called as auxiliaries (associated with rulers)

Together Ruler & Soldiers are called the Guardian class.

persons in whom appetite dominates should be involved in the task of production. Hence they are called producer class.

Since they have appetite they can be most productive.

for the Economic System

Justice demands that none of these classes interfere in the task of each other. They should be performing the task for which they are naturally suited. This will result into excellence peace & harmony. This is the constitution of ideal State or just State.

How plato convinced the classes to agree?

According to plato State is interdependent since no man is self sufficient we come together thus society is mutual give & take. The ruling class knows that they can't be best at the task of production. Since even ruling class have appetite & producer class is fulfilling the appetite, they are bound to respect the work of producer class.

By Appetite class cannot provide the best rule & hence will be benefited when man of Reason rules.

According to Plato a State is a family like the members of the family we have to make sacrifices but in the end everyone will be benefited.

CR 11

CRITICAL EVALUATION OF PLATO'S THEORY OF JUSTICE

Plato's Three classes are very much like Varna System however plato's assumption that each class will give equal respect & Recognition to the work of others seems so idealistic. Though Plato's classes are based on worth but like varna system, degenerating into classes by birth. plato's system may also become hereditary.

Amartya Sen
Democracy has a
Instrumental
value
It has a Educated
value
It has Intrinsic
value
(means itself is
a value)

According to Sabine Plato's theory of justice is a bad psychology, bad philosophy & bad politics. Plato classifies persons arbitrarily on the imaginary qualities of souls. He ~~compels people to continue in the same task throughout their life~~. In present times when equality has become "Sovereign Virtue" we cannot accept the political system based on natural inequalities.

"STATE IS INDIVIDUAL WRIT LARGE"

→ The statement comes in the context of plato deriving the ultimate principles of justice

→ In literal sense it means that state is a magnified version of individual but in real sense it means that a state is just an idea for extraction. The nature & the character of the state depends on the persons who live in the state to quote plato. a state doesn't come

out of oak or Rock if inherits in the mind of the people. If people are just then only a state can be just.
Hence ~~Justice is a State craft~~. Thus there is a continuity in politics & Ethics.

→ Plato suggest that the principles of justice applicable at the level of state are equally applicable at the level of state individual.
Then just man is one in whom the three elements of soul are properly stationed & donot interfere in the task of each other. If the just state is the state divided into three classes. Though we may not agree with Plato's theory of Justice yet we cannot reject plato's views that state is a bigger version of individual or that "State craft" & "Soul craft" are one & the same.

For Example = we cannot blame the country for being corrupt so far we ourselves are not just. the fate of the person is linked with the fate of state.

Pandit Nehru was right when he held that who will survive if India dies.

THEORY OF EDUCATION

Plato's contribution towards the theory of education is well recognised in the western world. Plato has dealt with the theory of education in such an exhaustive manner that Rousseau called "Republic" as the best book ever written in the field of Education. Plato believed that providing education is most important function of the state. He emphasized on public education. He calls state as essentially a Pedagogic institution. ^{we can use} ^{Plato's} ^{quote for} ^{Educators} ^{relating to teachers}

Why he gave theory of Education?

He want to make Athens an ideal state. The ideal state is divided into three classes education system is the basis to find out which ~~class~~ person has which element.

Sources of Influence?

Plato has observed the system of education in both Athens & Sparta he was more impressed by Sparta. He tried to incorporate the strong elements of the both the systems of education along with his own ideas.

Maoism

main revolutions

1. New Democracy = for Socialist society & Restructuring
2. Cultural Revolution = (1966-1976). ^{saving old soc.} Communalism ^{from} capitalists
3. Law of Contradictions
4. Mass line = suggestion & party decides good stuff
5. Protracted People's war.

Cultural Revolution:

Little Red Book =

Slogan "workers of the world, unite!"

Communism is not love, communism is hammer which we use to crush the Enemy.

→ strategic defence

→ Strategic Equilibrium

→ Strategic Offence

National Peoples Congress China =

→ The president is elected by National Peoples Congress Chinese highest State body, which also has the power to remove the president & other State officers from office.

→ Elections & removals are done by simple majority vote.

→ In practice however the ruling communist Party of China reserves the post of president for its current General Secretary.

→ Its highest organ of state power & the national legislature of Peoples Republic of China.

2480 members in 2018.

→ majority & power of NPC is exercised by its Standing Committee of National Peoples Congress (NPCSC).

Powers & duties.

1) to amend the constitution & oversee the enforcement

(for amendments to pass $2/3^{\text{rd}}$ majority reqd)

2) to enact & amend laws governing criminal offences, civil affairs, state organs & other matters

3) to elect & appoint to the central state organs.

4) to determine major state issues

19th Congress of the Chinese Communist Party (CCP) (2017) (Five Years)

→ challenging vs & cultural, ideologies

→ "Our Party shows strong, firm & vibrant leadership.

Our Socialist system demonstrates great strength & vitality.

→ The Chinese people & Chinese nation embrace brilliant prospects

→ cut like a blade through corruption & misconduct

→ Our country should "take centre stage"

→ we have become a great world power.

→ Scrape the poison off the bone (fighting corruption)

→ Thought on socialism with Chinese characteristics for a new era.

Davos Xi Jinping Speech (2017)

→ No proper growth drivers

→ Lack of institutions

→ Uneven Development

21st June 2019

- prepare Rough map of China
- Neighbours of China & Boundaries (Central Asia)
- Boundary with India & China.

Edu Plato was inspired more by Sparta.

- Education system was controlled by the State (means under the control of the state)

Why → so that it can produce obedient citizens & mature citizens with critical reasoning

→ State Sponsored Education is universal in nature

According to Plato opportunity to get educated should not be depended on will & capacity of the Guardians & Parents.

→ In Sparta women were also given equal opportunity whereas in Athens women were confined within the four walls of family.

Plato never believed that women suffer from any disadvantage w.r.t to learning or joining politics. In Sparta there was a provision for compulsory military education including for women.

Above features of Sparta he incorporated in his system of Education.

The only feature of Athenian System liked by Plato was the focus on developing the critical abilities or faculties of mind. In Athens the Education of Mathematics, Geometry, Logic was prominent.

Plato has added some other features from his own sight.

For Plato Education should be holistic ^{body & soul} in nature. It must include physical, mental & spiritual Qualities. He emphasised on both theoretical & practical aspects of Education.

He believed that Education can be a life long process.

Plato proposed the scheme of formal Education running for 50 years of Education.

Ist Stage :- Pre Primary (0-6 years)

Music (as a Exercise of mind), Gymnastics (as exercise of body) & moral stories for character building.

IInd Stage :- Primary & Secondary (6-18 years)

Various subjects to be taught. First is Screening at the age of "18" those who are capable of further learning will be promoted, others will join the producer class.

IIIrd Stage :- from (18-20 years)

Compulsory military Education.

Second Screening at the age of 20. Those who pass the test will be promoted & the others will join.

Soldiers class.

IVth Stage = (20-35).

Higher learning which will include dialectics & philosophy. From 35 to

Vth Stage = (35 to 50 years)

practical training

at the age of 50. person becomes eligible to become the philosopher king.

Whether there is any Relation b/w Plato's Theory of Education & Theory of Justice. =

Since theory of justice means ideal state. Ideal state is divided into three classes Education system is to find out the quality of soul.

Can we call his theory of Education as natural ~~sub~~ product of his Theory of Justice?

Yes.

Since Education system will produce many philosophers How to find out philosopher king? How to find out

According to Plato those states are best governed where the rulers are reluctant to govern rather than eager to govern.

Why philosopher king is Reluctant to Govern?

(i) He has true knowledge hence he doesn't have lust for money & power. His first love is knowledge.

(ii) He will not accept

Why?

philosopher king is not only the symbol of knowledge he is symbol of sacrifice.

He sacrifices his first love for the sake of duty towards the state.

Plato's Theory of Communism:-

We associate communism with Karl Marx. Communism was the blue print of the Ideal State of the Karl Marx.

Communism was given by Marx in 19th century (Idea of modern time)

However communism is an idea quite old. The idea of

communism is common ownership against private ownership.

Plato proposed communism for the Guardian class. for the

Guardian class means rulers & soldiers.

Why he proposes.

To deal with the problem of corruption in ruling class

which type of communism is proposed by Plato.

two types ① Communism of property

② Communism of family.

Why communism of property?

He doesn't allow the ruling class to own property. Property is a reason for corruption.

~~***~~ Communism of family?

It is more important bcz family has a bigger corrupting influence. ~~It is for~~ family is itself reason for corruption.

Features of communism of family.

- Rulers will not have priv family.
- No priv wife; no priv husband.
- who will marry whom will be decided by state.
- only ablest of men & ablest of women will be allowed to marry.

Why?

Plato was perfectionist he wanted Athens to be the best race. Thus had eugenic purpose, thus shows racism in Plato. Once child is born, there is

no need for husband & wife to stay together.

The child will be taken in the custody of state.

What is the advantage of communism in family?

→ It will tackle the problem of nepotism.

→ liberation of women. - Women are not able to participate in the affairs of state bcz child rearing is their responsibility. Once state takes responsibility they can use their talent in the interest of state and state will not be deprived the contribution (or) talent of half of human race.

Eugenics is the science of improving a population by controlled breeding to remove the desirable heritable characters.

Why Plato doesn't propose Communism for 3rd class?

Neither possible nor needed.

Not possible bcz they are men of appetite & they cannot control the appetite for worldly pleasures.

Not needed bcz they are not in power & they don't have access to the public fund.

Which is the primary mechanism proposed by Plato to address the problem of corruption among ruling class?

Education system is a prime method bcz Plato the prime reason for corruption is ignorance for him until the philosopher are rulers.

If Education is the prime mechanism what are other mechanisms to deal with corruption?

Other mechanism is communism.

When philosopher have true knowledge then he will not have lust for money & power, other worldly pleasures. What is the need to propose communism?

Communism is additional safeguard. If philosopher king has a reason he does have appetite. Power has a corrupting influence hence it is better to have a safeguard against any such probability (or) possibility.

Criticism of theory of Communism:

→ Aristotle the greatest disciple of Plato is also the greatest critic^{of} Plato. He is extremely critical of Plato's communism. Aristotle does not support the abolition of family & private property. According to him there are

"~~time tested institutions~~". This shows that people realise their ~~utility~~ ~~had there been any system which is better,~~ it would have come into existence anywhere.

→ Aristotle acknowledges there are some problems with these institutions but there are many advantages also we should not be depriving ourselves from the advantages.

Advantages of private property:

→ Private property is the ~~source of motivation~~ to work hard.

→ Those who have property can ~~contribute to the charity~~.

→ ~~Having property is a manly reason~~. If a person possesses property,

it is enough to conclude that he is a manly person.

→ Those who are men of property ~~are interested in social security~~.

For Aristotle property is source of virtue, poverty is

Vice

THEORY OF PHILOSOPHER KING.

Why this institution.

To make Athens the Ideal State.

What are qualities of philosopher king.

He is a symbol of knowledge & sacrifice. He has proven

Capacities

Powers of philosopher king

philosopher king is a absolute ruler. It means there will be no limitations on the ~~powers~~ powers of philosopher king. According to plato "No law (or) ordinance can be mightier than knowledge". It means neither law nor ordinance (public opinion) can limit the powers of the philosopher king.

Why he should have an absolute power

He is a symbol of knowledge & sacrifice. public opinion & the book of law represent average wisdom philosopher king represent absolute knowledge. He is ^{absolute} knowledge personified.

According to plato it is foolish to limit the expert practitioners of law with the medicine with the book of medicine.

Thus plato doesn't believe in the rule of the law, he believes in the rule of the person.

Criticism.

Aristotle who is the greatest disciple of plato is also

the greatest critique of plato. Aristotle is known as

"Father of Constitutionalism" (not of constitutionalism means

rule of law. According to Aristotle rule of law is preferable to the rule of philosopher king.

Why?

→ It's not possible to find PHILOSOPHER KING even when we find the philosopher king, there is ~~no guarantee that he will go~~ ~~corrupted~~ power corrupts & absolute power corrupts absolutely.)

→ Rule of knowledge & rule of law is one & the same. Not only it is same, Rule of law has certain advantages over the rule of person.

(i) ~~person wisdom of one person is less preferable~~ to the ~~"wisdom of collectively"~~ law represents ~~collective wisdom~~ of ~~all~~.

OR If philosopher king has reason, he also has ~~passion or appetite~~. It may happen that in some situations his appetite comes to dominate over his reason. Hence need to Aristotle law is the reason without passion.

Acced to Aristotle the rule of law may not be the best but the best practicable. Acced to him we should not sacrifice good for the sake of best bcoz the best is unachievable.

BORDER SHARING COUNTRIES WITH CHINA.

→ NORTH KOREA → RUSSIA → MONGOLIA → KAZAKHSTAN.
→ KYRGYZSTAN → TAJIKISTAN → INDIA → NEPAL → BHUTAN.
→ MYANMAR → LAOS → VIETNAM. → AFGHANISTAN

Note ⇒ Plato doesn't put any limitations on the philosopher king except that philosopher king cannot change the constitution of the Republic. for ex: Once coming to power philosopher king cannot change the system of education or communism.

What does it imply,

It implies that philosopher king is above ordinary law but not above constitution or fundamental law.

who has given constitution?

Plato; Thus Plato wants to suggest that he is even above other philosophers. Hence we can say that Plato himself wanted to be the philosopher king.

UPSCPDF.COM

28/6/2019

- ① Who gave concept of "String of pearls"?
- ② Energy features in China.
- ③ China's pearls in South China Sea & Indian Ocean.
- ④ Short note on AIIB (year of formation, member countries, then prominent share holders, share of China, share of India, mandate of AIIB (India's second largest holder), OBOR (cannot use AIIB), Major projects taken by AIIB, Scope of practical cooperation b/w China & India in AIIB.

~~Aristotle also suggests~~

Nietzsche.

will to power

Plato's Ideal State (or) Plato Theory of Ideal State

will to life

Idea State which is based on Idea of Justice.

Idea of Justice is attained by ruling by Philosopher king

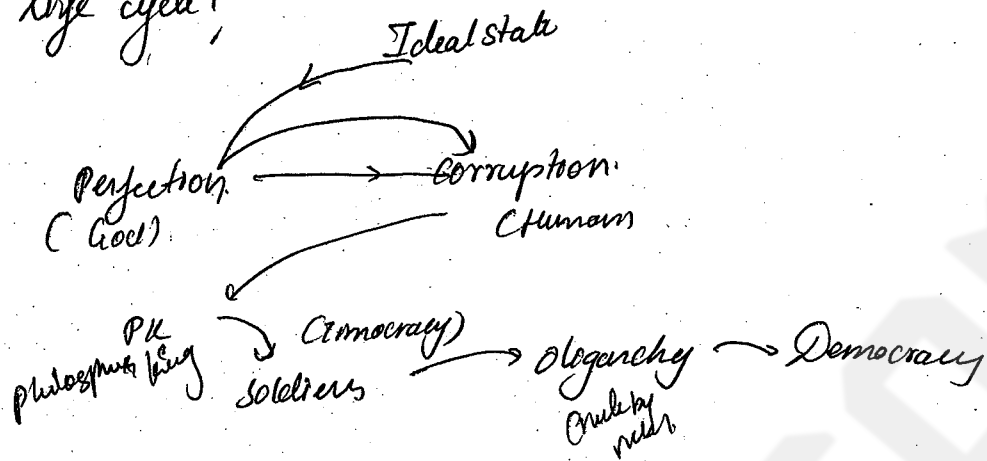

In his Ideal State there are three classes & non interference b/w classes

Philosophers are rulers

There is a system of Education & Communism.

Plato also tells the life cycle of Ideal State.

Why life cycle?

Since this world is world of corruption when Ideal State will be established it will go corrupt

- (i) Rule of philosopher king (Timocracy)
- (ii) Will fall into rule of soldier class (Timocracy)
- (iii) fall to oligarchy (Rule of rich)
- (iv) fall to Democracy.

What is democracy?

The worst form of govt.

Why?

Democracy is rule of many, thus democracy is rule of many ignorant fools. The worst form of govt. People are fools & they will elect Demagogues.

(Political activity (i) practise that seek support by appealing to the desires & prejudices of ordinary people rather than by any rational argument)

what demagogue will do?

Tyranny = cruel & oppressive govt rule.

they will establish tyranny. when this exploitation will increase again we will go back to rule of philosopher king.

Critical Evaluation of Plato by others

⇒ Plato as first Feminist

(i) Plato gives equality of opportunity to women wot a) to get educated

b) to become philosopherqueens.

(ii) Plato believed that women do not suffer from any natural disabilities wot to joining politics.

(iii) Plato's communism has a liberating influence for women.

Sarism →

It's type of dictatorship by democratic means. Ex: Hitler. One who goes by this route people will have concern towards him.

It's worst form of dictatorship. as it is dictatorship by consent.

Plato's status as the first feminist is debatable bcz his prime objective was that the state should not be deprived from the talents of half of the human race.

Liberation of women was the means rather than end in itself.

Though his position as first feminist is contested yet we can say that his ideas were revolutionary wot to his time & space. (as ancient Greece is patriarchal Society.)

⇒ Plato as father of Communism.

Compare Plato's communism with modern communism.

The communism is a modern ideology associated with Karl Marx.

Western scholars wanted to trace the roots of totalitarian thinking in their history. They traced origin of communism in the works of Plato. Western scholars are critics of Plato bcz Plato held that property is evil. On the other hand they are admirers of Aristotle who held that property is the source of virtue. The reason to compare Plato & Marx is that both consider private property as a source of evil. In both the scholars we get the concept of class.

However there is a big difference in the time & space of Plato & Marx. Deeper analysis show that similarities are superficial whereas differences are fundamental.

- (i) Plato was idealist; Marx was materialist.
- (ii) Plato wanted to create a society based on classes, Marx wanted to create the classless society.
- (iii) Plato believed in harmony b/w classes whereas Marx talks about the inevitability of the class struggle.
- (iv) Plato's method of bringing social changes peaceful whereas Marx believes in violent revolution.
- (v) Plato believes that Idea is ultimate Reality whereas for Marx Idea, Ideology represent false consciousness.
- (vi) Plato wanted to create ideal state, Marx wanted to create the stateless society.
- (vii) For Plato state is the source of virtue for Marx it is instrument of exploitation.

Totalitarianism means total control of the state. When state controls even the personal sphere we call it as a totalitarian state. (No freedom in personal sphere).

Saudi Arabia.

2. Communism was totalitarianism was propagated by western thinkers".

Difference in Totalitarianism as Authoritarianism!

When state restricts freedom only in public sphere political sphere we call it as Authoritarianism.

political sphere. However in totalitarianism state denies freedom in both person as well as political.

Only ~~total~~ Authoritarianism :- Pakistan, Myanmar.
↓
military rules & maintain
the illusion of democracy.

→ Authoritarianism can be called Dictatorship.

What is fascism?

- Facism is also a dictatorship but the dictatorship which comes from mass support hence it is very difficult to defeat facism. Facism can be called as

Totalitarianism - Completely regimented societies even education system, family & marriage is under the control of the state.

So the

What is an Open Society?

Open society means liberal society. Liberal society is where people ^{enjoy} ~~have~~ freedoms including freedom of speech & expression. These show that people have right to dissent from the govt. According to Karl Popper, truth is possible only in open society.

Karl Popper calls Plato, Hegel & Karl Marx as enemies of open society. Accd to Karl Popper open society ensures the possibility of attainment of truth.

He calls Plato as a just fascist. Plato's political programme far from being morally superior is actually identical to fascism. Plato was a wicked man.

Plato himself wanted to be the philosopher king if we do not accept the argument it is only bcz Plato is a magician & we are under the spell of Plato. He attributes Karl Popper

Three Reasons or factors in Plato philosophy to call him totalitarian.

- ① Essentialism
- ② Historicism
- ③ Holism.

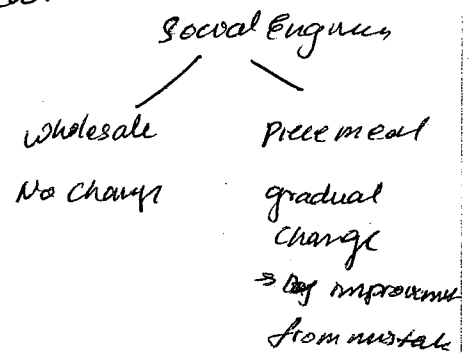

totalitarians built their system on the basis of above 3 ideas

Essentialism :- It says there is something essential / ultimate truth i.e. idea.
(Taliban's talks like this)

Totalitarians will claim that there are some eternal truths. Sol En:- Plato held that material world is world of illusion & the world of idea is a world of Reality.

Historicism :- Every totalitarian ideology had developed a philosophy of history. They will also tell about the future. They will present history as if history is moving with divine purpose.

Holism :- Totalitarians will always recommend holistic change or wholesale social engineering. In liberal countries there is scope of improvement by gradual reforms. In totalitarian states there is a project to destroy everything to build a new order.

According to Karl Popper, Plato creates a regimented society & denies even the freedom of marriage. Though Plato called himself to be the disciple of Socrates, however Socrates was not against democracy. Socrates introduced dialectics of person proposing dialectics will not be against democracy. However Plato ends dialectics

Plato Ends dialectics.

Plato gives no opportunity to question philosophising.

Thus Popper calls Plato as an enemy of open society

^{place}
~~place~~ of Plato in the history of Western political thought

Plato is known as father of political philosophy. It is said that the entire Western political thought is nothing but footnotes to Plato & Aristotle. It is said that Plato is philosophy & philosophy is Plato. He is known as father of political philosophy bcz of his

Theory of Ideas & he has given the method of dialectics. He

has given innovative ideas like philosophising communism etc.

The greatness of Plato as thinker is evident from the fact that,

his greatest critique Karl Popper acknowledged that one

can be either Platonic or anti Platonic. but one can never be non Platonic.

ARISTOTLE :

Introduction.

Aristotle is known as father of political science

Why?

Aristotle is called as the father of political science, not in the sense we describe scientists like Newton @ Einstein.

Aristotle is scientific in his outlook in comparison with Plato. Plato remains

in

- The world of Ideas
- For Plato Idea is ultimate reality
- For Plato This world is world of illusions

Philosophy

Idea

World of
good / Idea.

Reason, logic
dialectics.

Science

Facts-matter

↓ observation
This world

Best Practicable
which is feasible
in the world.

On the other hand Aristotle does not reject the material world as the world of illusions. He believes that Idea is not a completely independent of matter. He believes that we should be concerned about what is "the best practicable & the ruler should be "worldly wise" rather than wise in the world of Idea".

ARISTOTLE THEORY OF FORM IS DIFFERENT FROM PLATO THEORY OF FORM.

For Aristotle matter cannot be rejected simply as illusion. Reasoning is a source of knowledge but observation is also the source of knowledge.

Aristotle has observed & studied more than ~~one~~

158 Constitutions of his time & his earlier times.

We can also call the Aristotle as father of political science bcz his book "POLITICS" deals solely with the affairs of the city state. On the other hand Plato's "Republic" is a book of Encyclopedic nature. His book politics can be regarded as the first text book in the discipline & he rightly deserves to be known as father of political science.

Considering the contribution of Aristotle & Plato it is said that the entire western political philosophy is nothing but footnotes to Plato & Aristotle.

GIVE arguments to support that Aristotle is father of political science.

- practical outlook
- his book 'Politics'
- observation & focus on study of constitution.
- his view that ruler has to be worldly wise
- Originator of Ideas like rule of law.

Aristotle is known as greatest disciple of Plato as well as greatest critic of Plato.

Similarities with Plato

- Both are political idealists, belonging to the Socratic tradition & are critics of Sophist tradition. But
- Both believed that state is the supreme association & a source of virtuous life.
- Both believed in natural inequality.
- Both are racial (racists). For the Greeks the people outside the region were Barbarians.

Differences with Plato

- Aristotle doesn't reject the world of matter (deals everything realistically in a way that is practical) radical
- Plato is Utopian, Aristotle is pragmatic. who want root to change or fundamental to change ~~practical~~
- Plato is radical, Aristotle is conservative. simple change
- Plato doesn't believe in traditions whereas Aristotle believe in preservation of tradition. Conservative
- For ex: Plato ends the institution of property whereas Aristotle regards property as source of virtue. believes in custom & tradition
- Plato's attitude towards women is quite radical. Conservative
- Whereas Aristotle is conservative.

It is wrong to think Aristotle as a critic of Plato, Aristotle is not criticizing Plato. Aristotle is rectifying Plato.

THEORIES OF ARISTOTLE

- THEORY OF STATE
- THEORY OF CITIZENSHIP
- THEORY OF SLAVERY
- THEORY OF PROPERTY
- THEORY OF CONSTITUTION
 - Theory of Revolution.
 - Theory of Justice

THEORY OF STATE

Note: Plato is radical whereas Aristotle is traditionalist.
Plato is Extremist whereas Aristotle believes in moderation.

According to Aristotle "Golden Mean is a Golden Rule" which means moderate life is best life. Excess of anything or Extremes is bad according to Aristotle.

ARISTOTLE'S THEORY OF STATE (social) "

- "Man is by nature a political animal."
- "State comes into existence for the sake of good life & continuous for the sake of good life."
- "The man who can live without state is either beast or God, he cannot be man."
- "State is highest of all associations."
- "The Authority of the statesman is different from Authority of Master."

MAN IS BY NATURE POLITICAL ANIMAL

The given statement is the justification of the state by Aristotle like plato Aristotle belongs to the Socratic tradition. Like plato he is a critic of Sophists.

What is sophist view on state

Sophists undermine the importance of the state

How?

For Sophists state is not natural rather its conventional. It means state is created by man. Sophists also undermine state by suggesting that the self is prior to whole.

VIEWS OF ARISTOTLE

A state is natural not only state is natural it is necessary to good life.

HOW ARISTOTLE PROVES STATE IS NATURAL

He establishes the origin of the state in the natural needs of man.

How?

Nature has not made man in such a way that he can fulfill all his needs. man is not self sufficient even in fulfilling the very basic (Biological needs). Hence man creates family.

Family can fulfill some of the needs but not all of the needs hence man creates the village. Village can fulfill some of the needs but not all of the needs. Hence man creates state.

What is state?

(i) Collection of villages.

(ii) State is a institution which is self sufficient. It means it can fulfill all necessities.

(iii) State the highest of all the associations.

(i) State deserves the biggest amount of obligation on the part of men.

(ii) State is a source of good life.

Can man live without state

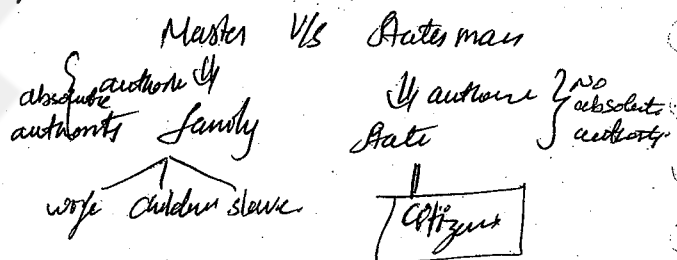

To be able to live without state one has to be either beast or God which means should possess some super human qualities.

WHO IS PRIOR

Man is prior to state. Only chronologically but State is prior to men logically. It means man deserves to be called to be man only when he lives under the state. ~~but~~ 0

II THE AUTHORITY OF THE STATESMAN IS DIFFERENT FROM THE AUTHORITY OF MASTER.

Aristotle is not only the greatest disciple of Plato but also the greatest critic of Plato. He agrees with Plato so far as

also believes that the state is necessary for the good life & deserves the greatest amount of obligation from the men. However he disagrees with the manner in which Plato organises the state.

Plato projects as if the state is family philosopher king is a patriarch like the authority of father, the authority of philosopher king is absolute he emphasises on the absolute excessive unification. like the members in a family citizens should sacrifice their -

demer for the sake of the State.

Aristotle explains that the authority of statesman is to be treated differently from the authority of master. According to him State is not family rather family of families. Citizens are not dependent on the state like children. are dependent on father. State is unity but unity in diversity. (pluralist). Aristotle is pluralist.)

Aristotle prefers polity rather than the institution of the philosopher king. In Aristotelian polity (direct democracy) all citizens participate in deliberations to formulate laws which reflect the interest of different families living in the state. Thus Aristotle does not emphasize on the excessive unification or excessive demand on citizens.

ARISTOTLE'S THEORY OF CITIZENSHIP.

What is citizenship

citizenship is a duty towards the state

which type of duty

participation in the affairs of city state

which affairs of city state

(i) Law making function.

(ii) Judicial function.

Aristotle excludes following persons from the status of citizenship.

→ old people

→ children

→ women.

→ Slaves.

why he excludes.

Since citizenship is a duty & those who cannot perform duty properly should be excluded. Old people suffer from health issues, children are immature, women are confined & occupied in domestic affairs, slaves lack reason.

Aristotle's theory of citizenship is seen as a narrow view from the perspective of present times. However, we have to understand the importance of his view that citizenship is a duty & for good governance there should be participation by these people in the affairs of state.

THEORY OF SLAVERY.

Aristotle not only believes that slavery is natural, he also believes that slavery is desirable (He is not in favour of abolition of slavery). According to Aristotle slavery is a very useful institution. It has the greatest amount of utility for the slave himself.

Slavery was the institution practised in ancient Greece. Aristotle ~~was~~ considers the utility of the slavery to the political system, economic system & above all for the slave himself. In ancient Greece there were two types of slaves.

① Slave by law and prisoners of war

② Slave by Nature Aristotle's theory of slavery is

regarding those who are slaved by nature.

According to Aristotle nature has created two types of persons

(1) Those who are master by nature.

(2) Those who are slave by nature.

to understand who are slave by nature he first explains the qualities of those who are masters by nature. Reason & courage are the qualities of ruling class.

Why?

The ruling class are supposed to take the decisions. They should possess reason to take the right decision.

Courage is also the quality of ruling class.

What are the qualities of slave?

Slaves lack reason & courage. There are some persons who are dependent on the others to take decision for them. Such persons are slave by nature. Thus like Plato Aristotle also believes nature has created two types of persons. Those who are mentally strong & those who are physically strong. Each of them. Every person should work according to the natural aptitude. Those who are man of reason should participate in the affairs of the state. Those who are physically strong should be involved in task of production. Thus he also supports functional specialization based on natural qualities. Aristotle gives following utility of slavery.

(1) Economic System :- Those who are physically strong can work for longer durations & hence they are more productive.

(2) Political System :-

(1) Those who have reason participate in formulation of laws & thus better laws are made

Since slave works for master. master would have time to afford for the affairs of city state.

Utility for the slave.

It is natural need of slave bcz slave cannot take decision. In the company of good master slave can learn virtue.

Aristotle was a wear of the cruel treatment to the slaves hence he suggests that masters should treat the slave properly. take care of his needs & liberate him if he develops virtue.

String of pearls

String of pearls :- It is geopolitical theory on potential Chinese intensions in the Indian Ocean which extend to China mainland to port of Sudan.

Sea lines through choke points.

Strait of mandeb :- b/w Yemen & Djibouti & Eritrea.

Strait of Malacca :- Malaysia, Singapore & Indonesia, Thailand.

Strait of Hormuz :- Iran & UAE.

Lombok Strait :- island of Bali & Lombok in Indonesia.

→ US Booz Allen Hamilton. came up with string of pearls hypothesis. expand naval presence by building civilian maritime infra.

CHINESE POSSESSIONS IN INDIAN OCEAN.

2017 - India - Bangalore Metro Rail project.
2018 - India - Madhya Pradesh R6 Rural connectivity project.
2018 - " - National investment & Infrastructure Fund.
2019 - " - Andhra Pradesh Rural Road project.
" - " - Urban water supply & Septage Mgt Improvement.

CHINA STAKE - 34%.

India " - 8%.

→ French Naval Presence in Indian Ocean.

ALINDEN is a french acronym denoting the Admiral.
In charge of the maritime zone of the Indian Ocean

→ Comprising ALINDEN's jurisdiction comprises the area
bound on west part of Red Sea & Africa. & on its Eastern
part by Philippines & Vietnam.

In Indian Ocean territories are.

- Banc du Geyser (claimed by comoros.)
- Reunion. (near East of Madagascar.)
- Mayotte
- Nouvelle Amsterdam.
- Kerguelen → Crozet.

→ US Indo Pacific command etc.

→ USINDOPACOM. is unified combatant command
of US Armed forces in the Indo Pacific region.
→ Responsible for military operations roughly 50% of
Earth's surface.

OBOR (One Belt one road Initiative).

→ unveiled by Chinese paramount leader Xi Jinping.

In September & October 2013.

→ He called for building of a Silk Road Economic belt & a
21st century Maritime silk road.

- OBOR one of largest development plans in modern history.
- 14 countries, 6 Economic Corridors 68% population.

Belt : one belt refers to the land based "Silk Road Economic Belt". Beijing aims to connect the country's undeveloped remote area to Europe through Central Asia.

Road : One road references the ocean going "Maritime Silk Road" it is to connect the fast growing South East Asian region to China Southern provinces through ports & Railways.

Objectives of OBOR

- China big role in global affairs & expand its friend circle.
- Intended to address its domestic needs in Economic transformation. Thus demand will increase & revitalize the Economy.
- builds China's soft power. called as China's Marshall plan.
- This initiative makes Indo-Pacific region to be Sino-centric Economic & Security region.
- attempt to counter US propaganda.
- more navy presence of People Liberation Army in Indian Ocean & beyond.

India's advantage of OBOR.

- India will not be able to stop China & the project will take place & not join may harm India's Interest.
- India may become isolated (except Bhutan) everyone in OBOR.
- Some analysts saying win-win situation since it increase connectivity. mutual beneficial swap where India protects Chinese interests in Indian Ocean & China securing India's undertakings.
- Regional transport, Energy security & Blue Economy.

India's disadvantage OBOR.

- OBOR is unilateral decision. & There is lack of transparency.
- China developing ports in Bangladesh, Sri Lanka, Pakistan trying to enlarge influence using Economic might in Bay of Bengal & Arabian Sea, thus MSR is a disguise to String of pearls theory.
- OBOR seems to be primarily driven by broad geostrategic & geopolitical aim. (can be used as military ports)
- Through OBOR, China is countering the strategies of India in North East region.

India to counter OBOR :-

- ① Project Mausam :- under ministry of culture. to establish communication links b/w countries of Indian Ocean & Enhancing cultural values.
- ② Sagar mala.
- ③ Chabahar port
- ④ Naval ports :- India developing naval ports in Indian Ocean like at Madagascar, Seychelles & Mauritius.
- ⑤ IORARC.
- ⑥ Alliance :- Japan & Look East East policy

23rd June 2014

- ① Growing Naval strength of China & Comparing with USA.
- ② Reuters Blog & China challenge

CRITICISMS ON THEORY OF SLAVERY.

Howsoever useful the institution of slavery is, it cannot be justified in the present times of human rights & democracy we can give reference to the ideas of ^{Emmanuel} Kant. Accord to Emmanuel Kant Respecting other persons human dignity is a categorical imperative. In the words of Elk. "Each man is end in it self. no one ought to treat the other as means to an end."

The arguments that slavery is useful even for the slave leads to justification of the discourses like "White man's Burden on civilizing machine".

THEORY OF PROPERTY

Context of the theory,

Aristotle doesn't accept Plato's communising property. Aristotle has justified the institution of private property.

What is property?

Only that property is legitimate which is the product of one's labour. This includes labour of any slave. Aristotle doesn't consider such property legitimate which is earned by unfair means.

Realism:
Politics is power.
Not ethics.
Individualism:
man gives self interest more than any others.

It means exploiting the circumstances of someone for his Earning huge interest by lending money to someone in need.

Aristotle classifies the property into two types

- ① Animate (Slave, Horse etc)
- ② In Animate (Building)

Aristotle discusses three systems of property.

- ① Common ownership, common use
- ② Common ownership, individual use.
- ③ Individual ownership, common use.

① Common ownership, common use.

Aristotle rejects on the ground that "Every ones property is no ones responsibility".

② Common ownership, individual use

property belongs to everyone but only one person is using or owning. It is illogical. It's not possible in practice. In case ~~exist~~ if it exist anywhere it will be very tedious.

③ Individual ownership, common use =

Best system according to Aristotle.

Advantages of Ind ownership:

- ① Motivation to work harder.
- ② Source of charity.
- ③ Better upkeep of property.
- ④ Man & property are made of Reason.

& hence there will be

a) Better laws.

b) Stability.

Common ^{USE} Ownership & its advantages.

property should be owned by person but person should give his part of property for the common use

why?

Excess of anything is bad. property should be in moderation.

Man is by nature a social animal. Since society contributes in the well being of man. man should give back to the society

Inequalities are not good & it can promote Rebellion. no one is benefitted hence rich should contribute to the poor
[charity to avoid chaos].

~~THEORY OF~~

THEORY OF CONSTITUTION

Importance of theory.

Gave his theory after the analysis of 158 constitutions. For Aristotle state & constitution is same. For Aristotle even the state, constitution & Govt is also same. Aristotle is right in equating Govt state & constitution bcz Govt's should run according to the constitutions. Hence Aristotle is father of constitutionalism. (1) Rule of law.

Aristotle has given the classification of constitutions. & how constitutions change.

No of Person.	Ruling them rules in interest of people.	^{corrupted} own interest
	Normal.	Abnormal / sick / corrupted / perverted.
one	Monarchy / Philosopher king.	Tyranny
few	Aristocracy	Oligarchy
many	Polity.	Democracy.

Q1 For Aristotle it is not enough to know the number of persons ruling, the purpose of the rule is also important. (M) He calls such govt as perverted form where rulers rule in their own interest.

According to Aristotle the best form of govt is the monarchy or rule of philosopher king. It is the best but not best practicable. It is impossible to find philosopher king. The practical form of philosopher king will be tyranny. Tyranny is the worst form of govt.

→ Tyranny will change into aristocracy. Aristocracy is the rule of few. Thus it is a rule of rich. It will degenerate into oligarchy. Poor will have jealousy towards the rich & hence even oligarchy will change.

→ Polity. is the rule of many but not so many it means it is rule of middle class. It is the best practicable form of govt.

Why it is best practicable?

It is most stable.

Democracy -

Rule of many. Thus it is a rule of many ignorant fools. The second worst form of govt. Ignorant poor will choose demagogues. Demagogues will establish tyranny. Tyranny is the worst form of govt.

Why polity is the best practicable.

The virtue of a govt is stability Aristotle is a conservative.

(Status Quoist) He is fearful of change

THEORY OF REVOLUTION

Aristotle is fearful of revolution the way Aristotle describes revolution is very different from the way we generally understand revolution. The general understanding is the "violent overthrow of complete system". Aristotle is so much concerned about the stability that he considers even the small change as revolution.

He has done the exhaustive work on Revolutions Aristotle gives particular causes as well as general causes.

Particular Causes..

In Monarchy = Jealousy among the members of family

In Aristocracy :- The conspiracy of poor against rich

In polity & democracy :- Conspiracy of rich against the poor.

In democracy the people are ignorant & they elect tyrants.

General cause (common to all regimes)

- ① Corruption: Ruling class
- ② Arrogance
- ③ Imbalance = disproportionate increase in any dimension of state.
- ④ too much influx of foreigners
- ⑤ people like change. Change is the law of nature.

The most common cause is On the basis of his analysis he concluded that the most common cause is Inequality. It can be real or imagined.

Why Inequality leads to revolution?

Inequality is linked to the feeling of ~~injustice~~ injustice.

What is Justice?

Aristotle's theory of justice is more practical in comparison with Plato. However, like Plato he also believes that justice is proper fitting. "Right people at Right place".

He discusses justice in two dimensions.

(i) Rectificatory Justice (Grievance Redressal)

In this case Aristotle proposes the

principle of proportion.

(ii) Distributive Justice (Public policy)

State has to decide the principles for allocation of resources, goods, offices, honours. In this case also Aristotle proposes proportion.

Hence Aristotle's theory of justice is called ~~the~~ proportionate theory of justice.

How to do justice with two persons?

Treat them equally but only when they are equals.

The words of Aristotle it is unjust ~~also~~ to treat equals unequally. It is equally unjust to treat unequals equally.

Thus equality is proportionate concept rather than absolute.

Equality is proportionate.

How to decide the rewards? who should get what?

The state will decide on the basis of merit.

Merit denotes how society evaluates the contribution of person.

Application of Aristotle's theory.

We can see his application on his Theory of slavery. Those who have reason & courage are ought to be the masters. It would be injustice if slaves who lack reason & courage are treated at par with masters. They cannot be treated as equal citizens. It will be injustice with masters. Hence if the state rewards the person who does not deserve or doesn't reward the persons who deserves, both gives rise to resentment.

What state should do to check Revolution.

Understand the causes & apply remedies. He also suggests that the state should cultivate the spirit of justice, civic virtues among the citizens.

How relevant Aristotle's theory is in Present time.

His theory of revolution is a useful tool to understand revolutions in all ages. Whether it is a French revolution or Russian revolution. Arab spring or Hong Kong protests.

How relevant is aristotle's theory of justice?

i.e how relevant is his view that it is unjust to treat unequals equally. Aristotle's society is based on merit. It is a grand idea to treat equals equally & unequals unequally. However, his theory doesn't hold good in societies like India where there is no level playing field in the society. Hence the constitution provides for affirmative action or positive discrimination in favour of the weaker sections.

Why polity is best practicable form of govt?

Virtue of any govt is stability polity is the most stable.

Why most stable?

polity is the rule of the middle class.

polity is in accordance to the principle of "Golden Mean" Moderation. The middle class possesses moderate wealth. Since they possess property they are men of reason. As they are men of reason they can make good laws. He even gives the examples of renowned lawgivers like "Solon" coming from middle class. Since they have property they also have stakes in stability.

Rich & poor do not trust each other. Hence more conspiracies in Oligarchy & Democracy. Both rich & poor trust the middle class more.

Rich are arrogant, poor are ignorant. Most of the crimes are committed either by very rich (or) by very poor. However persons from middle class are law abiding.

Polity is the golden mean of the two extreme forms of govt. It is in the middle of oligarchy & democracy. Oligarchy represents extreme wealth but only with few.

Democracy represents the rule of many ignorant & poor.

Polity is the rule of many but not so many. Hence polity is the best practicable form of govt.

What will be the system of govt in polity?

polity is the direct democracy. However it's not mobocracy. Only citizens participate in the formulation of laws. Citizens are men of reason & owners of property. Unlike plato who creates the rule of one person Aristotle provides for the rule of many for Aristotle state cannot run like a family. Different families should come together to deliberate & form the laws i.e. in polity. Polity represents the rule of law rather than rule of a person.

Aristotle on Rule of law

Law is a reason without passion.

- Explain the context of the theory (criticism of philosopher kings)
- Give Arguments by Plato which justifies the institution of philosopher king.
- Give Argument of Aristotle as to why rule of law & rule of reason is same & rule of law has the advantage over the rule of a person.
- conclusion. (Appreciate the father of constitutionalism)

MACHIAVELLI

Machiavelli is the first person to establish the autonomy of politics from religion & ethics.

Political Science as a discipline started as political philosophy. In ancient Greece political philosophy is a branch of philosophy. In ancient Greece political science didn't have the status of autonomous discipline.

In medieval time it became the sub discipline of Religion. Only in modern times when Machiavelli established that politics is neither religion nor ethics rather the autonomous field. He held that political actions not to be judged by the standards of ethics or Religion. Political action to be judged by the political morality.

What is political morality?

In politics ends justify the means. If ends are achieved no one questions the means. However if the prince sacrifices ends for the sake of means, no one can ~~absolve~~ absolve the prince of his responsibility.

Introduction of Machiavelli :-

Machiavelli belong to the modern times. The modern age in Europe is a age of Nationalism & Nation states. Machiavelli is the first person in whose work we see the idea of nation state. Machiavelli is known as the greatest patriot bcz of his love for nation (or) mother land. Hence Machiavelli is a scholar of the ^{Emerging} Bourgeois class. i.e. emerging capitalist class. In Machiavelli we see the importance of private property. As a capitalist scholar he believes in materialism. For Machiavelli the world of matter is more real & relevant than the world of Idea.

What was the concern of Machiavelli?

He belonged to the region which is known as Italy at present.

It was the age of nation states. However Italy was nowhere ~~near~~ near even to the process of becoming nation state.

Why?

The situation in Italy at that time was like India in medieval times (can be described as House divided against itself).

What was the reason?

(i) Italy was divided into 5 principalities. means 5 feudal states. out of these Machiavelli belongs to Florence.

France is first nation state.

political culture of India comes near to Italy

Machiavelli believed that feudal lords are responsible for the lack of Unification. Hence he was extremely critical of the feudal class or Aristocracy.

In Italy was the seat of Roman church (Catholic church) by this time church became a highly corrupt institution.

Why corrupt?

Involvement of church in politics.

What was the impact?

Looking at church failures even the common man became corrupt.

Machiavelli felt corruption is responsible for the lack of solidarity. He felt church is responsible. even in the struggle b/w classes church was supporting the feudal lords. Hence Machiavelli recommended the strict separation b/w church & State.

Church shouldn't interfere in politics. Thus Machiavelli is the originator of the European concept of "Secularism".

What is a secular State?

where religion doesn't shake the State. Secular State is neutral in terms of religion. (religion, neutrality). Secular State is rel

Religious neutrality

Religious neutrality means religion of citizen shouldn't matter of concern for the State. State should

treat all people equally.

Article 15 is based on religious neutrality.
State shall not discriminate based on religion.

Lebanon
Christian prevails

Universal Adult Franchise & Abolition of Separate Electorates

Secular State implies Sovereign nation state.

more national u will
be more capitalist.

thus Secularism, nationalism, capitalism & Sovereignty are interrelated terms.

What was the purpose of Machiavelli?

Italy was once the centre of Western civilization but during his time. It was in bad shape. Machiavelli had huge love for his motherland. He wanted to make Italy great again. Machiavelli had served in different political offices. He even held the position of diplomat. It is bcz of his observations while remaining in the system he could give the deep insights on the real world of politics.

Machiavelli is one of the most criticized one among the scholars.

Why he was criticized?

for telling the truth.

What is the truth in politics?

The truth in politics is dark!!

It is a paradox that Machiavelli is criticized for telling the truth whereas Plato is appreciated for taking us away from the truth. It is also a paradox that in the real world

of politics ~~everybody~~ everyone is Machiavellian.
However no one admits himself to be Machiavellian.

Why Machiavelli is criticized?

He has shown that in politics there is no role of ethics.
Politics is not an inspiring field.

Who started the tradition of projecting Machiavelli
as bad person?

Shakespeare.

Machiavelli was sent to the court of France French king
addressed him as MR. NIPHILO (means Mr. Zero).
Means he came from a country that has no respect
among the nations of Europe. Hence Machiavelli
wanted some prince who can unify Italy, protect
Italy from external threats & make Italy GREAT
AGAIN. He wanted some prince who can rule with
"THE IRON HAND" to settle the things.

Which form of govt Machiavelli supported?

According to Machiavelli if people are good,
have civic virtues country should have Republic
(Democracy). However if people are corrupt he
preferred the monarch or a king who rules with
iron hand.

In his book "PRINCE" he proposed monarchy.

In his book "DISCOURSES" he proposed Republic.

In the view of Machiavelli wherever possible
Republic, wherever necessary Monarchy, but in no
situation Aristocracy.

Why he was against Aristocracy?

Aristocracy represent the rule of elite class. That time feudal lords. As a scholar of Burgeion class he doesn't support aristocracy at all.

(1) He believed aristocrats or lords are responsible for the lack of unity in Italy. He considered aristocrats as parasitic class. The class which doesn't make any efforts and lives on the advantage of the work by others.

Every thinker is known as the child of his times. (product of circumstances). However this description suits to Machiavelli the most. What does it mean?

In the work of Machiavelli we can find all the major historical trends of that time.

What was the major historical trend of his time?

We belong to which time?

He was called the child of Renaissance.

What does it reflect?

It reflects the revival of the Greek tradition which was under shadow bcz of the domination of religion in the medieval times.

What were features of Greek tradition?

→ Rationalism.

→ Humanism.

what is humanism?

In Medieval time God was the centre of Universe. In Modern times man becomes the measure of everything. means Human centric world. For Ex in Machiavelli we see the political theory revolves around human nature.

→ Rationalism

Explaining things through logic rather than

religion.

We can relate Machiavelli with Renaissance in other ways also.

(1) among the intellectuals of Renaissance age we see great attraction for history. Even Machiavelli had huge interest in history. According to him it is better for a prince to know the history rather than philosophy.

↓
what is difference?

History looks at the past philosophy looks forward.
History deals with real world philosophy deals with world of Ideas.

Renaissance led to emergence of various other developments. For Ex → Reformation (led to Secularism)

- Rise of nation States.
- Capitalism
- Geographical Explorations.

all such tendencies are reflected in Machiavelli's work → Separation of church & state
→ Importance of national Interest

humanism

self respect

dignity of individual

man is measure of anything.

humanitarian & philanthropic.

- distress towards feudal class.
- Imperialist foreign policy.

Perspective of Machiavelli as Thinker.

Unlike Plato who was idealist, Machiavelli is realist. Those who believe that politics is the pure power struggle. They believe that there is no role of ethics in politics. Influenced Mao Tse Tung.

Introduction of The "Prince" (Book of Machiavelli)

The Best book ever written in the field of state

craft -

Content: It contains set of instructions for any person who wants to come to power & want to stay in power. What person needs to learn if he is interested in politics.

According to Machiavelli the prince needs to learn, not how to be good, rather how to be bad.

Who is Machiavelli's Prince? (Feudalism)

Machiavelli's prince is not hereditary Monarchy. Rather political Entrepreneur. (Capitalism) ^{It} means any enterprising person who has quality to become prince can learn state craft.

It is tradition to compare Machiavelli & Kautilya. There is lot of similarity in their circumstances, ambitions, principles, methods.

However Machiavelli was not as fortunate as Kautilya. Kautilya could find his prince & could

See the successful implementation of ideas in his life
whereas machiavelli couldn't find his prince.

Machiavelli state craft (His advices to prince)

(1) on the nature of politics (or) the type of profession
Since prince wants to enter into the profession of politics,
he should understand "The real world of politics".

as he emphasize on the real world we can call him
realist unlike plato who want "king to understand the
world of ideas".

machiavelli suggest prince to look at the things
as they are rather than as prince want them to be.

what happens if prince ignores Reality?

If prince sacrifices "what is for" "what ought
to be", he will not only bring destruction to his people,
but also himself.

Thus machiavelli is regarded as "father of
Realism" as he emphasizes on understanding the
real world of politics.

machiavelli's prince is certainly the best book
on the state craft.

In context of India his advice seems relevant
regarding china. Pandit Nehru appeared to be living
in the world of ideas. He even ignored the advice
of the then Home Minister Sardar Patel & Comptroller
& Auditor General (CAG). Patal warned Nehru that
China has expansionist desires. 1962 war was a
personal shock to pandit Nehru, who could not
recover from the shock. India lost the huge chunk of

the territory of Aksardhon & suffered heavily in the war thus Pandit Nehru not only brought destruction to the people but also brought his own destruction.

Assignment

CHINESE NAVAL PRESENCE COMPARED TO USA

- PLA's accelerated PLA's shift ~~from~~ ^{to} naval power from traditionally land powered.
- XP abandoned Deng Xiaoping's injection. "hide its strength & bide its time".
- Under XP Jinping Beijing elevated missile forces to a point where many rockets in Chinese arsenal now rival or outperform those of US.
- under Intermediate-Range Nuclear Forces US & Russia banned missiles range below 500 & 5,500 km. but Chinese DF-21D range upto 1,500 km.

USA → 11 aircraft carriers.

China → 2 aircraft carriers.

→ But China have missiles that specifically target aircraft carriers.

→ China Navy outnumber US Navy by 300 ships to 287 ships.

→ US ships are still much larger & more powerful & about 100 China ships are coastal frigates & corvettes.

US aircraft carriers & destroyers - 105
China " " - 39

China & US submarines - 80

- China is building 10 more naval ships per year than USA
- China is building more ships including aircraft carriers.
- China does have fortified islands & a lot of anti-ship missiles.

NEW DEVELOPMENT BANK. Hq = Shanghai

- Formerly referred to as BRICS development Bank.
- established by BRICS states.
- It'll support both public & private projects.
- formed in July 2014
- proposed by India. at 4th Brics Summit in 2012 held in Delhi. in 5th Brics Summit they agreed.
- authorized capital \$ 100 bn
- K. V. Kamath from India is first elected president.

objectives :-

- 1) promote infrastructure & development projects
- 2) extensive network of global partner sigs.
- 3) balanced project portfolio.
(equal power of voting)

Share & voting rights of all the countries is 20%.

→ New Development bank had signed with ADB & AIIB.

→ Symbol is Mobius Strip - idea of continuous transformation.

NDB different from AIIB

→ AIIB → 57 countries, NDB - 5 countries.

→ AIIB China Share - 30.34%, India 8.52%.

So China has dominating veto power in the decisions of the bank. NDB is more democratic as each member has one vote & decisions are taken by simple voting method.

SCO (Shanghai Cooperation Organisation):

Shanghai coop. org also known as Shanghai pact, it is Eurasian political, Economic & military org.

Founding members

China, Kazakhstan, Kyrgyzstan, Russia, Tajikistan & Uzbekistan

Presently 8 India & Pakistan.

4 observer states: Afghanistan, Belarus, Iran & Mongolia.

Aim, main goals: Strengthening mutual trust & neighbourliness among the member states

→ Platform with Pakistan

Turkmenistan is the only country which is not member from central Asia.

Extremism
terrorism &
separatism.

16+1 (CEE)

11 EU members & 5 Balkan Countries

→ in the fields of investments, transport, finance, science, education & culture

→ CEE - Central & Eastern European.

→ It is an initiative by the Chinese Ministry of foreign affairs to promote business & investment relations b/w China & 17 countries of CEE.

→ It is promoting OB OR

→ China trade volume with CEEC totaled.

\$ 67.87 billion. - 2017

1st July 2019

Q) What India is doing south central & Eastern Europe (Modi's speech at Shanghaï's Dialogue)

Q) ~~Ashkabad~~ Agreement (Connecting Central Asia & Persian Gulf).
Ashgabat

Second advice on Human Nature

Why prince should understand human Nature?

In politics prince has to deal with humans

what does it denote in academic sense?

Impact of Renaissance: Impact is Humanism.

Man became centre of the universe. Machiavelli's politics is based on analysis of human nature & not god.

→ up till now the scholars have tried to understand politics on the basis of philosophy, for Machiavelli it is more important to understand human psychology.

→ Machiavelli explained human nature on the basis of (i) his observations.

(ii) On the basis of his understanding on history.

Machiavelli concluded that human nature has remained same throughout history

What is his view on human nature?

He gives the principle of universal ^{egoism} ~~egoism~~.

Everywhere & in all ages human nature has been ^{Selfish} ~~Selfish~~ egoistic or self centred. In the words of Machiavelli Man is by nature ~~is~~ Selfish.

2. ungrateful

3. fickle minded.

4. coward

5. Avaricious (Extremely Greedy)

He explains the elemental qualities of human nature.

→ Selfish: Man is selfish by nature which means will always give priority to the self interest rather than the interest of the prince.

The selfish nature of the man is the reason that man is fickle minded. Man keeps on changing the ~~side~~ sides. It is very easy for man to change. He will remain with prince so long prince fulfills his interest, he will change the side if other prince fulfills his interest better.

Since man is selfish, man is ungrateful man will easily forget the favours done by the prince. Hence, Machiavelli believes that it is better for a prince to be feared than to be loved. People fear at the wish of the prince, they love at their own wish. A wise prince does what he wants & not what others want.

The above features of human nature tell that prince cannot take the support of any person for granted.

Hence human nature creates challenges for prince. If there are challenges there are opportunities also. There are some elements in human nature which if used wisely can be of advantage to the prince. The 1st such feature is that man is coward or fearful by nature. The another feature of man that he is possessive or greedy by nature. Man wants to possess the things which gives him pleasure. Hence Man has huge love for property. A wise prince creates condition by establishing law & order where the citizens can make profits or can make property.

He gives a very relevant advice based on the greedy nature. If prince is angry & wants to punish it is always better to kill the person rather than taking away his property. In the words of Machiavelli wise prince executes rather than confiscates.

wise prince do not confiscate property bcz man has huge love for property. According to him man easily forgets the loss of his father then loss of his PATRIMONY. Thus machiavelli's understanding of human nature reflects the psychology of emerging bourgeoisie class.

Criticism

Sabine calls machiavelli narrowly dated & narrowly located it means machiavelli's views on human nature are not universally correct. Machiavelli took such pessimistic & one sided description bcz of his experiences of Italy during his time. It is true that circumstances in Italy have influenced machiavelli but we will not be doing justice with such a great thinker. If we suggest that his thoughts lack universalism.

Qualities of the Prince

Like plato & aristotle Machiavelli also believe that every person cannot be a prince there are some special qualities which prince requires according to machiavelli prince has to be "clever like fox & Brave like lion".

He has to be clever like fox to understand the traps. He has to be brave like lion to defend himself from the wolves.

Reason & courage have been recognised as essential qualities of the ruling class since the time of Plato. Machiavelli could tell explicitly, which type of wisdom prince requires. Prince need not be a philosopher like Socrates. Prince has to be clever like Jon.

Machiavelli's book remains one of the best books in the field of "State Craft". Even in present times every state requires intelligence & defence to protect itself from the internal & the external threats.

2nd Advice
Machiavelli's advice on State craft

Accd to Machiavelli State craft has no relation with soul craft a state craft is about the mgt of power. Prince should know the use of power. Accd to Machiavelli it is better for a prince to be feared than to be loved.

What is Love & Fear?

They are the two types of power which means to get the desired ends. Prince has to be a cold blooded man. It means he should be in a position to take a calculated decision. Prince should understand which type of force to be used when, on whom & in what measure.

Accd to Machiavelli love i.e. force of attraction is to be used more frequently & in most of the situations. Only when it becomes absolutely necessary, prince should use

the option of force - The use of force has to be with lot of caution.

If the policy of love is adopted prince should show the love gradually & himself. However if prince decides to use force, king should use it indirectly. King should use his subordinates (proxy war). If force is to be used it should be used at once. It should be used in such a magnitude that the enemy is completely crushed. He should not be left alive to take the revenge. The danger in the use of force is, it gives rise to the feeling of revenge.

Revenge is the strongest sentiment in man. If revenge dominates mind, person will pursue revenge even at the cost of his interest.

→ 3rd Advice on Religion & Ethics why it's important,

It has become defining feature of Machiavellianism. According to Machiavelli in politics ends justify the means.

Content of Advice Prince should not suffer the dilemma in choosing the course of action which prince thinks is necessary to secure the national interest. Prince not only has to take the right decisions he has to take the timely decisions - his religion or ethics may create ethical dilemma. Even when prince prolongs the decision he hurts the national interest.

Machiavelli invented the concept of "Dual morality" the morality of the prince & the morality of ordinary person differs. ordinary person can sacrifice his life for the sake of his principles. Prince cannot afford to sacrifice the interest of his people for the sake of his beliefs. The political actions have to be judged by political standards. We have to see whether the action is politically correct or not. The political standard is that ends justifies

the means. If prince is successful in achieving the ends of [national interest] the means employed become automatically justified. However if prince sacrifices the end for the sake of purity of means, no one can absolve the prince for his mistakes.

Thus, Machiavelli emerges as among the greatest patriots in the history of western philosophy.

At times Machiavelli is criticized for being promoting immorality. even in India, Gandhi was a critic of Machiavelli. As to Gandhi politics without ethics or religion is like a ^{death} trap.

Shy Sabine has criticized Machiavelli as narrowly dated & narrowly located primarily because of his attitude towards religion & ethics, which he believed was the product of circumstances prevailing in Italy at that time.

It is to be noted that Machiavelli is not advocating immorality he doesn't suggest prince to be immoral in the personal sphere he allows

prince to use any sort of means only in the interest of the state or Nation.

Machiavelli is a realist who was criticized for telling the truth though Gandhi was critical of Machiavelli yet in Quit India Movement Gandhi himself sanctioned the use of force. Gandhi held

"Do or Die" but don't stay alive to see the country in Bondages. Gandhi held Nations survive only when people are ready to die for the nation.

It is to be noted that Machiavelli is not Immoral he is amoral. Amoral means indifferent to morality.

Other Advices.

Machiavelli on Religion

Machiavelli is not against religion. He even believes that religion can be useful tool in politics. He only separates religion & politics in the sense that religion should not limit the options of the prince.

Machiavelli is against Church & its interference in the state & not against religion. (Religion is a useful tool for capitalism (or) Exploitation class).

Machiavelli has Utilitarian approach towards religion. Religion is useful bcz it is institution of Social Control. Many people do not commit wrong bcz of the fear of god. He even suggests

Machiavelli prince
or = Simha.

that even prince is not religious, he should appear religious in public.

Machiavelli believed that both nobles & common man prince should always favour common man. Nobles have ambition they can challenge the authority common man has simple ambition.

Machiavelli is the first person to suggest that army should be comprising of nationals. Machiavelli proposed expansionist national policy.

Fortune / Luck.

Machiavelli is a realist to accept the role of fortune in the life of man. Fortune is described in Italian sense of bad luck.

Bad luck can come to anyone at any time. Just bad times come like torrential rains or roaring rivers. It can devastate person completely.

Wise prince makes prior arrangement. but still there is no guarantee.

What prince should do?

Prince should understand that the nature of fortune is like women. Women embrace brave men if prince will face bad times with courage he can turn bad times into good times.

Machiavelli Second Book "Discourses"

In prince. machiavelli favours the rule of the king who rules with iron hand in discourses he discusses his ideal state. He supports Republicanism but only where people are virtuous. Thus he belongs to the tradition of Aristotle.

~~Aristotle~~ Machiavelli's ~~second~~ best state is Aristotle's best practicable state.

Machiavelli held that wherever necessary monarchy wherever possible Republic but in no situation Aristocracy.

Machiavelli's Thoughts are Narrowly dated & narrowly located.

- Sabine criticizes machiavelli bcz the pessimistic view of machiavelli wrt to human nature & the role of ethics in politics.

Sabine believes his views are the product of the circumstances in the Italy of his time. Had he belong to some other time & space his thoughts would have been different. Thus for Sabine machiavelli's ideas lack Universal Significance.

It is true that Machiavelli was the child of his times it is also true that he gives one sided view yet it would not be correct to say that his thoughts lack universal & transcendental (beyond his time) Kantilya who belonged to different time & space held similar

News: Machiavelli is father of political Realism.
It is a paradox that Machiavelli is criticized for highlighting the truth about politics.

THOMAS HOBBES

Introduction

The greatness of Hobbes as thinker can be understood from very fact that Karl Marx regarded him as "FATHER OF ALL OF US".

Relevance of Hobbes

Regarded as the first modern thinker.

The modern age has seen the rise of nation states.

Nation state denotes the acceptance of the principle of centralized authority. [compare with medieval way of political life]. Centralized Authority also

denotes sovereignty. Since Modern political theory revolves around the concept of sovereignty & Hobbes was the first thinker who has given the complete theory of sovereignty, he is called as

THE FIRST MODERN THINKER.

In Machiavelli we get the concept of Nation state but we don't get the concept of State Sovereignty. If Machiavelli separated

church & state debates had clearly established the supremacy of state over church.

Since he subordinated church to the state his book was prohibited book, not only the book was prohibited it was burned twice.

Concept of Sovereignty.

The theory of sovereignty is about determining which authority is supreme means who has last word. "Which law is supreme". The theory of state sovereignty mentions that the law made by state is supreme & the essential feature of law is power of punishment. Thus the function of state is to make law & to punish those who do not obey the law.

Why it is necessary to punish the person who doesn't obey the law?

(1) If one person is allowed to disobey the law & remains unpunished others will follow. Society will collapse. anarchy will come into existence. Anarchy will create threat to life. Thus the role of state is to protect life & it

Since man will not obey the law without the fear of punishment, how to decide the magnitude of punishment.

What is the magnitude?

Deterrence is the basis of punishment.

The pain of punishment should be more than the pleasure which person gets in disobeying the law.

Deterrence :-
the action of discouraging an action through instilling doubt or fear of the consequences.

In Hobbes we can understand as to why police or army can use force & private person is not allowed to use force. when police uses force i.e. law

what is law?

Law is command of sovereign. when private person uses force it is a crime. Thus state is an institution which has monopoly over the use of force on a people living in a particular territory.

Introduction of Hobbes as a thinker?

(i) Hobbes belonged to the troubled phase of British history. He has witnessed the PURITAN Revolution. Since he witnessed Anarchy, his main concern becomes the Protection of life

(ii) Hobbes is known for justification of absolute right to life

→ A state cannot deprive a person from his right to life except according to the procedure established by law

→ Right to life includes the natural right to kill the other person in self defence.

In the state of anarchy life is not secure & hence man creates state & thus the purpose of state is protection of law. Such state is termed as "Police state"

hence the priority of Hobbes as thinker is order & security & not liberty.

OBJECTIVE OF HOBBS:

Hobbes is essentially a philosopher he belongs to the age of Science. Hence he aimed at giving the scientific basis to the political theory.

How to apply scientific method in Social Sciences.

Rene Descartes suggested how scientific method can be applied in social sciences. This method can be called as Resolutive - Compositive method.

- (i) Observe the complex phenomenon
- (ii) Understand the elemental parts
- (iii) Establish the cause & effect relationship.
- (iv) Give Explanation

Application of Resolutive - Compositive method.

(by Hobbes)

Hobbes believed that the scientific theory of politics can be built with the help of concepts available in.

① Physics ② Psychology ③ Geometry.

Relevance of Geometry

Since the time of Plato it had been recognised that approach of geometry is very useful in philosophy. The method of philosophy is logic & geometry is most logically consistent in its approach. Hence to build a scientific theory which means a systematic approach. The theory has to be logically consistent.

Application of Psychology

Earlier scholars used philosophy or ethics but since Machiavelli we see the use of psychology.

Application of Physics.

Suppose we have to find the explanation for the communal violence in the country.

By applying resolute, composite method we have to first observe the complex phenomenon, understand the elemental parts.

Communal violence → People → Human Behaviour → Human mind.

All political phenomenon are ultimately conditioned by the movement of particles in our mind.

Like everything else in the universe our mind is also made up of matter. Matter is in the state of motion. Motion continues so long we are alive.

The Motion of particles is in response to external stimulus. There are two basic emotions means two basic type of movements of motion.

① Love ② Aversion

We love those things we want to possess those things which have capacity to give us pleasure.

We want to avoid those things which give us pain.

On the basis of above method Hobbes concluded that man is by nature Utilitarian.

Most fundamental characteristic of human nature.

On the basis of Utilitarian nature of man we

can derive some other characteristics of human nature.

utilitarianism

Actions are morally permissible

if & only if

they produce at least as much net happiness as other available.

utilitarian Ethl
do anything which
gives him happiness

utilitarian?

Someone who believes
that the value of thing
depends on utility.

① Man is individualistic by nature

God has not made man in a way to understand the pleasure & pain of other person. Man understands the motion of particles in his brain & not in others.

He established individualistic nature of man as a natural fact. He removed the sense of guilt hence he is known as greatest of all individualists.

② Man is possessive by nature.

We want to possess the things which gives us pleasure there is a continuous desire for pleasure in man bcz man wants to be happy not just once but forever.

③ Man is power seeking animal.

bcz man is utilitarian.

Man seeks power bcz power is a resource to get happiness.

Since man desires happiness throughout his life there is continuous search for power after power which ~~ceases~~ ^{seizes} only with his death.

Since there is dilemma of unlimited desires & limited resources competition & conflict is inevitable feature of human life. Hence every one would like to possess more & more power. Power is a relative concept. Power is a ZERO SUM game.

④ Man is also insecure & fearful by nature

man fears the loss of something which makes him happy. One person looks at other person as enemy & source of threat. The biggest fear in man is death. Since we don't know what

happens after life. man considers life as biggest source of happiness hence right to life is most important & man takes all measures to protect his life.

Assignment

India & Central & East Europe

Exports → this region accounts for 1-2% of Indian Exports
→ Indian Investment is slowly growing.

→ CEE countries keen to trade with India in Agriculture, Energy, transportation, cyber security & IT.
→ China sustained outreach by 16+1 Summit

→ the general feeling of doubt of China presents opportunities for India.

→ main obstacle, one scale, lack of Exposure & knowledge about opportunities in each other countries.

→ the high level visits by President of India to Cyprus, Bulgaria & Czech Republic followed by VP to Malta, Serbia & Romania.

→ Cyprus an strong supporter of India's position on Kashmir for decades & it is the country's gateway to Mediterranean Sea.

→ CYPRUS is 8th largest FDI in India.

→ India - Czech India companies have invested & shy Czech investment in India like Skoda Auto, Skoda power & Tata.

Indo-Serbia ? They had provided 30 day visa
free entry. to Indians. to enable Indian visits
of film industry.

→ V-4. (all European Union member states)
Visegrad-4. : provides appropriate platform
to Engage with central Europe and
China 16+1.

→ India's Komet approach ^{linking} the Eastern
of Central Europe with Eurasia. presents
enormous opportunities of growth. India
could emerge a pivot for Eastern-Central
Europe-Eurasia & Indo-pacific region.

31/7/2019

Hobbs Adopt Methodology of Social Contract

What is Social Contract?

It is hypothetical concept used by the capitalist
scholars to explain the origin of the state, the
scope of state authority from the perspective of
capitalism. As capitalism is economic system based
on contract so their political system is also based on
contract.

What is the idea of contract?

The contract denotes choice which is voluntary
choice. A choice made by a free person &
rational person

→ In capitalism, Rationality means ability to make profit

Every social contract thinker will use ~~different~~ ^{following} steps

① Human Nature.

② State of Nature: It is hypothetical situation. It denotes situation where state is absent. It means situation where we live according to our nature. Every thinker shows that there is some problem in the state of nature, which will compell people to enter into the contract.

What is the purpose of contract?

To end the inconveniences. Contract means creation of state. Every contract will have its terms & conditions along with terms & condition there will be penalty.

How Hobbes had applied Social contract?

He explains Human nature; Human nature is Utilitarian. Since human nature is Utilitarian the man is individualistic. Since man is individualistic by nature, the man is not social by nature. Man is social only by compulsion.

State of Nature

The state of nature is reflection of human nature. It will be neither social nor political.

Accd to Hobbes the state of Nature is a State of war. It is a State of war of all against all. In such state there will be no scope for Art, Literature, Letters, Industry, Navigation. The life of man will be. Nasty, poor, Brutish & Short.

The life of man is continuous search for power after power which ceases only with his death.

On the basis of resolute compositive method Hobbes shows that man is utilitarian by nature. It is the result of his utilitarian nature that man is individualistic. Since man is individualistic, man lacks capacity to understand pleasure & pain of the other person. Hence there is no scope of Society. Since Society does not exist, Man has to take care of his interest on his own. In the absence of Society there is no scope for art, Literature, Navigation or Industry. Thus there is no scope for good life, leave alone the good life there is no security of life. Hence the life of man is nasty, poor, Brutish & Short. It is like a state of war of all against all.

In the state of war in the absence of common authority each individual will have to make arrangements for his security. In the absence of law power is the means of security. Man can never be assured of his security for the utilitarian man the other person is a source of insecurity.

Any person can kill the other person at any time.

Hobbes was the first scholar who held that all human beings are equal.

① All human beings are equal be all are utilitarian.
he rejects the theory of superior soul & inferior soul

② All men are equal be they have equal capacity to
each other. Someone may be physically strong the
other may kill such a person with his craftiness.
Someone may fall alone, others may kill by coming
together. Since man is never secure no amount of
power is enough hence there is a continuous desire
for power, continuous struggle for power & the life
of man will be seeking power after power which
ends only with his death.

Be man is utilitarian man is insecure.
Since man is insecure, man is possessive.
man wants to possess ~~things~~ things which give
him pleasure. Since all men want pleasure
it gives rise to the dilemma of unlimited
desires & the limited goods.

Since the state of nature is a state of
war it is a painful situation the utilitarian man
would like to come out of his pain in ^{search} of pleasure.

It is to be noted that there is a
influence of circumstances prevailing during his time
on Hobbes's description of state of nature [It is
Impact Puritan Revolution].

why contract?

to end the pain which was prevailing in the state of nature ~~parties to the contract~~

Parties of Contract

It is a contract of all with all.

What is the outcome of the contract?

State, society, in Hobbes there is single contract & by the single contract society & state comes into existence. Hobbes also uses the

term Commonwealth. A State is not party to the contract. A state is a beneficiary of contract.

What does it mean.

It means, there are no obligations on the state. all obligations are on the people.

* process of contract

People agree to transfer all of their natural rights except right to life to the state. In the state of nature individuals were sovereign.

means they had absolute rights - there was no limitation on their rights. They even had right to kill other person.

In the state of nature everyone was sovereign. So everyone was making the law. It means every person had his own law. In effect there was no law. In effect there is no order.

In effect there is no right.

Concept of right.

Hobbes doesn't believe in the concept of natural law. no one can enjoy rights, not even right to life in the absence of state.

Only when state comes into existence establish laws & order man can enjoy rights.

What is the source of rights?

Nature & State.

Acced to Hobbes State. This theory is called as the Theory of Legal Rights. The theory of legal rights is followed in Britain. which means law is source of life. which means parliament is the only source of right (Statutory rights). In Britain sovereignty lies with parliament. British parliament can take away any of the rights by ordinary law.

Note In India there have the concept of legal rights as well as natural rights. no

Natural Rights.

The natural Rights represent USA tradition. Acced to this theory Nature is a source of rights. It means man is born with certain rights. These rights are fundamental to man's existence. Acced to John Locke on whose idea, constitution of USA is based, God has given every person. right to life, liberty, health & pursuit of happiness.

constitution guarantees the rights

In India also there is a concept of natural rights / fundamental rights. They are not given by the state. They are given by nature. They are limitations on the state.

What is definition of fundamental Rights?

The Rights which are guaranteed by the constitution. Article 32 ensures the guarantee of enjoyment of Rights. (Right to constitutional Remedies)

Hobbes on natural Rights?

→ Man had the natural rights in the state of nature
→ These rights were absolute (absence of authority).
However man was not able to enjoy Rights. Accord
to Hobbes the concept of Rights is social political.
absence in the state of nature. Right is not ^{Right} Right,
Right is right. Thus in the state of nature
enjoyment of rights depends on power.
Hence Hobbes called natural rights as power &
not rights. In the state of nature man have all
rights which means absolute power thus man
was sovereign. However sovereignty of man
led to chaos. Man does not want right at the
cost of security Man's first preference is security
rather than liberty. It means utility is more
important than liberty. Thus man transfers all of
his natural powers to the third party i.e. state
on the condition all persons do so.
What is the outcome?

Man becomes powerless. State becomes
all powerful
→ man loses all sovereignty as state emerges
as sovereign [power is a zero sum game].

What does it implies that state is sovereign?
It means only state will make law -

What is law?

Acc to Hobbes law is a command of Sovereign thus

He supports the tradition of positive law

What are different traditions of law?

Article 14. USAs

Right to freedom - a free person.

- It cannot be limited
- Restrictions can only imposed by judiciary & it cannot be implemented by Executive.
- only Reasonable Restriction.
- judges can question wisdom of Legislature

Article 22 (British)

Right to life + Personal liberty

Right of person who is detained by police.

Exception by the procedure established by law.

→ judges cannot question law.

→ judiciary have power only to review Executive act.

Here State means Executive → police.

Article 14, Article 19, Article 21 were declared as Golden Triangle in Menaka Gadhare.

SCB it's not fair, just, Reasonable.

Procedure preestablished by law was means for police detention of article 21. It got changed to due process of law after Maneka Gandhi.

Hobbes does not recognize natural law bcz no certainty vary from person to person. It itself leads to chaos.

Customary laws.

In some countries including India customs are the basis of laws primarily personal laws. Hobbes even rejects personal laws.

Religious laws

Religion is seen as a basis of law.

Positive law

the law made by state [also known as analytical school of law] Accl to Hobbes the real law is positive law. Hence for him law is the command of sovereign.

Why positive law is law?

It comes from definite source It doesn't vary from person to person It comes with power of punishment.

Covenants without swords are nothing But words.

CONVENANT

- Agreement

COVENANTS WITHOUT SWORDS ARE NOTHING BUT WORDS

Hobbes was the first modern thinker as he was
the first person to give complete theory of
Sovereignty. He gives the legal theory of Sovereignty.
The legal theory of Sovereignty ends the problem of
Theory of "Two Swords" which has created anarchy
in the medieval Europe.

The legal theory of Sovereignty suggests
that the state has the ultimate power to make
law. Accord to Hobbes law is the command of
Sovereign. He rejects the other traditions of law.

Only The law made by State ~~and~~ is capable
of serving the purpose of the law. The purpose of
law is to maintain order & peace. This objective
can be achieved only when the law comes with
the power of punishment. Man will not obey the
law bcoz man is utilitarian by Nature.

So long law serves the purpose of man, man
will obey the law. If his purpose is served
better by disobedience to law he will be
tempted to ~~disobey~~ the law.

It cannot be allowed bcz if one person disobey the law & remains unpunished, others will also follow him. This will take us back in the state of anarchy. Life of everyone cannot be put under threat for the sake of mischiefs of the few. Hence Hobbes does not regard any law as law, if it lacks "Teeth to Bite". On the same principles he rejects the natural law as law in the state of nature exist, the natural law was unable to establish peace. "The understanding of natural law depends on the Reason in man. Man has Reason but not enough Reason. Passions control Reason. Man has Reason which is enough to guide. how to satisfy passion, but not enough to control passion. There can be peace in the state of nature [absence of state] but only if man acts with reason. Since it's not possible, Hobbes doesn't regard Natural law as law. As not law bcz in the state of nature, no common authority exists to enforce law & punish the law breaker.

We can see the relevance of ideas of Hobbes if we look at the international politics. International politics is in the state of anarchy. A continuous struggle for power. International law remains weak law bcz of the voluntary nature & the absence of world govt.

"I AND FEAR WERE BORN TOGETHER"

Hobbes is the first modern thinker as he was the first person to give the Theory of the Sovereignty of the state as per theory of sovereignty a state is the ultimate source of law, law is command of sovereign. & punishment is a element of sovereignty. Hence hobbes suggest that COVENANTS WITHOUT SWORDS ARE NOTHING BUT WORDS. Thus he believes that no one will obey law without fear of punishment.

Hobbes is not only among the greatest political philosophers, he is also known as one of the greatest authors in English literature. His book LEVIATHON is not only the master piece in modern political theory, it is also a master piece in english literature. He uses metaphorical language in order to show that fear is the basis of law. He relates his ideas to the event in his life. His mother gave him fire mature birth out of the fear of a Spanish Chmaddoon. Hence he suggests that I & Fear were born together. Like Machiavelli he also builds his theory of state on the element of fear in man.

On the basis of resolute composite method. He shows that man is utilitarian, man wants to possess the things which give him pleasure. In a source of pleasure the loss of life is the biggest fear. In the state of nature the life was not protected & hence man agrees to transfer his rights,

create all powerful state, which can grant him security from the UNNATURAL DEATH.

Hobbes on Right to life. (Right to self preservation)

→ the most fundamental of all Rights

→ the most important Right is Right to life

Why it is important..?

bcoz man is utilitarian. Life is a source of happiness. It is for the sake of life man transfers all other rights. Right to life includes Right to self defence. Even when the state tries to take the Right to life of a person in an arbitrary manner. The man has "Right to Resist". Thus man can use force to protect his life.

Right to life is inalienable. man has not transferred this right to state. ~~Obligations~~

Obligations of state

→ It is the duty of the state to preserve the life.

→ It is the duty of the state to punish those who attempt to take the life of someone else.

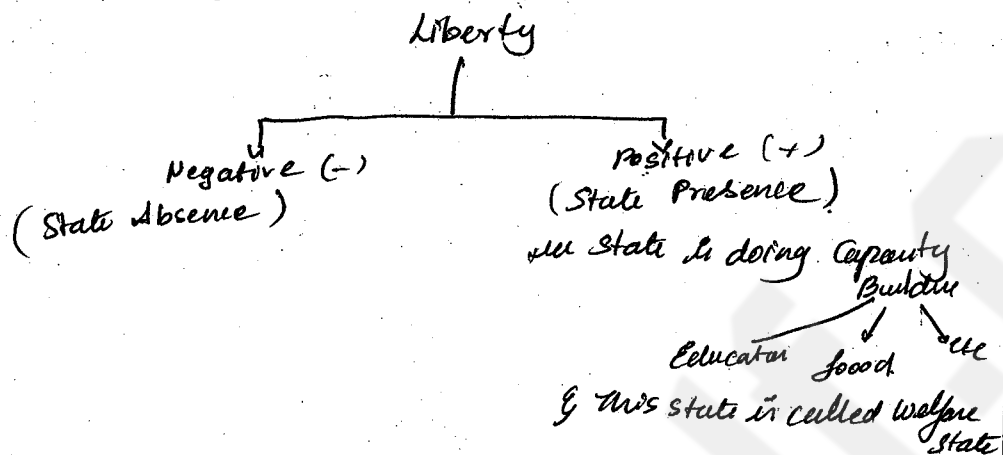

→ It is the obligation of state, that state cannot deprive a person from his right to life except in accordance to the procedure established by law.

It is to be noted that right to self defence ensures that in democratic countries executive has to follow procedural safeguards

It includes persons right to know the grounds of arrest & right to get the legal aid.

Hobbes view on liberty

Hobbes is fearful of liberty. Liberty leads to chaos. It causes threat to life he prefers security rather than liberty.

Negative Liberty means when liberty is described as a condition, as a absence of law or state
for ex: In Hobbes state of nature man has absolute liberty but there was no state. from this perspective liberty & Authority are antithetical to each other.

Positive Liberty = The concept of positive liberty is relatively new it alters the view that state limits liberty as if law & liberty are antithetical. Aided to Supporters of free liberty through affirmative actions policy state increases liberty. positive liberty is best described as capacity. It is capacity of doing something worth doing.

Amartya Sen is supporter of free liberty.

note → In Hobbes we see the concept of liberty but not Hobbes is not champion

of liberty.

LIBERTY IS WHERE LAW, IS SILENT
means.

LEVIATHAN means State

↓
Seamonsster. which is very powerful.

Hobbes gives preference to authority over liberty. According to Hobbes man had absolute liberty in the state of nature. Absolute liberty however results into Absolute Anarchy. Since Anarchy is painful, man enters into the contract to create the state. Once state comes into existence all people will have to follow the law made by state. In his contract he has shown that, it is a contract of all with all. Since man agreed to obey the law, as per the conditions of the contract, State has power to punish those who do not obey the law. No one can be brought back in the state of anarchy for the sake of law. Man has only two options either to live under the absolute authority (or) absolute anarchy. Thus once state comes into existence man loses all of his liberty. Man can exercise his liberty, only to the extent state has preferred not to make law. However if a state makes law, man loses liberty. He cannot act as a sovereign. He has to act to law. for ex - So long Indian state had not made law to limit the freedom of speech & expression on social media, people had absolute liberty but once the law comes into existence, they can exercise liberty within

the limits provided by law. Thus he prefers order. He believes that people should not insist on liberty. It is enough if a state provide security of life. People should be satisfied with the liberty allowed by the state & not liberty against the state.

→ to compare b/w -ve & +ve liberty

LIBERTY OR FREEDOM, SIGNIFIES PROPERLY
THE ABSENCE OF ^{LAW} OPPOSITION IN EXTERNAL
IMPEDIMENTS TO MOTION ||

Hobbes is not only among the greatest political philosophers but is also recognised as among the greatest authors produced by the English Race. We see the use of metaphorical language in Hobbes.

Hobbes was influenced by the developments of taking place in science during his time & incorporates the language & the concepts of science also.

Hobbes never accepts defining liberty as a capacity. He defines liberty in terms of the absence of laws. He gives two examples to describe or define liberty to explain the proper meaning of liberty.

The first example is of a sick person in the bed unable to move. According to Hobbes it is not proper to say that the person lacks freedom to move. The person rather lacks capacity to move.

In the second example he talks about the liquid in the bottle. In this case liquid does have a capacity to flow & hence liquid exerts pressure on the wall. Liquid meets opposition to its motion by wall. Wall acts as an impediment to motion.

Thus liquid is free to flow only when there is no impediment.
In absence of law for Hobbes, liberty can be understood
only as the absence of the law & man has liberty
only to the extent law is silent.

India - ASEAN Relations

ASEAN countries : Indonesia, Singapore, Philippines,
Malaysia, Brunei, Thailand, Cambodia, Lao PDR,
Myanmar & Vietnam.

Look East policy $\xrightarrow[\text{multidirectional dynamic action}]{\text{multidirectional dynamic action}}$ ACT EAST POLICY.

Background

- India & ASEAN nations share common colonial, historical & cultural linkages. even helped Indonesia in their struggle for Independence.
- Look East policy in 1992 was a turning point of India - ASEAN Relations. even ASEAN realized importance of India.

Complementary b/w India & ASEAN.

Trade :- ASEAN is India's 8th largest trading partner.
& India is 7th largest trading partner of bloc.

FDI :-

India received \$ 13.8 billion FDI from ASEAN.
Singapore invests most in India.

Strategic Reason

- dispute on China Sea led ASEAN led to look towards India as a balancing force.
- They had understood India's intent as

as a friendly nation. deprived of any hegemonic designs.

→ protecting vital sea lanes of communication like

Taiwan, Malacca & Sund Straits etc. are essential for all the nations including India. That its sea bound trade. countries uninterrupted.

Terrorism :-

ASEAN countries have been victims of terrorist attacks. Thus the complete elimination of such issue demands regional cooperation.

People to people connectivity :-

People connectivity with Singapore, Malaysia & Indonesia.

Areas of concern

⇒ Imbalance on trade & investment.

→ primarily attributed to FTA (Free trade Agreement). India's Exports are not rising. & unfavourable BOP for India.

⇒ China's increasing presence

⇒ Lack of physical connectivity.

Assessment of Hobbes as a thinker.

Hobbes as a first modern thinker

(1) ~~Why Hobbes was standing~~

While Bodin was standing at the Gate of modernity, Hobbes jumped inside the gate.

Introduction

Which thinker should be regarded as first modern thinker is matter of debate.

The three thinkers are in Race

① Machiavelli

② Jean Bodin.

③ Thomas Hobbes.

Should we call Machiavelli what makes him a modern thinker?

Machiavelli is described as first modern thinker bcz

a) He was the first person who separated Religion & politics.

b) We see the first impressions of nation state.

However Machiavelli is not regarded as the first modern thinker.

(i) He has not given the theory of the Sovereignty of the state.

~~Machiavelli~~ is better treated as

"Transitional thinker" (Brian Nelson calls him as transitional thinker) Machiavelli belonged to the time when medieval age was coming to an end & modern age was yet to start. Hence we don't see all the features of the modern age or all the political philosophy in Machiavelli.

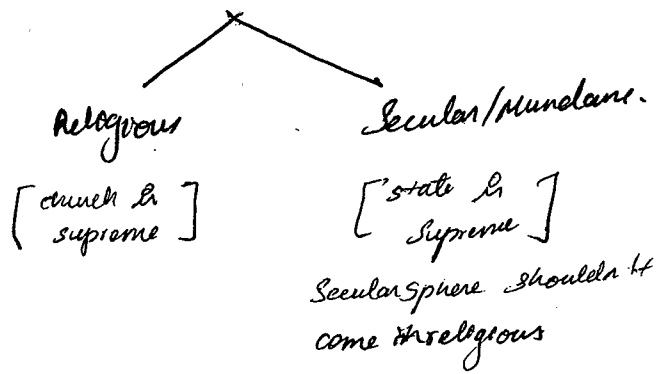

Though he is completely non-medieval yet he is not entirely modern. Hence it is better to call him. A modern (or) Non-medieval.

Jean Bodin is also regarded by some as the first modern thinker. The reason being, he was the first person to give the theory of Sovereignty. According to him Sovereignty is the supreme power of the State over the citizens & the subjects.

Why he is not regarded?

He has given partial theory & not complete theory.

How his theory is partial?

Acad to have

Ex Sabarimala should
be considered by only
Religious

Boodin gives supremacy to the state only in secular sphere as far as the matters of religion are concerned, the church is supreme.

Hobbes was the first person to give the complete theory of Sovereignty. Acad to hobbes in a particular territory there cannot be more than one sovereign. The authority of State is absolute. Man has liberty only where the law is silent.

Since Hobbes has put even the church under the state his book was prohibited by the Church. Hence he was the first person to give the complete theory of Sovereignty & he should be treated as "THE FIRST MODERN THINKER".

HOBBS AS THE GREATEST OF ALL
INDIVIDUALISTS - By Sabine

HOBBS IS INDIVIDUALIST IN HIS ASSUMPTIONS
BUT ABSOLUTIST IN HIS CONCLUSIONS

- CB MacPherson

What is individualism?

Individualism is a philosophy of modern west. Acad to Individualism self interest has a priority over the collective interest.
@ Part is prior to whole.

This philosophy has its roots in Sophism.

Individualists are of two types.

① Methodological.

② Normative.

① Methodological Individualists

Those who take individualistic nature of man as a method to build their political theory.

Ex: Hobbes has built the theory of the absolute state on the basis of individualistic nature of man. On the basis of Resolutive Compositive method, he established that man is utilitarian by nature. Since man is utilitarian, man is individualistic. Man cannot understand the notions of particles in the brain of other person.

Hence man is individualistic, such individualistic person cannot live in peace with others. Hence an absolute state is required so that he can live in peace.

② Normative Individualists

Normative means value based for some philosophers. Individualism is a value. It is a way of life. Such scholars are called normative individualists.

Hobbes is Normative Individualist also he doesn't believe that being individualist is wrong. He rather tells that it is a natural fact. Natural in a similar way like any other natural factor. For Ex: there is nothing wrong if Earth revolves around the Sun. Thus Hobbes is both Methodological as well as normative Individualist.

Normative &
Values @
the way of life..

Absolutist Those who justify the absolute authority of the state. Absolute authority means one who doesn't give any liberty to the individuals. Hobbes is absolutist as he suggests that the authority of the state is absolute & man has liberty only where the law is silent.

China

is power to act & express
Liberty = Liberty
Freedom = personal privilege
↳ power to think or
act

to what extent it is right to say

a) Hobbes begins as individualist & ends as absolutist.

b) to say Hobbes is inconsistent

Is Hobbes really inconsistent.

No., Hobbes is one of the most logically consistent philosophers. Hobbes even recommends the adoption of the approach of Geometry to build the logical & systematic theory. His absolutism is the logically consistent result of his individualism. Since man is extremely individualistic, it is not possible for him to live without absolute state.

It is not necessary that a person cannot be individualistic as well as absolutist.

It is true that Hobbes builds absolute state on the basis of the individualistic nature of man but it doesn't mean that he is individualistic only in assumptions & not in conclusions.

He is individualistic even in conclusion. He is individualist par excellence. He is called as the greatest of all individualists for following

Reasons:

(1) absolute state means, preservation of individual is an end. He never gives importance to the state over individual. He even gives right to self defence & right to resist the state.

Hence he begins as Individualist & Ends as Individualist.

Hobbes Theory of political obligation

political theory since the time of plato is dealing with the principles of political obligation. Since political science begins & Ends with the state, political theories are about justifying the state & giving reasons as to why man should obey the state. For ex. Aced to Aristotle man should obey the state bcz man is a social animal & state comes into existence for the sake of life & continues for good life. Aced to Hobbes man is obliged towards the state bcz in the absence of the state the life of man is Nasty, Poor, Brutish & Short. He not only tells the obligation, he even gives power to punish those who do not obey the state. Aced to him life of everyone cannot be brought back to the state of anarchy.

While plato and Aristotle do not give any right to resist Hobbes along with obligation, gives right to resist the state if a state deprives a person from his right to life in an arbitrary manner.

LEVIATHONS is a founders book of history & useful book of politics (By Vaughan he is contemporary of Hobbes)

Like Machiavelli Hobbes is also criticized for telling the truth. Hobbes Book was prohibited by church. His book was burnt twice during his life. He was described as poisonous Tadpole. His book was criticized as containing

Low principles. Vaughan was contemporary of Hobbes.
his criticism of Hobbes is hardly justified. Hobbes
never attempted to give the history of origin of the
State. Through the social contract he is only
telling that the state is essential of human life
will be without state. Hence no point criticizing
Leviathan as fruitless book of history.

Hobbes was political philosopher & not an anthropologist.
- Ist. It is entirely wrong to say LEVIATHON
as a useless book of politics. - LEVIATHON is
actually a masterpiece not only of political philosophy
but also of English literature. without Leviathan,
it would not have been possible to get the logical
explanations for the principles & practices of the
modern nation states. Hobbes is regarded by
Karl Marx as "Father of All of us".

John Locke

Locke is known as father of liberalism.

What is liberalism.

Liberalism is often associated with liberty.
but as suggested by Isaiah Berlin, toleration is
the substantive heart of liberalism. Since
enjoyment of liberty depends on the value of
toleration. Liberalism is not just a political
philosophy at present. It is a way of life in the west.
It is identity of their civilisation.

Toleration is deliberate act
of self restraint

Liberty = 2nd of
freedom.

Assignment

total no of countries in Africa is 54

African Union (AU)

AU consists of 55 countries, with exception of European possessions in Africa.

→ founded in ^{HA} Addis Ababa - Ethiopia 2002

launched on 2002 SA.

Works of John Locke.

His most prominent political work is known as the Two treatises on Civil Govt.

First
Content of First Treatise.

On this book he criticises Filmer's Patriarcha.

Content of Second treatise

In this book he had given treatise of Ltd govt (political liberalism).

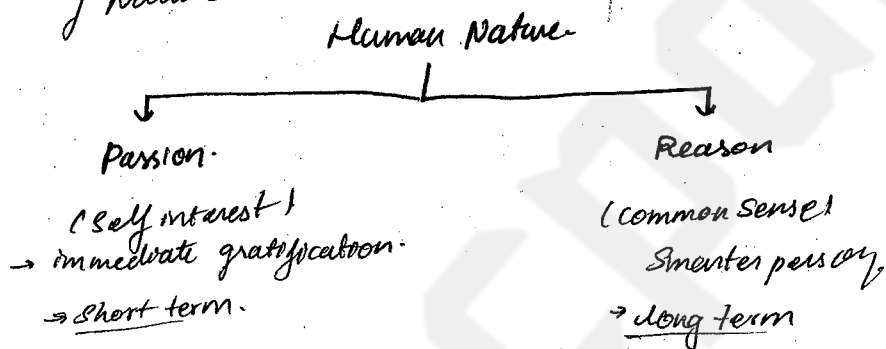

John Locke has also used the methodology of social contract to build his theory of state.

Note: His theory of state is actually the theory of govt./commonwealth.

Human Nature:

Locke has witnessed the Glorious revolution. It was a peaceful change in Britain the power of king shifted to the parliament. Thus from absolute monarchy Britain entered into the limited monarchy. Hence even in his theory we will see the theory of Ltd. State.

Since glorious revolution was peaceful, his understanding of the human nature is not as pessimistic as that of Hobbes. He takes more ~~of~~ enlightened view of nature.

In Hobbes, passions control over Reason, man has Reason but it is not sufficient to control his passions.

On the other hand in Locke Reason & passion are present in more balanced form. Man has the reason, which is enough to control his passion. Since man has a reason. Hence man can take enlightened view of his interest. Man knows that when he protects the interest of others, ultimately he is protecting his own interest.

In the verse of law "Reason Guides Man,"
not to harm the other in his life, liberty, health

& property.

State of Nature

State of Nature is a hypothetical concept used by social contract scholars to show the nature of human life in absence of state. The

The description of the state of nature shall vary from ~~the~~ one thinker to other depending on his assumptions on human nature. Unlike Hobbes where the state of nature is a state of war, the state of nature in Locke is the state of Peace, Good will, Mutual Assistance. Thus in Locke the state of

Nature is not pre-social like Hobbes. ~~rather~~ social. Since society exists life of man is peaceful

Whether man enjoyed natural rights in the state of nature?

Position of Hobbes:

Though people had rights yet in the state of nature right is right. Hence Hobbes prefer to call these rights as powers.

Position of Locke:

Since the state of nature is peaceful, society exists man is able to enjoy rights. (Both agree that rights can be enjoyed only in the society).

What made it possible to man to Enjoy Right?

Reason in man teaches him not to harm the other in his life, liberty, health & property. Thus the presence of Reason made it possible for man to enjoy rights in the state of nature. Thus in the state of nature Reason i.e. natural law allowed man to enjoy the rights.

Compare the position of Locke & Hobbes w.r.t to Natural Law:

Hobbes does not recognise natural law bcz man does not have sufficient Reason. Hence for Hobbes law is the command of sovereign bcz the COVENANCE WITHOUT SWORDS ARE NOTHING BUT WORDS. Locke belongs to the tradition of Natural law. Acc to Locke Natural law or Reason made it possible for man to enjoy liberty in the state of nature.

Whether ^{Man can} ~~the state~~ enjoy rights without Reason or Law.

Acc to Locke "No Law, No Liberty" compare the position of Hobbes & Locke on the relationship b/w law & Liberty.

Liberty Hobbes	Locke
→ Hobbes prefer law ^{Hobbes} → belong to traditional law → for Hobbes liberty is where law is silent however then law denotes positive law	Locke prefer Liberty belong to tradition of natural law → for Locke no law no liberty since the law means natural law or Reason
→ Represents tradition of procedure Established by law	→ Locke represent the tradition of due process of law

What is Due Process of Law & Procedure Established by Law

They are the principles of Judicial Review. As per procedure established by law judiciary can review only ^{Executive} ~~Executive~~ Action. Cgt should be acc to

law) Accd to due process of law judiciary can review the executive as well as legislative action.

What is the ground of Review of Legislative action?

Reason:- means the law should be Reasonable, Fair & just

Why?

Justice is the due of law. It is not permissible to do injustice by bringing arbitrary laws

In India since the adoption of doctrine wrt the interpretation of Article 21 in India, in Menaka Gandhi case, there is a better guarantee for the protection of the liberties of the people.

How liberty's are protected after the creation of state in the theory of John Locke?

Contract Locke's Contract

When state of nature is state of peace & good will & mutual assistance, what is the need for social contract. In Hobbes people enter into social contract but there was no security of life & the state of nature was nasty. However in

Locke the state of nature is state of peace, good will & mutual assistance. In Locke, there were some inconveniences in the state of nature

What Inconveniences?

The absence of common authority (govt or state)

What are the three essential functions of govt?

- To make law.
- To execute law.
- To Adjudicate law.

What will happen if common authority is absent.

In this case each person will be the law maker, judge & Executive (functioning powers).

What will be the impact?

Each person will have own law which will create confusion & not convenient option. The person is making law, executing law & judging the law. Reason suggests no one can be a judge in his own case. Hence the reason suggest to end inconvenience & to create a common authority but three separate institutions.

In the state of nature there was another cause of concern like hobbes, Locke is also utilitarian. The state of nature is a state of peace but peace depends on Goodwill. There is a possibility that passions dominate over Reason. If this happens the state of peace will end. Hence men create govt as a insurance hence for Locke the state is a matter of convenience for man.

Comparison with hobbes

Since state is a necessity in hobbes, Hobbes gives the absolute state in Locke state is just the instrument of convenience. Hence Locke creates limited state.

What limits the power of state?

Rights of the people. The limited state shows that man has transferred only few rights not all the rights.

Which rights man will transfer?

only three rights.

→ Right to make law.

→ Right to execute law.

→ Right to adjudicate law.

Acced to John Locke Right to life, liberty & property are the natural rights, fundamental to the existence of man & hence they are non-transferable, inalienable, inseparable. Since man does not transfer these rights, these rights limit the power of the state. Thus in liberal countries people have fundamental rights which acts as a limitation on the powers of the state. Hence the rights maintain the rule of law.

Contracts in Locke.

In Hobbes there was a single contract by single contract society, state, govt all came into existence. In Locke there are two contracts.

(1) First contract: In the first contract man created civil society. Natural society was already existing.

Hobbes state of nature was both pre-social & pre-political. Lockes state of nature was only pre-political but not pre-social.

(2) Second contract - In second contract led to creation of govt.

First Contract: → leads to formation of civil society?

What is a civil society?

Concept of civil society is very central to philosophy of liberalism. In liberal countries civil society is seen as the location of freedom. It is a formal & contractual society.

In civil society people recognize each others rights. Thus the natural rights will become guaranteed (enforceable).

Civil society is a place where we exercise freedom. In pressure groups we get. Shouldn't fall in domain of family & Govt.

Second Contract: outcome is Government.

In first contract all people participate & recognize each others rights.

In second contract some people stand in the election.

Why? to represent the people in govt.

How govt is formed.

Those who get majority will form the

government.

What does it imply:

i) Locke is the first person to give the concept of representative democracy. He is the first person to give the majoritarian model of Democracy.

What is democracy?

Democracy is a govt based on ^{the} consent of Govt.

What does consent of govern implies

It implies that the govt cannot act in an arbitrary manner. Govt has to act according to the wishes of the people.

Why?

Govt doesn't have any original powers. Govt only has the delegated power. In the words of Locke, govt is a trust, people are trustees. Trust should run according to the wishes of trustees.

What happens when govt acts on its own, against the wishes of trustees?

It is breach of trust.

What people can do?

people have right to revolt.

Which type of Revolution Locke is talking about?

He talks about the liberal view of Revolution.

It means constitutional change - changing the set of persons ruling by constitutional method.

(Such as election, vote of ^{no} confidence)

Why Revolution is peaceful?

Liberals assume that man is rational.

Hence there is no role of violence.

What are the conditions in which people can revolt?

- (i) when prince put his citizens under the authority of other prince. → Afghanistan under USSR
- (ii) when govt asserts its will arbitrarily & does not act as per the will of the people. → demonstration
- (iii) when govt does not allow the duly constituted legislature to function. → Indira Gandhi
- (iv) when govt does not implement the laws made by the duly constituted legislature.

→ Indian Gandhi
National Emergency
lead to formation of
of Fundamental

Liberal view means
Peaceful.

9 July 2019

Types of consent.

Locke mentions 2 types of consent.

- ① Explicit ② Tacit consent.

Consent

Consent is expressed in the elections majority gives explicit consent, minority gives TACIT CONSENT

Locke's THEORY OF RIGHTS

Since the state of nature was the state of peace people were enjoying natural rights. Since there were inconveniences man transfers some of the rights & not all.

Right to life, liberty & property are inalienable rights. Since man has not transferred these rights a state cannot make any law which takes away or abridges (limits) any of the rights.

Locke at times uses Right to property in inclusive sense. He uses property in an inclusive sense to indicate property is essential for good life & liberty.

- ① property is essential for good life & liberty.
② to assert that it is a property of a man & not a state.

Locke's Right to Property.

Importance of property.

Property is a divine institution Source of good life. According to Locke God has created apple, milk, meat to eat drink & be happy. God doesn't want man to sacrifice but to acquire the things which are source of happiness. Like Hobbes, Locke also believed that man is utilitarian by nature.

Locke's theory of property can be understood under following heads :-

- ① Definition of property
- ② The Scope of man's right to property.
- ③ The Role of state w.r.t to property.
- ④ Limitations on right to property.
- ⑤ Locke as scholar of possessive Individualism.

What is possessive Individualism.

(i) philosophy of capitalism.

(ii) It is philosophy of capitalism which justifies absolute right to property.

What is basis of justification?

Accd to this theory whatever man possesses is bcz of his own efforts (entirely) hence man should have absolute right over his property. It means state cannot compel man to pay taxes to help the poor.

Aristotle supports individual ownership but common use thus he does not support possessive individualism. Utilitarians like Hobbes, Locke, Bentham support possessive individualism.

Accd to Bentham the policy of state should not be such, which increases pain. Hence when state take more taxes it increases pain.

Definition of property?

His definition is closer to Aristotle.

Property is the product of one's labour.

Labour is a part of one's personality man should have complete control over his personality & so the product of his personality. This involves

the product of his slave & his horse. Thus he justifies absolute right to property which means there are limitations on the powers of the State.

What limitations?

It cannot make any law which deprives man from his right to property.

Why State cannot deprive?

Man has not transferred this right to the state. A state is a trust, people are trustees. A state cannot have any original powers. State can enjoy only delegated powers. No reasonable person will ever transfer his right to property to the state.

Since property is a source of happiness, so no one would be willing to transfer his property.

Thus people will have right to revolt. In the words of Locke "THE SOLE PURPOSE FOR

CREATING THE STATE IS THE PROTECTION OF PROPERTY". Thus man has created the state to protect his property & not to deprive him from his property.

What is the Status of State?

The status of the state is not greater than that of "night watch man".

Locke has given three limitations on right to property.

① No one will deprive the other person from acquiring property (Equality of opportunity)

② No one has right to destroy the property. They only have right to enjoy the property.

God has created property for the happiness of the man.

- ③ property should be owned by putting ones labours
thus the theory of property given by Locke
not only makes him the scholar of possessive individualism
but also the scholar of Emerging Bourgeoisie Class.

NO LAW, NO LIBERTY.

- ④ In his right to property he also explains the origin
of property & origin of poverty. According to Locke
property was held in common initially (Communism)
though property was common in beginning. It cannot
remain in common. (population increase, competition)

Those who were enterprising industrialists
hardworking became rich. Those who were lazy
day dreamers & quarrelsome remained poor.
thus there is no justice in compelling rich to
help the poor.

NO LAW, NO LIBERTY.

Once state comes into existence the liberty is
protected bcz the law made by state has to
& affirm the due process of law. It means a state
cannot make law which goes against reason.
thus the law made by state should be in
affirmation with natural law. for example
Reason suggests no man can transfer his Right to
life, liberty & property any law taking away or
abridging right to life, liberty & property cannot
be upheld. people will have right to Revolt.

Locke

Locke on toleration

toleration is also dimension of Secularism @ Secular State does

Does Hobbes support toleration?

Hobbes does not support toleration. The authority of state is absolute. even in matter of Religion. The ultimate powers lie with the state. Hobbes gives only one right. Right to life. he does not give right to religion (Not even freedom of conscience).

Position of Locke on toleration.

① Man does not transfer all of the rights to the state (State has ltd powers)

② A state should not try to dictate people in the matters of Religion.

Why.

According to Locke no one listens to the dictatorial orders of magistrate in the matters of Religion. Hence he recommends state to grant freedom of conscience. He suggests a state to be tolerant towards the followers of different Religions. However he does not suggest tolerating Atheists.

Atheists should be thrown out of the state.

Why? Atheists are problems.

Atheists are dangerous & they can threaten the state.

Analysis:

① Capitalism supports religion bco religion acts as a disciplinary force - One of the reasons why workers don't revolt is fear of god. Communists are against religion. Communist supports Atheist & led to Karl Marx religion is "OPIMUM OF MASSES"

Hence they need to liberate themselves from the religion.

LOCKE IS AN INDIVIDUALIST OUT & OUT.

out & out.
means thoroughly

① Introduce Individualism.

② There are two types of Individualists.

(i) Non methodological.

(ii) Normative

Locke is also both.

③ In Hobbes we do see the justification of the absolute authority of the State but however Locke is Individualist out & out. Nowhere he justifies absolutism or the authority of the state.

(i). Govt based on consent.

(ii) absolute Right to life, liberty, property.

(iii) people have right to revolt.

(iv) Tolerator.

First Locke's 1st Treatise on Civil Govt.

In this book Locke has criticized the theory of the origin of state given by Filmer in Patriarcha.

Suggest whether Filmer on Hobbes is the chief

antagonist of Locke

Filmer represents the perspective of feudal class.
Filmer was the critic of social contract

Why

The theory of social contract neither gives logical justification to the power of the state nor to the right to property.

Hobbes on state.

① Hobbes is against the tradition of social contract bcz he found it illogical in practice why its illogical

If a state is based on the consent how can we impose the consent given by one generation on successive generation.

Hence there is need to find another justification for origin of the state. Hobbes gives the explanation based on Bible. Accord to bible a state is a family of god. God is the ultimate king. Adam is the son of God. Adam is the first king. God has given absolute power to Adam. other kings are successors of Adam. Hence on the basis of heredity they also have absolute authority.

Response of John Locke.

(i) Even when we accept that state is a family of god & Adam was the first king. However this event happened long time back in the history. How at present we will ensure which king is real heir of Adam?

Hence it is better to reject the theory & in present time contract is the only logical option.

On He also rejects Hobbes's view that state should have absolute power like Aristotle. Locke also believes that state cannot have absolute powers bcz people are not depend on the state in the similar way that children are dependent on father.

Filmer on property

Filmer believes that only heredity is the sound basis of Right to property. The social contract theory which links property with the product of labour - does not give any convincing argument to justify Right to Inheritance.

Locke does not have a very strong argument. He only suggests that property is the product of labour & only such property is justified.

Suggest whether Hobbes (or) Filmer is the chief antagonist of Locke.

There is debate among scholars as to whether Hobbes (or) Filmer is the chief antagonist.

Arguments of those who believed Hobbes is antagonist. ^{Caparon who is against something}

These scholars argue ^{that} since Hobbes book was prohibited, Locke wanted to avoid the controversy hence to criticize the theory of absolute state he targeted Filmer.

Second school of thought who believed Filmer is

Chief antagonist

Filmer was a critic of social contract. Both Hobbes & Locke are social contract thinkers.

Filmer was a scholar of feudal class both Hobbes & Locke are scholars of capitalist class.

There should not be any question mark but he openly criticizes Filmer in first treatises.

Rousse

Rousseau.

Introduction.

Rousseau is known as father of French revolution the slogans of liberty, equality & fraternity attributed to Rousseau.

→ Rousseau is father of popular sovereignty (the concept of general will). He was inspired by the direct democracy practised in Geneva.

Rousseau is known as the thinker of paradoxes

What is paradox

we see contradictory views emerge.

→ on one hand he inspires liberals & on the other hand he inspires socialists

→ on one hand he inspires democrats & on the other hand totalitarians

→ He is also originator of positive liberty & idealism in liberalism.

The famous book of Rousseau is "Social contract"

Famous statement of Rousseau is

"Man is born free, but in every where he chains"

Not only his ideas are paradoxical but his

language is also paradoxical.

With Rousseau begins the tradition of

"Post modernism"

1712 - 1778.

Political philosophy
influenced the progress
of enlightenment
throughout Europe.
as well as aspects
of French Revolution.

French Revolution
- 1789

10th July 2014

Rousseau's Social Contract

What is concern of Rousseau → dealing with free society

How to reconcile b/w liberty & authority

Q1 Rousseau is also ~~an~~ Liberal

Accd to him the purpose of life is happiness.

What is happiness?

Happiness means doing what one wants to do
it means happiness equal to freedom.

Attitude of Rousseau

Though Rousseau belonged to modern age yet he was a critic of modernity. That means he doesn't ~~for~~ appreciate industrialisation, urbanisation, modernisation.

Rousseau on Social Contract.

Human Nature

Accd to Rousseau "man is essentially good."

"Society is bad" Hence he suggest to change the society man will be automatically changed he is the first person to tell that instead of changing man we should change the society. This inspired

Socialists.

What are elements of human Nature

man has self love as well as sympathy for others
it means man can feel the pleasure & pain of other person.
Man was truly free in the state of nature.

Why?

In the state of nature man was leading a natural life means leading a life as per true nature.

In the state of nature man was free to move from one place to another now it's not possible.

State of Nature

Since man was essentially good the state of nature was state of bliss (best).

Contract

Gradually the state of nature came to an end civilization started. It means growth of science, reason, industry & so on.

Rousseau believes that the growth of reason in man spoiled his happiness.

How?

Reason taught man the difference b/w mine & thine (mine & yours). Man started calculating his interest.

who is rational man.

Accd to Capitalism one who can make profit & avoid loss (ability to calculate).

Thus reason spoiled happiness. In the words of Rousseau Man was a Noble Savage &

thinking man is depraved animal
depraved $\rightarrow$ morally corrupt.

Man was Noble Savage.

Rousseau's language is also paradoxical accd to him man was good when he was uncivilized.

thinking was a depraved animal

Since the growth of reason & growth of civilisation man is reduced to animal. He is continuously thinking about the satisfaction of his appetite.

bliss -

depraved

Rousseau criticizes the person who has started the institution of private property

Aid to Rousseau a person who has drawn a boundary & asserted that it is my land led to the creation of property of the state. Thus property created inequality.

Communism

In this way also Rousseau inspires Socialists. However scholars like Karl Marx don't recognize Rousseau as a socialist. Rousseau doesn't support abolition of private property. He believed that private property is a source of good life.

Why people enter into the contract?

Since people feel that they don't have real freedom & happiness they enter into contract

Purpose:

To be able to live in the state of freedom.

People have two options:

① Go back to the nature - He is practical enough to understand that it is not possible.

② Create new society * where man can get freedom. This is the feasible option. So

these people come together to enter into contract

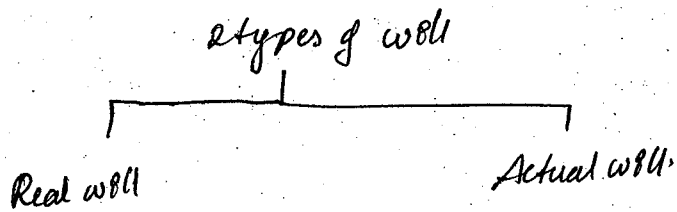

What are the terms & conditions of the contract?

They all agree to act with their "REAL WILL"

Real will of all led to the creation of General will.

Explain the concept of General will & its implications.
& to what extent we can say that Rousseau's general will is stabbed in the back with its head chopped off?

To understand the general will we have to understand the conception of will's given by Rousseau. According to Rousseau there are two types of wills.

Features of Real will.

original will of man - undistorted.

The original will is essentially good. When man acts with original will, he does not act with selfish interest.

Interest

*Focus

Actual will

Original will is how we are; Actual will is how we act. We act with our selfish motive.

Why

Impact of the society in which we live.

Actual will is how we actually behave.

The two wills in man create dilemma. Original will gives right direction. Actual will distracts.

For ex: Our original will tells us we should be honest but our actual will compels us to be dishonest.

We will be free in real sense only when we act with our real will. This is the condition for our true happiness.

(Actual will is adulterated will)

Suppose it is your last attempt & you are going for an interview you see an road accident & by co-incidence person is your close relative he needs your immediate help. However you will miss the interview by the time you will be able to take the person to the hospital what will ^{be} your action.

- ① Leave the person to die.
- ② Call help & one's you are assured to help is coming you go to interview.
- ③ Ignore the Interview & take the person to hospital?

Which course of action you will choose?

→ Everything practical is not good

③ is better as it gives more satisfaction compared to ②.

Everything practical is not good.

What is General will.

General will is the sum of real wills of all. Though it is a sum yet it is more than sum.

Why.

whole is prior to part & whole is more than collection of part.

What doesn't imply.

Rousseau brings the tradition of idealism back he is hitting at individualism.

His theory of wills led to the development of idealistic conception of freedom. which mean

Superior freedom & inferior freedom.

Superior freedom as moral freedom

Leaders like Gandhi, Arbinel, Ashok have explained Swaraj as moral freedom. (i) higher freedom.

In political philosophy idealists like Hegel, scholars of welfare State also support the concept of moral freedom.

~~and~~ on the other hand classical liberals, neo-liberal. reject the conception of moral freedom.

People on the contract agreed that for the sake of true freedom & happiness.

(i) they will act accord to real will

(ii) Real will be the product of the direct

participation of the people in the formulation of law.

Thus Rousseau supports DIRECT DEMOCRACY.

There are two models of Democracy

① Majoritarian model.

ex: John Locke & Bentham

② Consociational model.

where decisions are not taken by majority but by consensus.

How consensus emerges.

Consensus is achieved through the debate - discussions. (Deliberative democracy). Thus in Rousseau we see the beginning

a) Participatory model of democracy

② Consociational

③ Deliberative

for ex Indian constitution is a product of consensus.
whereas the constitution of Nepal has been
adopted by majority.

It is to be noted that the constituent assembly
was a deliberative body. Hence we can say that
the constitution of India represent the general
will of the people.

whether Indian democracy is deliberative?

No it's not noisy

Is Indian democracy consociational?

No it is majoritarian.

why?

Our electoral system is majoritarian & not
proportional.

Should we have proportional representation?

Yes

What is problem in proportional representation,
It leads to coalition govt. & Accd to Rousseau
General will is always right bcz it represents
the real will.

Can general will be equated with state?

Yes bcz state is a collection of individuals.

whether general will represent popular sovereignty?

Yes bcz it is will of people & people form the
state. Thus it means the ultimate power lies
with the people.

Why general will is criticized?

Accd to Rousseau General will is always right
it means people are obliged to follow the general
will.

what should be done when people do not follow general will?

Like Hobbes Rousseau also suggest to punish. In the words of Rousseau man should be forced to be free.

It is paradoxical language but force & freedom are opposite language used to Rousseau man himself want him to be punished if he does not follow the general will.

Why?

Only when he acts with his actual will, he will not want to be punished. When he is exercising his real will, he wanted to be punished for violation of law.

Rousseau's theory of General will have been manipulated by totalitarian leaders like Hitler they held that general will is always right.

whether Rousseau was really supporter of totalitarianism?

No, his intention was to give freedom he even prescribed that direct democracy is the only way to find out the general will.

However totalitarian thinkers have manipulated his idea.

Can we call Rousseau's General will as Hobbes's Leviathan with its head chopped off?

→ Rousseau is known as the thinker of paradoxes. If he is an inspiration for democracy he also

Can be manipulated by totalitarians.
Those who consider that Rousseau's General will
& Hobbes's Leviathan are almost similar. Their
argument is that Rousseau also gives.

① Absolute power to the state or General will.

② Rousseau also give power to punish when he says
man can be forced to be ~~punished~~ ^{free}.

Hence it is held that there is only
structural difference. in Hobbes Sovereignty
is vested in the crown in Rousseau it is
diffused in the Society.

Second argument

However it would be incorrect to compare
general will with Leviathan. we should not ignore
that Rousseau was the champion of
DIRECT DEMOCRACY.

J.S MILLS

Introduction.

If anyone is liberal it is mill. Thus if we
want to understand Liberalism; we should look
at the ideas of mill. rather than John Locke.

Why?

The most important value of Liberalism is
Liberty. no one before mill. has ever discussed
the liberal conception of Liberty

J.S mill is known as the Champion of
Freedom of Speech & Expression.

Mill is utilitarian thinker however he is utilitarian who destroyed utilitarianism.

After Plato Mill is the only philosopher who talks about the Rights of women even Marx neglected Women's question.

13/7/2019

Make a map of Morocco & its neighbouring country

High level dist to ~~Morocco~~ Morocco

What are the agreements signed b/w Morocco & India & what are interests in Morocco.

Me 2 Movement in Hindu News Paper:

→ Morocco's ^{Colonial} history.

J.S Mill is a Inconsistent thinker.

For Example He is a champion of democracy but reluctant democrat.

Why there is inconsistency in Mill.

It is bco of his times. He belongs to the time when people were realising the weaknesses of Classical liberalism (negative liberty) but the idea of welfare state or positive liberty has not fully crystallized. Mill is standing on the crossroads of classical liberalism & modern liberalism.

Ideas of Mill

- ① On utilitarianism.
- ② On Liberty
- ③ On Representative Govt.

Actual will
↓
Bad

23rd class

(ii) On Subjection of women.

On Utilitarianism.

What is utilitarianism?

utilitarianism is described as common man's philosophy.
The Indian version of utilitarianism is Lokayata
version of Charvaka philosophy.

It was the most popular philosophy in the
19th & 20th Century. In Britain.

What was the Reason behind its popularity.

It is Simplicity.

↳ It means easy to understand for a
common man.

Ex: It may not be easy to explain the concept
of Idea to the common man. It is easier for common
man to understand in the language of pleasure
& pain.

There are two types of theories in Ethics

Ethics ⇒ purpose is to guide.
what he should do & should not.

de-ontological.

Values

Non negotiable

Ex: Gandhi didn't
compromise means.

Officer who is strict
& not corrupter

Teleological.

consequentialism.

values

Negotiable consequences

Ex: Machiavelli ends justify
means

A person who transgresses
to honest officer due to
fear of caught

↳ consequences

utilitarianism is consequentialist.

How?

for utilitarians the standard of ethics is to be judged by pleasure & pain. It means that action is right which gives pleasure to a person & that action is wrong which gives him pain.

political philosophy based on utilitarian ethics.

Acced to this approach, the policy of the state should be such which increases the total amount of pleasure & decreases the total amount of pain.

which policies of the state increase pleasure

when state does not intervene in economy. (laissez

faire State or minimal state)

when state makes minimum intervention in an economy

it results into maximum growth means more profit which means more pleasure. Pleasure & Pain can

be understood as profit & loss.

this policy is known as Greatest happiness of Greatest number.

History of Utilitarianism.

utilitarianism has a long history with roots in Sophism. Later on it got associated with Epicureanism. (Hedonism). In modern times the philosophy was

developed by various scholars like Hobbes, David Hume, Priestley etc. However it was Bentham who made utilitarianism as the systematic school of thought. Hence he is called as father of Utilitarianism & at times utilitarianism is also called Benthamism.

In short utilitarianism is a philosophy which justifies capitalism.

→ open market.

↑
original capitalism

Though utilitarianism was popular yet it started facing criticism for Ex: Carlyle called utilitarianism as pigs philosophy.

Why?

Utilitarianism justified the extreme exploitation of the workers in the name of pleasure & pain. They justified unlimited profit in the name of pleasure. Hence there was the protest against utilitarianism. Humanitarian scholars criticized utilitarianism as inhuman.

Role of J.S. Mill.

Mill considered himself as the disciple of Bentham. & thought it is his duty to defend utilitarianism.

What is the impact of ^{Mill's} ~~his~~ Revision of utilitarianism.

In his quest on desire to revise utilitarianism Mill went to the extent of destroying utilitarianism. Hence it is said that Mill was a Peter, who denied his master.

How Mill destroyed Benthamism.

Mill was influenced by Bentham he was also influenced by Greek scholars like Socrates & Plato. Utilitarianism is individualism & materialism.

Hence to treat these aspects of utilitarianism.

Mill bring Idealism. The two ^{ideas} cannot stand together.

Hence he destroys Benthamism & introduces Idealism in Liberalism.

What is Idealism.

① It has origin in the thoughts of Socrates. Idealism stands for the primacy of whole over part.

→ 13th disciple
Peter & master
↓
Related to
Jesus

What is liberalism?

Liberalism as it emerged in John Locke gives primacy to part over whole / society.

What is impact of Mills work on liberalism?

Mills brought idealism & liberalism which later on led to the emergence of modern liberalism.

Modern liberalism is based on the concept of positive liberty. Thus if classical liberalism supports Laissez Faire State modern liberalism support welfare state. $\rightarrow$ open market.

What are main ideas of Benthamism?

Bentham has given utilitarian ethics. Aced to Bentham right action is which increases pleasure & decreases pain. Thus utility is yardstick of choices.

Utilitarian Ethics

consequentialism $\Rightarrow$ $\checkmark$ Pleasure
 $\times$ Pain.

In the words of Bentham nature has placed man hand under the two sovereign masters PLEASURE & PAIN. Hence it is not possible for Man to Act otherwise. Since man cannot act otherwise, he ought to act aced to the pleasure & pain. Not only we act as per the dictates of pleasure & pain. we should Act

$\rightarrow$ Features of Best Pleasure (Bentham)

Aced to Bentham pleasure is just a quantitative term there is no concept of quality of pleasure it means there is nothing called superior pleasure or inferior pleasure. It is only more pleasure or less pleasure.

pleasure = pleasure.
↓
profit = money.

Words of Bentham

"Pushtin is as good as poetry"
Not only pleasures differ in quality persons also do not differ in quality.

Second characteristic of pleasure.

Bentham believes pleasure is materialistic & pleasure is individualistic.

Bentham proposes the principle of the greatest happiness of the greatest number. A state should follow such policy which increases happiness.

Bentham even invented a formulae to calculate pleasure. This formulae is called Felicific — happiness.

Calculus.

What is the meaning of greatest happiness of the greatest number

(i) The yardstick for judging the action of the state.

(ii). One of the most ^{misleading} ~~deceptive~~ principles. (least understood)

(iii) Socialist objected to the principle bcz it gives primacy to pleasure over number.

(iv) Bentham supported minimum intervention in Economy for maximum pleasure or profit.

(v) Capitalist approach to address poverty is based on the trickle down effect only when more resources exist more number of people can be benefited. It is

to be noted that that Bentham is an individualist.

The pleasure & pain of different persons should be counted separately. He does not take organic view of society - He only takes the aggregative

cern Vias

Assignment

Algeria. (Recent development, Protests, Impact of Chat Springer Algeria). India - Algeria Relations.
Libya (Current situation & Relation with India)

Modifications in Utilitarianism made by util

① In the words of Mill. "I regard utility as the highest appeal to action. However it is utility to be understood in its widest sense, based on the recognition of man as a progressive being.

Utility as highest appeal to action means utility is the yard stick for human action. Mill also believes that utility is the ultimate yardstick of ethics (Rightness of human action)

Utility in widest sense means

Utility in wide
(as Mill),

Narrow

(Bentham)

① pleasure is Quantitative.

① pleasure is Quantitative & Qualitative

② pleasure is materialistic (money)

② pleasure is materialistic & spiritualistic.

③ Individualistic.

③ Individualistic & can include others

④ Bentham is saying pleasure & happiness are same.

④ Happiness is wider

Mill accept utility as standard of ethics yet he widens the concept of utility. He adds the concept of quality. Not only pleasures differ in quantity, they also differ in quality.

Not only pleasures differ in quality, persons also differ in quality. (Neither Hobbes nor Bentham accept that persons differ in quality.)

Persons also differ in quality. In the words of Mill, it is better to be a ~~wise~~ ^{Socrates} dissatisfied, than a fool satisfied. It is better to be a man dissatisfied than a pig satisfied. Thus Mill suggest that there is a difference in being animal & human.

The difference comes bcz of the capacity of humans to think & Reason. Hence what satisfies animal, will not satisfy human. Thus quality of pleasure matters. Since person has reason person has capacity to think about the pleasure & pain of the other person also.

The understanding of utility in broad sense is based on understanding man as a progressive being compared to all other animal. Man has a reason & hence capacity.

(lead) When Mill adds the element of Quality, he renders utility felicific calculus useless. The quality cannot be measured.

In Bentham the purpose of utilitarianism was to make a guide for action of the state (greatest happiness of greatest number). In Mill utility is not only guide to public policy but also to the action of individual.

Thus Mill modifies utilitarianism to considerable extent yet he does not destroy.

utilitarianism. He rectified the shortcomings in Bentham provided the stronger base to utilitarianism.

Mill has strengthened utilitarianism in one more way. Up till now there has been an impression that utilitarianism is not compatible with the idea of justice. However,

Mill's conception of Justice

what is context of his theory.

In general it is assumed that utilitarianism is not compatible with the idea of justice

why? It's not compatible.

It is generally assumed that justice is based on some grand divine idea whereas utility deals with

experience (practical) or experience

what is objective of util.

He wants to show that there is no contradiction in utility & justice rather Social Utility. (Greatest happiness of Greatest number) As the basis of justice, he will prove that justice is Social utility.

How he proves justice as Social Utility.

He first tries to understand what is justice & what is origin of justice.

Generally the idea of justice is linked with idea of law. Laws are made to do justice. We all agree with the relation b/w law & justice but we all agree that justice is not just laws.

Justice is broader than law. We will agree that many laws exist which are not just. We also agree that many laws which should have existed.

→ Happiness
Justice

do not exist.

Mill first tries to understand how people understand justice (Mill considers justice as a sentiment) Mill has given 8x examples related to people's understanding of justice.

Ex: ① It is unjust to deprive a person from his legal right
② It is unjust to deprive a person from his moral right. (for Ex Human Rights).

moral rights expect all persons to be treated with dignity.

③ If someone gets which he doesn't deserve
④ does not get what he deserves.

⑤ If someone violates the agreement or does not fulfill the expectations which have been nurtured.

⑥ If someone shows favouritism though favouritism in all situations is not bad.

⑦ The Idea of Equality. These are different conceptions of justice & it is difficult to link them. Though they are very different situations, yet people tend to see "Justice as an unified concept".

what is common link in all the above ideas?

the common thread in violation of rights in all above situations there is a violation of some right.

What is Right?

Right is a valid claim to be protected by the society. It means right is moral. It has to do with social morality.

Social morality means which society ^{finds} ~~likes~~ ^{as} ~~is~~ Right & desirable.

whatever is not according to social morality society
aims to punish.

Foundation of morality.

Right to legitimate claim. Claim means it comes
with obligations. There are two types of obligations.

① Non compulsory & ② Compulsory.

Justice is linked to compulsory obligation.

What is the origin of compulsory obligation.

Inherent desire to punish those who do not
fulfill. There are two components of the desire.

① Self defence - In all human there is an
animal instinct to take revenge.

② Sympathy - People develop the feeling of
revenge even when they are not hurt
individually. Thus it becomes a social concern.

What is in the ground of social concern.

The feeling of security. People want criminals
to be punished even when they are not hurt
individually bcz it can impact the society as a
whole.

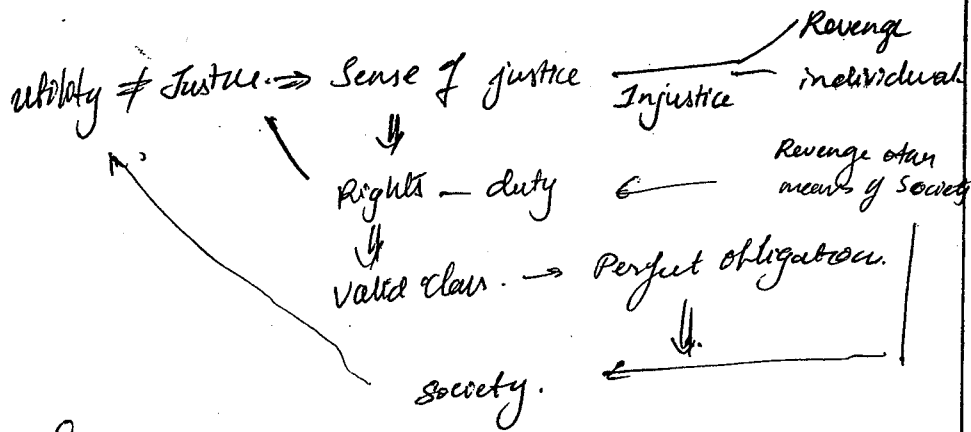

What is the origin of ~~Security~~ security.

Utility, thus justice is grounded in
the need for security which ultimately means social
utility. Thus justice has two foundations.

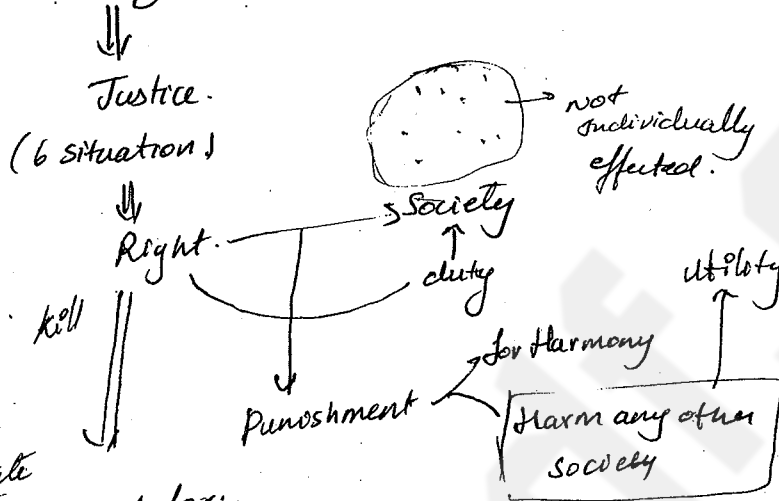

① Individual - desire for retribution
(or) Revenge.

② Social - desire to punish only when
person is not hurt
individually.

Thus the concept of justice has its origin in
utility.

Social utility

Why society is relevant -

Social utility
(Relevance of Society)

Why

Society is also source of security?

How

Society also want to punish who hurt some one's
right bcz society feel that their rights can also be
hurt. Thus violation of rights is injustice.

Every right has its corresponding duty. Thus, utility
& justice are interlinked.

Mill on L

Mill on Liberty

Introduction.

If anyone is liberal, it is mill.

Why.

No one before mill dealt with conception of liberty ground in liberation.

→ up till now utility dominated the discourse of liberalism. However, mill brought liberty to the centre stage.

mill held that liberty is Supreme Utility.

What does it mean?

Instead of maximising happiness state should concentrate on maximising liberty.

What is the utility of liberty?

→ for individual. In absence of liberty man cannot develop himself. Liberty is condition for freedom.

→ Liberty has utility even for society & state.

No state becomes great by Dwarfing its own people.

Mill is inconsistent

On one hand mill want state & society should not put restrictions on man yet he also realises the need to put restrictions.

Here mill provides the famous "Harm Principle".

Mill classifies human actions into two types.

→ Self Regarding &

→ Others Regarding.

Self Regarding action :- In case of Self Regarding action, he does not give any scope for state interference. In the words of Mill, "Over himself over his body & mind man is sovereign."

Others Regarding Action :- Only when the Action of man, "Harm the liberty of other person, State should be allowed to intervene (only)"

In the words of Mill, "The sole purpose for which man kind is warranted (permitted) to intervene in the liberty of the others, is to prevent the harm to the other. Self harm is not a condition. all restraints are otherwise queer restraints qua restraints & means just for sake of Restraint which cannot be justified."

Self harm :- For Mill self harm is the choice of the person. Mill's theory is invoked in number of debatable issues for Ex whether it is justified for the state to ban Smoking (or) drinking of alcohol.

Mill is inconsistent.

Though he does not want any sort of paternalistic authority in Self Regarding action yet he suggests that state should inform the person if he is ignorant w.r.t consequences of his choices.

Ex: Mill does not support the ban on Smoking but would suggest to print warning on the packets. Mill brings more inconsistency when he suggests that state can prevent person from crossing a Bridge which is about to fall. Even when state has informed person yet if person insists

, state can restrict by force

Why?

He brings the mystical Notion of the real will & Actual will. He suggests that no person will really want to end his life.

Others Regarding Action

In others regarding action he already permits the State intervention.

Hence Barker calls him "The prophet of Empty Liberty" & Abstract Individualism.
Mills conception of liberty is negative. He understands liberty as absence of interference by the state. Hence man has absolute liberty only in self regarding action.

Man does not have absolute liberty in other regarding action.

Mills is inconsistent.

Inconsistency is because of two times-times
He is standing on the cross roads of classical & Modern liberalism.

↓
It means he is realising

the limitations of the idea of negative liberty but till that time the idea of positive liberty has not got crystallised.

The first person in whom we see the concept of free liberty is "T. H. Green".

However, we see the beginning of idea of positive liberty when Mill allows state intervention to prevent "SELF HARM". So the example of person crossing the bridge.

Who is Barker?

Barker is a true liberal who finds the concept of "true" liberty as hollow.

Abstract Individualism.

It means Mill talks about imaginary person who lives in world of ideas. The real person living in societies had very ltd scope of freedom in mill's formulae.

Mill is a prophet of Empty liberty.

① Barker is true liberal who finds the concept of "true" liberty as hollow concept of liberty.

② Even when Mill defines liberty as absence of interference, yet he could not defend his own ideas.

(i) He goes for non scientific classification of human actions & creates huge scope for intervention by the state. Very few actions will come in the category of purely self regarding.

(ii) He becomes inconsistent as even in the area of self harm he creates a scope for intervention by the state in two ways.

a) wants state to inform persons

b) want state to prohibit person by

bringing the notion of real will & actual will.

Thus will on one hand challenge the paternalistic authority on the other hand create scope for paternalistic authority.

Though he is known as prophet of Empty liberty yet Mill is also the champion of liberty & it is correct to say if any body is liberal it is Mill.

15th July 2018

Mill on freedom of Speech & Expression.

Mill is a greatest exponent of freedom of Speech & Expression out of all freedoms it is most valuable.

Why its most valuable?

This is the most precious to man by god.

How?

No other Species has ability to communicate to each other through the Speech other than Humans. Animals can only make sound. Along with freedom of Speech & Expression mill also advocates

- ① freedom to act according to Speech
- ② freedom to form association.

How much freedom of Speech to be given?
In this case also he suggests "harm principle".

Mill explains the benefit of freedom of Speech & Expression

- ① It prevents democracy from turning into

"Tyranny of Majority"

In the words of mill just like we will not accept the tyranny of one person over majority, the tyranny of Majority over one person cannot be accepted.

If all but one have a difference of opinion, majority should listen to the minority. just we cannot accept the tyranny of one over all we cannot accept the tyranny of all over one.

② person should allow others to speak. If other person has truth in what he says, we have no right to stop him. If whatever person is saying is not true, he himself will understand & will become quiet.

③ The purpose of life is to understand the truth. Hence, without the dialectics of ideas, in the free market of ideas we cannot understand the truth. When society stops the truth, society prevents itself from moving towards progress. It gives.

Teleological explanation to the concept of truth. Truth cannot be suppressed it will emerge automatically. Hence there is no point suppressing the truth.

HPJ suggest that even such person who are often considered as 'mad' should also be given freedom to speak. We don't know that in whose speech truth will emerge.

Not accepting criticism is the assumption of infallibility. However, only god is infallible. Hence person should accept his to err is human.

Criticism.

Thus we can challenge the outdated customs & traditions by critically examining our thoughts & beliefs.

right & wrong.

Teleological - destiny which means moving towards natural destination.

for ex:-
Rational Genetics

To err → to commit errors.

Mill's Theory of Democracy

1) Mill as a Reluctant Democrat.

Mill is a champion of democracy ^{or usually of meritocracy} why he supports democracy.

No other form of govt protects freedom of speech & expression.

which is the best form of govt Accd to Mill

Direct democracy.

which is the best practicable form of govt

Representative democracy.

In modern times due to the emergence of modern complex societies some form of representative democracy has to be accepted.

Mill is concerned about the future of democracy

What was the concern?

He was fearful that democracy in Britain may turn into mobocracy (or) Tyranny of majority.

Source of Influence

Greek thinkers like Aristotle

→ He got influenced by Alex de Tocqueville's book Democracy in America.

Why he is fearful.

He doesn't want back lash against democracy

Since democracy has been achieved after long struggles, there is need to prevent democracy from turning into tyranny.

What Mill proposes to protect democracy.

His proposals can be classified into two categories.

Cost to western countries

Cost to colonies.

His proposals to protect the future of democracy make him a reluctant democrat. ~~not~~

~~not~~ suggestion cost to western countries.

What was the fear?

Democracy will become Mobocracy.

How to address the problem?

He thinks that by bringing aristocratic element he can save democracy.

Suggestions

① Weighted Voting :- Every one should have right to vote but those who are educated & possess property should be given more than one vote.

② Plural Voting :- person should be given right to vote in all constituencies where he has properties.

③ He supported the strengthening of House of

Lords.

④ As he feared that workers may get majority in parliament he suggested proportional representation.

⑤ He will propose open ballot. (Compatible with freedom of speech & expression)

⑥ He advocated women should be given Right to Vote

(Representation without representation)

Writ to colonies

Mill didn't support democracy. rather preferred.

of Benevolent despotism for people in colonies

In the words of mill, for the "BARBARIANS",

Benevolent despotism should be the option.

Thus, for mill democracy cannot be introduced anywhere, anytime. It can be introduced only when people are civilised. Democratic form of govt without democratic society is not advisable.

Thus mill didn't want to take any risk with the idea of democracy itself. Since he is reluctant to introduce democracy in colonies we can call him as reluctant democrat.

Critically examine mill's ideas on democracy.

mill is not entirely wrong when he is apprehensive about the future of democracy. mill's ideas have become more relevant today. Even

In the countries like USA democracy is fast slipping into the state of Mc democracy. Similarly with the exception of India. Democracy has not been successful in the other countries of third world.

However India proves to be exception we can proudly say that India is

ONE OF THE MOST VIBRANT DEMOCRACIES MOVING TOWARDS MATURITY:

we must appreciate the wisdom of our leaders like Pandit Nehru & Gandhi. If mill is a reluctant democrat Pandit Nehru is a passionate democrat and to Pandit Nehru if people cannot come to democracy, Democracy can be brought to the doorstep of the people. The success of democracy is

despotism &
Authority /
tyranny.

Benevolent despotism
rule in interest of
people.

India is seen as a miracle. India had none of the essential pre requisites for the success of democracy India made "tryst with destiny". & fortunately Destiny favoured.

MILL ON SUBJECTION OF WOMEN.

① After Plato Mill is the second person in the history of western philosophy who is concerned about the status of women.

② Aced to Mill all forms of slavery have been abolished except the slavery of women. It is so universal that it appears natural. Mill favoured right to vote to be given to women & their participation in the civic affairs.

③ Aced to Mill there is no utility in confining women within the four walls of family. It is neither good for women nor good for men. why women shouldn't be confined.

④ Number of times we associate many negative qualities with the nature of women it happens when we confine women within the four walls of family.

⑤ When women are in public sphere. men behave in more civilised manner; there efficiency will be improved.

KARL MARX

No other thinker is as influential as Karl Marx. There is not even a single person on this globe whose life has not been impacted by the ideas of Karl Marx.

Marx is considered by his followers as 'God'. However Marx is a god that has failed.

Marx is a Enemy of Capitalism.

Even when Marx has failed the ideas of Karl Marx haunt the capitalist world. Like

School of thought of Marx

Marx is Socialist

What is Socialism.

Like Capitalism the ideology of Socialism emerged in modern times in the West. Socialism emerges as "Anti - Thesis of Capitalism".

What is the aim of Socialism.

to destroy Capitalism.

Origins of Socialism.

There was a time when the exploitation of poor reached to its extreme hence socialists wanted to end Capitalism to protect the poor from exploitation. The socialism aims to give the life of dignity to the poor & workers. Every ideology represents the interest of a particular class. If Capitalism is the ideology of the Bourgeoisie class & Capitalist class. Socialism is an ideology of Proletariat. (means property less of poor).

What is the main difference b/w Capitalism & Socialism?

Both are essentially an economic doctrines.

Features of Capitalism

Two essential features

① Pvt ownership over the means of production.

② Profit is the motive of production.

Thus in Capitalism Greed rather than need determines the production.

What is the consequence of capitalism.

① Since there is enough for need but not enough for greed. Capitalism creates

"Artificial Scarcity". It creates deprivation.

Poverty is deprivation.

② Capitalism takes away freedom.

The worst consequence of Capitalism is it dehumanises man.

Who are the worst sufferers of Capitalism.

People in the third world countries.

Socialism

In place of pvt ownership Socialism proposes

social ownership means societies ownership over means of production.

Social ownership

It means profit should not be accumulated by capitalist alone it should be equitably distributed. (Cooperative mode of production)

In socialism the production is based on need rather than greed. When production

is for need there will be no artificial scarcity
Socialist believed that modern industrialised
societies need not be organised on capitalist
principles (privat ownership) they can be organised on
socialist principles i.e. social ownership.

Whether Marx was the first person to give the idea of
socialism.

No there were socialists before Marx also. However
Marx is the most important personality in the
history of socialism.

In western world the origin of socialist ideas
goes back to French Revolution. French Revolution
gave the slogan of Equality & Fraternity these are
core principles of socialism.
Comrade-brother.

In France there were socialists like Louis Blanc
who was trying to bring socialism through Revolution.
However they failed.

Why they failed.

According to Marx they lacked the scientific understanding
of situation. Just like the revolt of 1857 failed bcoz
it lacked the proper understanding of the
British rule.

Later on some other persons like St. Simon,
Charles Fourier, Robert Owen tried to introduce
socialism. They are called as Early Socialists.

What was the opinion of Karl Marx on Early
Socialists?

Karl Marx called them Utopian. In practice.
Karl Marx called his socialism as scientific.

28th Amendment
PPSP.

29B & C

may be there is
another

Amendment

but 39(b)

and 39(c)

will prevail

over

17 and 19.

Why he called them Utopians?

Acc to Marx Socialism cannot come by their methods.

What was their methods!

They proposed peaceful method.

Peaceful method means by appealing to the conscience of capitalist class.

Why Socialism could not come through their methods.

① Capitalists will not give the property willingly
(man cannot forget the loss of his property) hence
the only option workers have to snatch the
property (or) to kill the capitalist

Acc to Karl Marx violence is the midwife
of change. There has been no ~~other~~ birth
without blood.

Marx does not believe in the concept of conscience.
had conscience ~~would~~ been existing capitalists could
have changed.

What Marx aims?

He aimed to establish a communist society

What is feature of communist society?

Communist society means stateless & classless.

Hence Marxism is against the state (Anti National)
Marxists believe in "Proletarian Internationalism"

In the words of Marx workers of the world unite,
you have nothing to lose, except your chains.
you have world to win.

What are chains?

① State (or) Nation
② Religion

Marx calls his theory as ~~para~~ PRAXIS

↓
A theory leading to action.

In the words of Marx Philosophers has interpreted the world what matters is how to change the world.

→ Action without Theory will not be successful.

Ex: Revolt of 1857

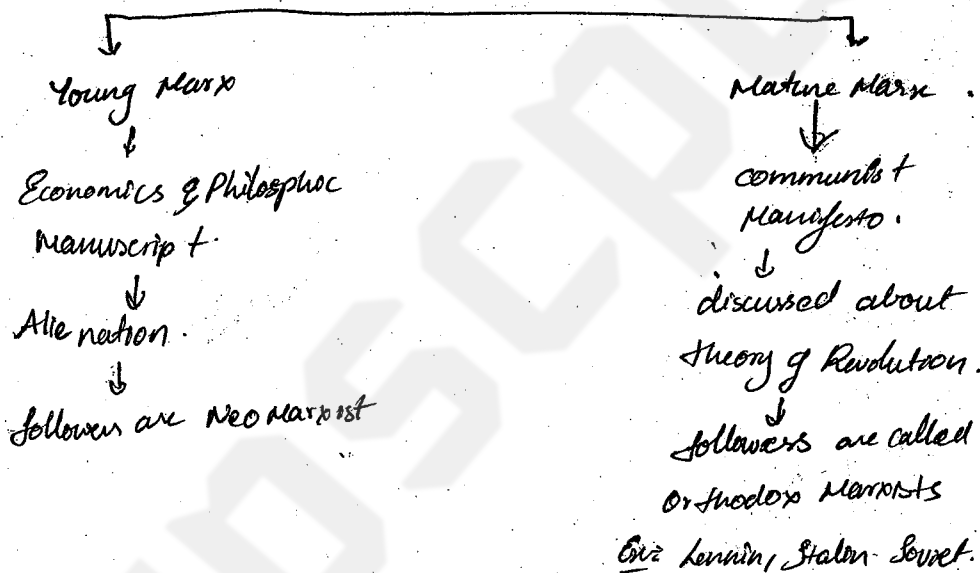

16 July 2014

JORA

Role of India, Australia, Mauritius, last summit.
what plan of Action, what is concept of prasthadi L
prasthadi, dharma, Artha, Karma, moksha.

IDEAS OF MARX

MARX

Prominent Ideas in Communist Manifesto

Purpose of Marx.

To protect the workers from exploitation.

How to protect.

Only when Capitalism ends.

How capitalism will End

only by Revolution. Hence Marxism is "PRAXIST".

PRAXIS :- It means Revolutionary doctrine (philosophy that will lead to Revolution)

Components of Marxism.

- ① Historical Materialism.
- ② Dialectical Materialism.
- ③ Concept of class & class struggle.
- ④ Revolution.
- ⑤ Socialism (Dictatorship of proletariat).
- ⑥ Communism.

Note: Young Marx is a philosopher, mature Marx is a politician.

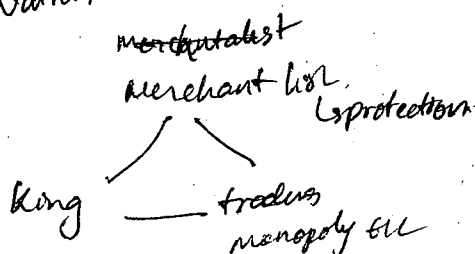

Sources of influence of Marx

Three sources

① French Revolution :- The Socialist Ideas of Equality & Fraternity first emerged in French Revolution.

Marx has criticised French Revolution bcz it has not resulted into the change in the situation of poor. Marx calls French Revolution as Bourgeois Revolution.

② British school of political Economy (Economic policies of state) is associated with Adam Smith. Adam Smith propose laissez-faire (free market Economy). He believed that it will promote the wealth of the Nation.

laissez faire ———> free competition
or
minimal Revolution.
free market

Hinduism 4 Goals

Dharma

Artha —> more imp.

Kama money.

Moksha

Marr. In his "Introduction to the critique of political Economy" has criticised Adam Smith bcz his policies will only lead to "wealth of few" (Capitalist & not masses (workers)) Hence Marx proposed social ownership over the means of production.

③ German ^{Philosophy} ~~Philosophy~~

In German philosophy

Hegel :- Marx takes many concepts from Hegel but at the same time criticise Hegel.

Feuerbach & materialism of Feuerbach :-

Note :- Marxism is meant for the countries where capitalism is fully developed. The ideal country for Marxist Revolution was Britain. However communist revolution never happened in Britain.

The first person to translate Marxist ideas in practice was Lenin. Lenin brought communist revolution in Russia. Russia was not the country where capitalism was developed. Russia was primarily a feudal society. Hence Russia was not prepared for communist revolution. Even when Lenin tried to bring the communist revolution in Russia it could not achieve its logical end. ~~Instead of communism~~

Instead of communism, what was established in Russia was dictatorship. Today if Marxism is criticised as totalitarianism it is bcz of Lenin. Hence even Lenin was the peter who denied his master. The greatest harm to Marx was not done by his opponents but by his supporters.

Marxism is not for world war

What is difference in Marxism & Leninism.

- ① Marxism is meant for countries where capitalism is fully advanced. Leninism is an attempt to bring revolution in the countries where capitalism is not fully developed (capitalism existing with feudalism).
- ② In Marx only workers are the revolutionary class. Since in Russia many workers were not existing Lenin included his Peasantry.

Difference in Marxism & Maoism.

① Maoism is adaptation of Marxism in Asiatic

Situations.

Asiatic situations have two features

- ① feudalism ② Imperialism

Hence Maoism is against feudalism.

If Marx gives no space to peasantry. Lenin gives some space. In Mao peasantry is the main revolutionary class.

If Maoism is against nationalism (considers it as a chain)

Maoism is highly Nationalist. Maoism is not against Capitalism. Maoism is only against foreign Capital & foreign Burgeoisie.

Political Ideas of Hegel.

Hegel was the official philosopher of Prussian State. As an official philosopher Hegel has established that the "State is the march of God on Earth".

It means we should worship the State like God.

Who is Hegel.

Hegel is an intellectual from intellectual class. According to Marx intellectual class is the biggest Enemy of the poor.

Why Marx criticises Hegel.

Marx has to inspire the workers for the revolution against the state. Hence he has to first destroy the theory of Hegel. Aced to Marx Hegel is spreading "False Consciousness".

Since Aced to Marx Hegel is standing on his head, he has to stand on his feet to understand that State is not a march of god. A state is an instrument of exploitation.

How workers will understand.

By rejecting the false consciousness & by developing true consciousness.

How Hegel establishes that State is March of God on Earth.

Hegel establishes it through his "philosophy of history".

It means understanding.

the laws of history. It means how history moves or what factors shape the history.

Hegel's perspective on history.

Hegel is idealist. Hegel gives idealistic interpretation of history. It means Idea is the moving force of history. Or history is movement of Idea.

Since for Hegel matter is a reflection of Idea.

Statement of Hegel: "Real is Rational. Rational is Real".

The first statement explains. This statement explains Hegel's conception of Reality. Thus for Hegel whatever can be understood with reason is real. Idea can be understood through the application of Reason hence Idea is Real.

Note: What is Reality?

Hegel's Answer. Reality is answer of rationality.

Real = Rational. mean Reason

Real - which can be understood by application of Reason.

Idea can be understood by application of Reason.

Hence Idea ~~can be~~ ^{is} Real.

Hegel's Epistemology is Idealist.

Idea is Real

whereas idea is absolute idea.

God is an absolute idea. It means God is ultimate Reality.

Second Statement "Rational is Real."

The second statement explains the political purpose

of Hegel.

what was his political purpose.

to establish that State is god.

now to understand State is god.

to understand that State is god we have to

apply our Reason.

If we apply Reason we will understand on this earth whatever we expect from god. only state is capable of providing hence state is march of god.

It can be understood only when we apply Reason.

Hence Rational is Real.

2nd statement explains Hegel's ontology or political purpose.

Now Hegel explains history.

① He gives idealistic interpretation of history. It means history is movement of Ideas.

which type of movement.

dialectical movement. Thus history is a result of the dialectics of Ideas.

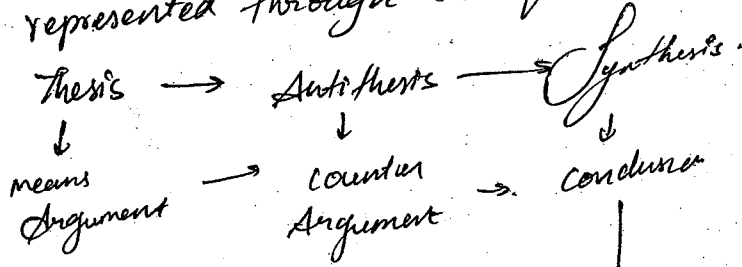

Epistemology
is ideology

What is dialectical movement?

- ① Concept of dialectics was first given by Socrates
- ② purpose of dialectics to understand the truth.

How to dialectics?

dialectics move in the form of debate & can be represented through the equation.

Continues till we reach

Ultimate Synthesis.

what is the underlined theme in concept of Dialectics.

is Contradiction. Conflict

When we use term dialectics we want to describe the contradiction or conflict for ex. we can say that there is dialectics of sex. It means the relation b/w men & women are inherently conflictual.

Why. One is ~~oppressed~~ ^{oppressed} & other is oppressor. one is exploited & other is exploiter.

for ex. we can describe the relationship b/w India & Pakistan is dialectical.

Argument

IBSA (I+M+A) / whose Idea? When Summits started?

When was last Summit? Agenda of their work?

IBSA fund? Contribution of IBSA fund? activities.

IBSA programme & Sustainable development goals?

19th July 2019

What are the ideas involved in the concept of dialectics?

① Contradiction

② Through dialectics we can understand the truth.

The laws of dialectics.

Hegel has given the three laws of dialectics

① Unity of opposites.

② Negation of Negation.

③ Quantity changes into Quality.

In what context Hegel has given the laws of dialectics...

to explain the movement in history. Accord to Hegel history is the product of dialectical movement of idea. Dialectical movement can be understood based on three laws.

① Unity of opposites :- It means in every idea or thing in universe, its contradiction is inherent. For Ex :- If there is an idea of good there is an idea of evil.

→ China & India are originators of Capitalism.

② Negation of Negation :- It means Negativity gets negative. It means higher truth prevails & lower truth dies.

It means every next stage in history is better than previous. It also means that New is inherent in Old.

How New comes?

by destroying the old.

It also means that the person who is negative will destroy himself. Hence a person should be positive.

③ Quantity changes into quality :-

Change does not happen overnight it takes place over a period of time. However a point comes when the change reaches to such level that it appears as if it is entirely new.

Thus with any idea emerges its opposite idea. For ex with the idea of capitalism emerge the idea of socialism. But there will be a contradiction b/w the two movement will take place in the history. History will move in a manner that negative idea gets negated.

For ex 1991 socialism was negated history proves that capitalism was the higher truth. Once contradiction ended history ended.

Evolution of Human History Aced to Hegel.

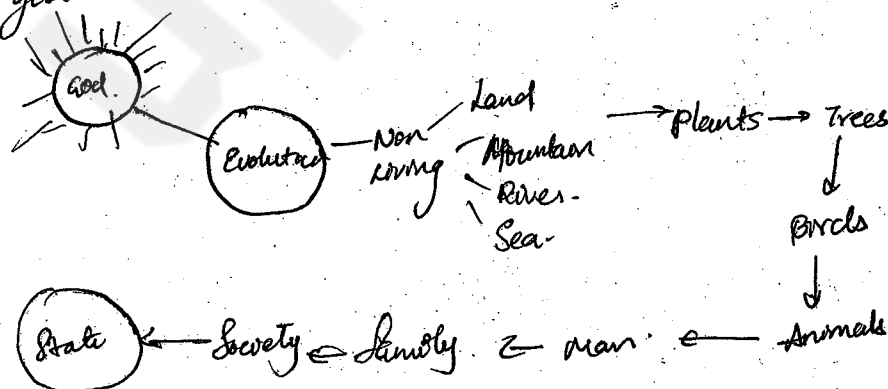

State is march of god on Earth.

How history moves?

History moves through contradiction.

History is a product of dialectical movement of idea. which means history is a dialectical movement of

god.

In each next stage we see more percentage of God.

State $\rightarrow$ 100% God. Thus State is a march of God on this Earth.

How do we understand State is a march of God on Earth.

By application Reason. (Real is Rational; Rational is Real.)

Family $\rightarrow$ civil society $\rightarrow$ State.

Antithesis of family is civil society.

thesis of family is State.

Good feature of family is $\left. \begin{array}{l} +ve \\ \text{Altruism} \end{array} \right\} \begin{array}{l} -ve \text{ is} \\ \text{Egoism} \end{array}$

Bad feature of family is $\left. \begin{array}{l} -ve \\ \text{Particularism} \end{array} \right\} \begin{array}{l} +ve \text{ is} \\ \text{Universalism} \end{array}$

So State represents the Universal Altruism.

How State is equivalent to God?

The two characteristics of God is

① Universalism ② Altruism.

It means for God all human beings are his children. God takes care of all. Why State works in the interest of all.

What will be the view of Marx or Hegel description

of state

According to Hegel State is a Institution representing universal Altruism. (Equal treatment of all the citizens.)

According to Marx State does not have equal love for all. State's love is only for the Rich. Hence the State is instrument of Rich. Why good is also the instrument of Rich.

What is God?

God is an idea.

What is idea according to Marx?

False consciousness. According to Marx God has not created man. Man has created God.

sacrifice of love.

thus he says that Hegel is standing on his head
& we have to stand on his feet

Marx

Historical Materialism:- It is a interpretation of
history by marx. Historical materialism is also
known as materialistic interpretation of history.
(Economic Interpretation of History)

It means Economic factor is responsible for all that
happens in history.

Why marx gives explanation of ~~historical materialism~~ ^{history}.

Because marx has to create history. to create history
marx has to understand the laws of the history.

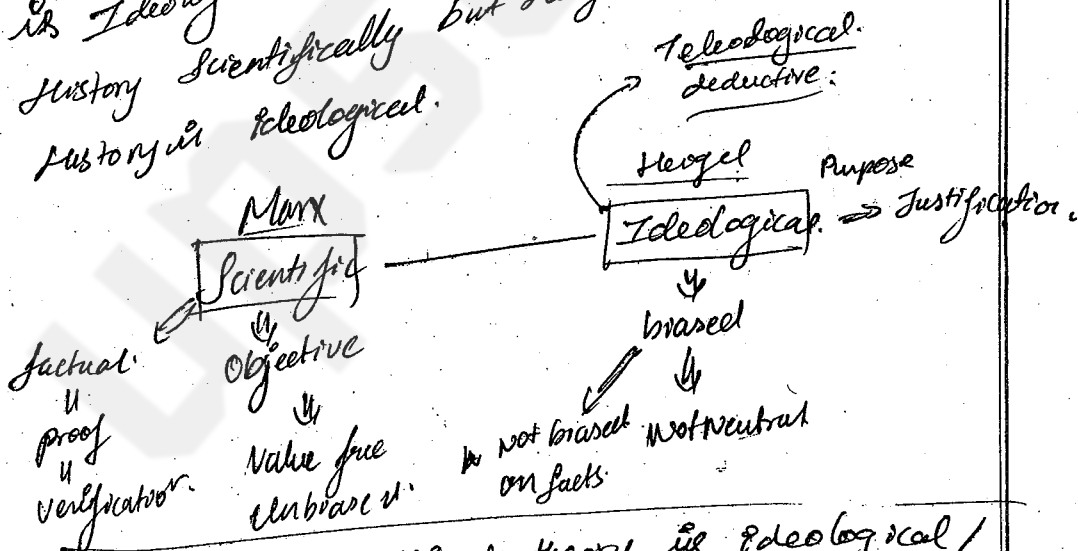

How marx understands the laws of history.

First analyzing the existing theories

↳ the most prominent theory
before marx was. Hegel THEORY OF HISTORY.

Marx was not satisfied with the explanation of history
by Hegel. According to Marx Hegel's explanation of history

is Ideological. Marx wanted to understand
history scientifically but Hegel's explanation of
history is teleological.

According to Marx Hegel's theory is ideological/
teleological / deductive. If

note: what is difference b/w deductive & Inductive method.

→ Inductive is Scientific. → deductive is philosophical
→ Inductive is Particular to General → deductive is General to particular.

what does general mean here?

General means Generalisation.
Generalisation leads to formulation of theories,
Theory leads to formulation of law.

How theories are built in Science.

Theories are built in science through inductive method.
for ex: Newton saw apple falling on the ground.
Then he saw other things also falling he reached
so generalisation. that there is some force in the
earth which we called gravity.

↓
Inductive method.

Deductive method.

In Deductive method conclusion is known before
hence scholars looked for particular point to
prove their point since it is from general to
particular.

for ex: All Gujaratis are money minded.
Mr X is Gujarati & Hence Money minded.

This is a philosophical approach.

for ex: The way Machiavelli explained history is
deductive (Unscientific). He had a particular
opinion about politics & Human Nature. (Already
arrived at a conclusion) He looked only those
examples in history which supported his point of
view. Thus his explanation of history was purposeful.

Teleological / Marx) Deductive.

Hegel is deductive, Hegel & philosopher.
Marx is inductive, Marx is Scientist (Aced to Marx).

Marx's Scientific Explanation of History:

Note: Marx was influenced by Hegel & applies the dialectics of Hegel. Marx was also influenced by Darwin. "Struggle for Existence".

To understand History Scientifically Marx suggest to understand the first historical act of man.

Whether thinking (or) production.

Aced to Marx in order to think, man has to live. In order to live man has to eat. In order to eat man has to produce. Hence production & not thinking is the first historical act what does it imply.

(i) Man can live without thinking, man cannot live without eating (production).

(ii) It means manual labour is more important than intellectual labour.

(iii) It means society can survive without intellectuals. Society cannot survive without workers (those involved in manual labour).

Hence aced to Marx workers should get more than intellectuals.

What happens actually?

The opposite which means injustice. Intellectuals gets disproportionate benefits many times more than they deserve. Workers do not get even what they deserve.

Why this happens.

Blame of Intellectuals. The very first culprit is Plato.

How?

It was Plato who held that Intellectuals should be made rulers & those who are in the task of production are permanently deprived.

What does it mean?

Intellectuals/philosophers are the greatest enemies of the poor. Poor's should never seek guidance from intellectuals. They should develop their own understanding.

Origin of Society.

Society is a division of labour. Man enters into society for the sake of production.

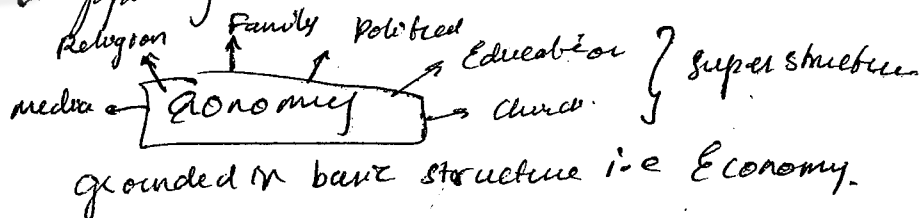

Why.

Production is not an isolated activity. Production is the social activity. Man cannot produce alone. Hence for the task of production man comes in contact with the other person. Thus Economic structure is the basic structure of the society.

From above discussion we can understand Marx view on human nature. There are two basic qualities of human nature. Man is productive/creative by nature.

(iii) Man is social by nature. According to Marx the earliest society was the society of hunters & gatherers.

Marx gives structural analysis of the society. His model of society is popularly known as 'base & superstructure model'.

What are the Implications of this model?

① Economic Structure is the basic Structure.

Structure means Reality. Basic Structure means ultimate Reality.

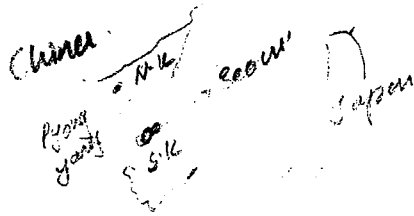

↳ It means the ultimate determinant or determining factor i.e. Economy. (Economic determinism)

Marx is called as Economic determinist.

determinism is a word with negative

Connotation.

KOREA

→ North Korea
Neighbouring
country is China.

→ Korean demilitarized zone is a strip of land running
across Korean peninsula. to serve as buffer zone b/w
North Korea & South Korea.

It is created by agreement b/w

N.K, China, United Nations Command in 1953.

Length is 250 km.

38th parallel north = border before Korean war.
when 38th N. circle of latitude acted as
boundary b/w N.K & S.K in before Korean war.

Background b/w Korea & Japan

→ Before characterized cultural, Economic,
political & military confrontation.

→ Buddhism, Chinese influenced cuisine, Han Character
& other tech came to Japan via Korea.

→ Japan cut off Korea from Qing Chinese. Suffering &
for Japan high priority in 19th century.

→ Japan took control of Korea with Japan Korea Annexation
Treaty of 1910

→ when Japan lost war WW II then. Soviet forces took
control of North. & American forces took control of
South

India & South Korea Relations.

- Bilateral relations b/w India - SK estbd in 1962 upgraded to Ambassador level 1973.
- Look East policy & Act East policy. leading to establishment of strong bilateral relations.

Political Relations

- During Korean war (1950-53) both warring sides accepted resolution. Sponsored by India. July 27, 1953.

Commercial Relations

- India - SK gathered momentum after CEPA. (Comprehensive Economic Partnership Agreement)
- 2011 - \$20.5 billion trade.
- India exports to SK \$2.91 billion & Imports \$8.71 billion.
- India Exports - mineral fuels, oil distillates, cereals, iron & steel.
- Seoul Exports - automobile, telecommunication, non precious, petroleum refined product etc.

Cultural Relations

- Indian Cultural Centre (ICC) in Seoul. Another in Busan.
- Visa on arrival facility for S.K tourists.
- Good air connectivity.

India - North Korea Relations

India maintains embassy in Pyongyang & NK have embassy in New Delhi.

- India is North Korea's biggest trade partner & major food provider. Exports to NK is US \$60 million.
- India is criticg NK nuclear proliferation & disarmament over its military relationship with Pakistan.
- India strongly supported UN resolution & military operations against NK during Korea war.

Trade - 10\$ million in 2000

60\$ million in 2013.

- In 2002 - 2004 India contributed 2000 tonnes of food grains to help North Korea over severe famine like conditions.

UPSCPDF.COM

UPSCPDF.COM

commas

End of Gender Interpellation is after ww2
when men came back from war they saw that women were working
so they felt like women will become superior than men so what
they did is they started depicting women as home makers through
magazines, TV's, radio's (in which happy family is depicted with
women in kitchen)

Ruling class depicts in such a way that it will work for them
Interpellation is from Marxism

- western people always ^{projected} said that Eastern people as
savages, uncivilized & they presented themselves as
educated & civilized.

Today bcz of interpellation we still try to copy
western culture. Even now we feel that if we mimic
western culture we will be developed etc.

wis dom: The quality of having experience, knowledge
& good judgement.

Zeitgeist means "spirit of age" or spirit of the times. It refers
to an invisible age or force dominating the
characteristics of a given epoch in world history.

Rajbala Case :-

The Haryana Panchayat Raj Act, 2015 was challenged
under Article 14 of the constitution of India. The Supreme court
of India dismissed the challenge & upheld the
constitutionality of the Act.

State : It is a territory with its own institutions & populations.
↳ Administrative power

Sovereign state : is a state with its own institutions & populations which has a permanent population territory, & govt. It must also have right & capacity to make treaties & other agreements with other states.

Nations Ex of Non Sovereign States - Hong Kong, ~~Tibet~~ ^{Bermuda},
Ireland, Northern ~~Ireland~~, Scotland & Wales, Greenland, Puerto Rico
& Englandn. which are non sovereign
parts of UK.

Nation : is a large group of people that inhabited specific territory & are connected by history, culture (or) another commonality -

Nations are culturally homogeneous group of people which share a common language, institution, religion & historical experiences. Some nations are sovereign most are not.

Ex - Sicily, Tibet, Corsica, Bosnia

Nation state : cultural group that is also a state.
Nation where political boundary & cultural boundary are matched up -

(or)
nation of people has a sovereign state of their own

Interpellation : Imposing ideas on some one in order to gain benefit for us.

Ruling class will impose ideas into people which will appear as true & natural. Ex - Gender Interpellation.
(Ex - like saying ur boy & shouldn't cry)
(these ideas are implemented in such a manner that it helps us)
